THE DOCTOR'S DILEMMA.

Richard Morrison, M. D. of This City
the Central Figure in a Dramatic Incident.What He Declares Was Nothing But
a Joke Is Very Differently
Interpreted.

Dr. Richard Morrison of this city created quite a sensation in the quiet little city of Port Angeles a few days ago, and according to both the Leader and the Tribune-Light, is at the present held in very little esteem by all classes of the community in consequence of the incident, that caused all the commotion. The doctor doesn't care to discuss the matter in detail; he states simply that it was all a joke and he regrets that his desire to have a little fun should have been so grievously misinterpreted.

The misunderstanding, if such it may be called, developed out of a remark which Dr. Morrison had made to Mr. M. J. Carrigan, secretary of the American Board of Trade, on the conclusion of the meeting of taxpayers held on the evening of January 28. The doctor was not acquainted with Mr. Carrigan, but he had seen him in the Tribune-Light, and he had been told by a gentleman from San Francisco that he had represented the city of Port Angeles in the Tribune-Light. Dr. Morrison was making a joke, and he was not aware that his remark would be taken so seriously.

Dr. Morrison was not alone in making a joke. He was joined by a number of other gentlemen, and they were all laughing heartily. The doctor was not aware that his remark would be taken so seriously.

"SNOODISH" OWNERS.

Average horse owners in this city are a very different class from those who are known as "Snoodish" owners. The latter are a very different class from those who are known as "Snoodish" owners. The latter are a very different class from those who are known as "Snoodish" owners.

It was proved by the fact that a telegram had been sent to Johnson to sell the horse, while the horse was in the hands of the "Snoodish" owners. The telegram was sent to Johnson to sell the horse, while the horse was in the hands of the "Snoodish" owners.

For the defence the defendant, F. Adams, proved that he had bought the horse from Johnson for \$100. The horse had been in the hands of the "Snoodish" owners for some time, and Adams had bought it from Johnson for \$100.

Mr. George E. Powell appeared for the plaintiff, Mr. J. A. Aikman for the defendant.

THE CITY.

At a very largely attended meeting of the Victoria City Council, held on Tuesday evening, the following business was transacted:

From Hayward's undertaking rooms, Government street, to Christ Church cathedral and thence to Ross Bay cemetery was the route of march of the procession which followed the funeral of the late J. P. Shann on Sunday afternoon. Both at the cathedral and at the grave impressive services were conducted by Right Rev. Bishop Perrin. The pallbearers were C. F. Barron, Geo. H. May, W. H. Collier, Wm. Jenkins, W. H. Stewart and E. Dickinson.

Rev. E. Knappe, of Seattle, superintendent of Lutheran missions, conducted special services in German at the Reformed Episcopal schoolroom on Sunday morning. A fair audience of the Lutheran faith attended, and after service a warm reception was given to the visiting clergyman. Mr. Knappe left for home yesterday evening, but proposed revisiting the people of his form of belief for weeks from Sunday. As a result of Mr. Knappe's visit to Victoria a Lutheran congregation will in all probability be organized before long.

received. Ald. Wilson stated that there are already two women in the building these charitable ladies have already secured, and where some alterations are greatly needed to fit it for the purpose. He thought a couple of hundred dollars might be given for this.

Ald. Huxley said when the suggestion made by the committee was mentioned to Mrs. Walkem, she said they would not go to any expense for alterations until a decision was come to it, but they might need a small grant for the support of the women already in their charge.

Report adopted.

The street committee presented a routine report, which was adopted. Ald. Marchant moved his resolution favoring the appointment of three officers to collect all the civic revenues, and terminating the engagement of the assistant treasurer and present collectors. He explained the advantages of his plan, which in brief that the citizens shall pay their multifarious taxes to one servant of the corporation instead of as now to several. He had no objection to choosing three collectors out of the four gentlemen whose services—clear the way—it is proposed to dispense with.

Ald. Macmillan seconded the resolution. Mr. CAMERON did not think that the scheme would work out so smoothly as he had expected, and he thought it would be better to keep the present system, which was a whole lot better than the one proposed.

Ald. Wilson said that he was not in favor of the scheme, and he thought it would be better to keep the present system, which was a whole lot better than the one proposed.

THE WOMEN'S COUNCIL

Discuss a Variety of Subjects of Considerable Public Importance—Liability Traffic Contended.

Public School Trustees Asked to Reconsider Their Estimates—Moral Reform Agitation.

The Local Council of Women, at their open general meeting yesterday afternoon, under the presidency of Mrs. Charles H. Baker, gave earnest consideration to a great variety of business, some items of which were of more than passing interest to the general public. The range of the subjects was, too, a wide one, embracing the total prohibition question, economy in local educational affairs and moral reform in Victoria. Each of these subjects was discussed in detail, and the meeting was a most interesting one.

free education, and moved for the appointment of a special committee to draft a protest against the imposition of a high school tuition fee.

Mrs. McGregor, an old teacher herself, thought that a greater mistake had been made in the reduction of teachers' salaries than in the adoption of a high school fee. She was of the opinion that the high school privileges were not infrequently abused, scholars being pushed up so quickly from the public schools. Personally she believed in the state giving the child a good common school education; if more was wanted let it be paid for.

Only one other lady supported this view, holding that the teachers should not complain when a high school education of pupils in all but the most advanced and a certain number of the best of the teachers were not having a high school education.
