## NO TIME TO TURN BEFORE CRASH

Driver of Car of School Children Testifies in \$2,000 Damage Action.

Evidence was taken yesterday afternoon in the \$2,000 damage action in stituted by Ellen and Hazel Frank against Mary and David Mathewson. arising out of a motor accident on the Springbank road on Oct. 10 1921.

The first witness called by Donald Menzies, who appeared for the plaintiffs, was John Bouke owner of the car in which Hazel Frank was riding when injured, and who was driving the machine at the time it was struck by the car driven by the defendant, Mary Mathewson.

Mr. Bouke told the court of driving on his lane as far as Springbank highway on the morning of the accident, and of stopping on the highway while Joseph Mathewson Under cross-evamination agreement signed at his home on Feb. 6, 1925, in which he promised Mr. Mathewson \$50 in payment for damage

mariel Luce and Heien Campbell, also passengers in the Mathewson machine, did not believe the car was going at an excessive rate of speed. Miss Luce said, "We were yelling and singing at the meeting, presented the new organizer with a box of eigars.

"Having a pretty gay time, eh?" said Mr. Menzies.
"If you call yelling having a gay
time," answered Miss Luce.

Dld Not See Car. car with his sister, testified that, according to his opinion, their car was follows: only 18 or 20 miles an hour, and that he did not see the Bouke car till

they were almost upon it. Mr. and Mrs. James Wallace both

beard, cutting the man, shampooing, or dyengther or payment cutting, singeing, shampooing, or dyenger than the man prefuse to grant a journeyman who does not pass examination for master's license to a journeyman who does not pass examination for master's license.

sciousness and was suffering from concussion of the brain, complained of palns in the right side of her face, in her right arm and in her abdomen. I attended Miss Frank after the accident of the provincial many provinces in the province province province in the province province province in the duties and services incident the duties and services and ordered her back to the hospital on November 29. She had been released in the meantime. While in the hospital this second time I operated on her for appendicitis. Miss Frank was in the ospital for a rest cure but had com plained of pains in her side, so I decided to remove her appendix, hoping that the operation would remove this pain and help in overcoming the nervousness she had been troubled with

since being injured in the accident.
"She was discharged from the hospi tal on Dec. 24 1924 but complained still of nervousness and pains of the head, so she was again admitted to the hospital in May. 1925, and remained there till July of this year. I do not believe she is fully recovered yet." When cross-examined by U. A. Buchner, defence counsel, Dr. Wilson thought that a reasonable amount of dancing would be rather good than otherwise for a person suffering from nervousness.

#### Can Not Remember. The plaintiff, Hazel Frank was the

next witness called by Mr. Menzies. "I do not remember the crash or anything else till I was in the operating room at Victoria hospital," said Miss Frank. 'After coming home from the hospital still suffered a great deal and was back there twice afterwards. I still have pains in my head and arms." Miss Frank testified that she had worked before the accident for Mr. Lawson, with whom her parents and perself lived, at a salary of \$5 a week. counts and correspondence. Since the cident, witness claimed, she had been Miss Frank, when examined by Mr. Buchner, told the court that she had attended two dances since the accident

CHURCH ATTAINS OBJECTIVE One of the first charges of the United church to obtain their objective in the naintenance and extension budget can vass was the Corunna charge, consist ing of Courtright, 6th Line and Cor unna United churches. tures and of its proceedings.

BURIAL OF BARON VON RICHTHOFEN.

Germany's national hero of the great war is no unknown soldier, but Baron von Richthofen, greatest of Germany's aviators, who was shot down by Capt.

A. Roy Brown D.S.O., formerly of Carleton Place, but now of Toronto. Richthofen's body was recently taken to Germany from France and buried with reverence and honor in the Invaliden cemetery in Berlin. The photo on the left shows the airman's mother and brother at the funeral. On the right the casket is seen covered with wresths before the burial. The seat of Richthofen's machine is a war trophy at the military institute, Toronto. Miss Mathewson—I had no time to do so; I just let go of the wheel. Witness claimed that the Bouke car drove out of the lane into her path without a warning signal.

Muriel Luce and Helen Campbell, also Mathewson machine. Muriel Luce and Helen Campbell, also stressed upon the necessity of provincial license and sanitary law for barbers and barber shops, which the meeting heartily endorsed. The following officers were elected: President, Tony dent, O. Strachan; vice-president, Tony secretary. R. E. Bicknell; for the transaction of such business that board shall constitute a quorum, legal for the transaction of such business that may come before them.

Examination.

7. Regular examinations shall be held at least four times a year, and special examinations may be held. Times and places shall be fixed by the board. Apprentices.

8. An apprentice barber or a studen n a barber school shall apply for an apprentice license, and upon approva an apprentice license shall be issued permitting him to practice as an ap-prentice or student under a licensed master barber for one year from the date thereof, when he may apply for a journeymen's license. Journeymen.

 Journeymen's license shall be issued only to one who has studied or practiced for one year as an apprentice or has practiced for at least one year in this or other provinces. The board may refuse to grant a journeyman's witnesses regarding glass on the gravel near the accident, rested their case.

Judge Macbeth will view the scene of the accident on Saturday afternoon before proceeding with the case. Judge for provided, however, that nothing ing in this act. Provided, however, that nothing ing in this act shall be construed to include beauty-parlors or hairdressing shops patronized exclusively by women.

Application.

Cutting, singulas, constance of pass examination for master's license after three attempts, or to one who refuses to take such examination without cause. Application for journeymen's license shall be accompanied by five dollars. Upon approval of the application the board shall issue a journeyman's license to practice barbering unman's license to practice barbering unman's license to practice barbering unman's license after three attempts, or to one who refuses to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refuses to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refused to take such examination for pourneyments are taken and the such as the such examination for master's license after three attempts, or to one who refused to take such examination for master's license after three attempts, or to one who refused to take such examination for master's license. der a master barber for one year from

Not the Issue.

Hon. Mr. Baxter, emphasizing the fact that New Brunswick is not particularly interested in protection for Canadalian industry, nevertheless drove home the point that the province, and the maritimes generally, appreciate that they must think in terms of Canada they must think in terms of Canada for the That they had been doing for the Saliva Mail says: "The British of the first of blood is no longer impeded, and no greater pressure under the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood is no longer impeded, and no greater pressure than ordinary is needed to effect the flow of blood pressure will put an end to the flow of blood pressure will put an end to the flow of blood pressure will put an end to the flow of blood through them. In this way the blood pressure is reduced to normal.

Pressure increases.

Impeded circulation, with consequent stronger heart action, increases tremendously the pressure on the walls of the blood through them. In this way the blood pressure is reduced to normal.

Impeded circulation, with consequent stronger heart action, increases tremendously the pressure on the walls of the flow of blood through them. In this way the blood pressure is reduced to normal.

Impeded circulation, with consequent stronger heart action, increases tremendously the pressure on the walls of the flow of blood through them. In this way the blood pressure of the flow of blood through the "viciou worlds, that day is already dawning
