As to this proposed railway, it would commence at Kitimaat Arm, Douglas Channel, at or near the head of steam boat navigation and where good harbor facilities are available, passing by the most feasible route along the Kitimaat rilway. Besides, the water time to determine if all parts of the route blocked out as very favorable for railway construction. The company was also having surveys made at the present time to determine if all parts of the route are favorable to railroad building. Another point that should not be lost sight of was this—that Kitimaat Arm, Douglas of the proposed on the vote, but without the record of names being asked to commission and Wellington will be expected by the without the record of names being asked to commission with a formal question—coating at least the services of the printers, the paper occupied in the order of the company was notice been given that the reserve placed on lands at Lake Bennett, Teslin lake and Stikine take Bennett, Teslin lake and Stikine to the preparation of the answer—clicit to the preparation of the answer—clicit to the preparation of the answer can be revered and the end of the reserve has also having surveys made at the present time to determine if all parts of the route are favorable to railroad building. Another point that should not be lost wight of was this—that Kitimaat Arm is only distant 230 miles from the north few years the railway from Victoria to Nanaimo and Wellington will be exceeded to the end of the island, which will mean a water trip of but 230 miles thence to the southern terminus of the said reserve was made thence to the southern terminus of the said reserve was made thence to the southern terminus of the said reserve was made the public accounts of the just gone year. The senior member for Vancouver is and 7. No applications have been grant-defined to the end of the island, which will mean a water trip of but 230 miles thence to the southern terminus of the public interest. 2. No. 3, 4, 5, 6 and 7. No applications have been grant-def

I have the minutes of the committee meeting, and I will correct the bill by them.

Mr. Speaker (blandly)—I mean just what I have said. The law clerk is an officer of the house quite competent to do his own work, and I will see t) it that he attends to it properly.

Dr. Walkem—Well, all I can say is your remark was quite uncalled for—and I resent it,

THE RIVER AT REVELSTOKE.

Hon. Col. Baker presented a return of all correspondence with relation to the preservation of the town of Revelstoke from the encroachments of the Columbia river.

district. Nelson and Fort Sheppard, 60 miles long, 60 miles long, 60 miles long, 30.75 miles frontage; depth varies; conveyed 614,400 acres in 1895 and 1897. Kaslo and Slocan, 30.75 miles frontage; depth varies; conveyed 4,647 acres in December, 1895; applied for 284,320 acres 23rd February, 1893, and 92,260 acres 26th March, 1896. Columbia and Western, 187 miles long; conveyed, nil: applied for, nil. B. C. Southern, 150 miles long; conveyed, nil; applied for, nil. B. C. Southern, 150 miles long; conveyed, 1893, reservation, 12th August, 1892, 200,000; Nelson & Fort Sheppard, Jau., 1893, reservation, 12th August, 1892, 750,000: Kaslo & Slocan. Feb.

will mean a water trip of but 230 miles thence to the southern terminus of this kitimaat railway. Besides, the water distance from Victoria to Kitimaat Arm at present is only 530 miles, and the construction of the proposed road would therefore work great advantage to the Capital—to the province as a whole, but more especially to the trade of the cities of the coast.

The bill was read a second time, it being understood that in committee opportunity will be had to correct certain omissions of committee alterations in the bill as presented to the house. These omissions were pointed out by Mr. Macpherson—who consented to the second reading as it was announced the surveyors wanted to get to work at once while the weather was favorable—and weyors wanted to get to work at once Lands and works the respective maps or while the weather was favorable—and plans showing course or direction of Dr. Walkem accepted the blame for the mistake that had arisen. He had passed the uncorrected bill instead of the corrected bill

tea's meeting.

Mr. Speaker announced that the bill would be corrected according to the committee's decisions before it was again brought before the house.

Dr. Walkem—If the law clerk will bring me the bill, I will make the corrections.

Mr. Speaker—The law clerk will attend to that matter.

Dr. Walkem (energetically)—I want to brown what you mean by that remark.

On the different railways made according to the different railways made according to the land laws of the province?

Hon. Mr. Martin replied: 1. 2,719.087 acres applied for. 2, 3, and 4. Esquimatt and Nanaimo, 79 miles long, 73 miles frontage; conveyed to the different railways made according to the land laws of the province?

Hon. Mr. Martin replied: 1. 2,719.087 acres applied for. 2, 3, and 4. Esquimatt and Nanaimo, 79 miles long, 73 miles frontage; care admitted by Mr. Braden to be particularly aimed at.

100,000 acres in 1892-3-4 and 5; blocks uses a policy of a miners' licenses. Although the mining committee are requested to amend the act so as to make naturality acres to make naturality a what you mean by that remark, selected in various parts of Kootenay torney general.

Snowfall the Heaviest Ever Known.

relationship to the voting of supply.

Mr. Cotton thought the two questions were this year closely allied and supported his leader and Mr. Sword.

mining rights expiring at some stated hour, usually midnight, throw the precise open to relocation, often with dozens waiting to select them at the first decrease waiting to select the select them at the first decrease waiting to select the select them at the first decrease waiting to select the select them at the first decrease waiting the select them at the s measure, which was fully described in the Colonist of yesterday. The second reading was agreed to and the bill will be committed on Monday.

Mr. Hunter—in the temporary absence of Mr. Helmcken, in whose name the measure stands—moved the second reading of the bill to incorporate the Mr. Williams dwelt on the importance of the redistribution measure, maintain—in the temporary absence of the bill to incorporate the measure at an armore and although the follows:

Were this year closely allied and supported his leader and Mr. Sword.

Hon. Mr. Pooley argued contra, holding that redistribution could have nothing to do with supply, inasmuch as the estimates of the year would be passed not by the newly arranged house, but by the house as at present constituted.

Mr. Williams dwelt on the importance of the redistribution measure, maintain—in the temporary absence of the bill to incorporate the dozens waiting to seize them at the first dozens waiting to seize them at the first opportunity thus afforded. The bill now before the legislature is probably the first of its kind in Canada, and although the meaning much to the mining communities, is so short that it may very well be quoted in its entirety. It is as follows:

"Where are varieties open to relocation, often with dozens waiting to seize them at the first opportunity thus afforded. The bill now before the legislature is probably the first of its kind in Canada, and although the meaning much to the mining communities, is so short that it may very well be quoted in its entirety. It is as follows:

"Where are varieties open to relocation, often with dozens waiting to seize them at the first opportunity thus afforded. The bill now probably the input to do with supply, inasmuch as the meaning much to the mining communities, is so short that it may very well be quoted in its entirety. It is as follows:

the cost of the civil service.

Mr. Braden has given notice of his intention to make another effort this year the uncorrected bill instead of the corrected copy, by accident, to the law clerk, on the conclusion of the committee's meeting.

In any reservations of lands for containing the said railways, and the committee's meeting.

In any reservations of lands for containing the said railways, and the law giving dates as to each road and number of acres reserved? 7. Were all surveys of lands so conveyed to the different of lands so conveyed to the law so lands so conveyed to the different of lands so conveyed to the different of lands so conveyed to the different of lands so conveyed to the law so lands so conveyed to the different of lands so conveyed to the law so lands so conveyed to t

turn of Mr. Tytler's reports regarding the dying scheme for fluoded lands on the Frager river and protection works in Surrey," and of Mr. Williams for a resturn relating to leg scaling, were agreed to without debate.

Hon. Mr. Turner-I did not say that the remarks of the opposition meant to without debate.

Hon. Mr. Turner introduced a bill to amend the Farmers' Institutes and Cooperation act, the bill receiving its first reading.

RELATING TO TIME.

Hon. Mr. Eberts moved the second said he could state his intentions with regard to redistribution. This he had said he could not do at present.

Hon. Mr. Turner-I did not say that.
Hon. Colonel Baker pointed out that the title and its scope—in the bers on the other side would oppose supply and the farmers' Institutes and Cooperation act, the bill receiving its first reading.

RELATING TO TIME.

Hon. Mr. Eberts moved the second said he could not do at present.
Hon. Colonel Baker pointed out that the title and its scope—in the bers on the other side would oppose supply and the remarks of the opposition meant anything at all, they meant that members the redistribution bill were distribution bill were instructed to them. Yet surely all must understand that the two objects were entirely foreign—the question of redistribution could have no possible redistribution could have no possible relationship to the voting of supply.

Hon. Mr. Eberts moved the second said be could not do at present.

Hon. Mr. Turner introduced a bill to appropriate the present of the mining districts more taken to the mining of its title and its scope—in the legal meaning of expressions relative to time." Such a mater of its title and its scope—in the best on the country. The Spokane Review says of this: "The Spokane Review says built the Trail smelter, inaugurated a vigorous agitation for an export duty on oree, in order to hold the product for his smeller, but the sentiment in Trail Creek is overwhelmingly against such a duty, it being argued that the great need of the camp is cheap treatment for its product, and this can be best brought about by free competition between Can-adian and Udited States smellers."

wish to be a party any obstruction and in expenditures.

The resolution "that supply be grant-commence at Kitimaat Arm, Douglas Channel, at or near the head of steamboat navigation and where good harbor facilities are available, passing by the most feasible route along the Kitimaat valley to Kitselass canyon on the Steeting river, and thence via Germansen creek, Omineca, to Telegraph creek. Reliable surveys in the possession of the possession of the possession of the possession of the control of the printers, the paper occupied in the location and there are 20 feo ore of shipping grade and the valley in the possession of the opposition asked this session by members of the opposition, with a formal question—costing at least the services of the printers, the paper occupied in the orders of the day and the votes and groceding, and the clerical work in the reserve placed on lands at take Bennett, Teslin lake and Stilling and works. It is also surveys in the possession of the possession of the possession of the printers, the paper occupied in the possession of the printers, the paper occupied in the possession of the printers, the paper occupied in the possession of th in spite of rumors to the contrary. Snow has cost Slocan operators many a dollar

Satisfactory reports are being received of developing work on properties adjacent to Salmo, B.C., during the winter, especially on the Queen, owned by J.

D. Turner, of Nelson. A tunnel has been driven about 80 feet upon a 4-foot ledge which assayed \$6 at the start in free milling ore, and machinery is being but in to run an additional 100 feet to cross cut the ledge.

The Salmo Consolidated is a group owned by Nelson and Victorian capital-owned by Nelson and Victorian capital-owned

ing worked with most gratifying results, while its ore ranges along with that of the other properties named. The properties are on Sheep creek within six

miles of Salmo.
Colonel I. N. Peyton emphatically de nied yesterday a report that neg marions are pending with the British American Corporation for the sale of the Le Roi, "There is not a word of truth in the statement," he said.

A rich strike has been made on the hundred foot level of the shaft of the Tamarac mine on Wild Herse creek near the town of Ymir. The ledge is about six feet wide with from two to three feet of pay streak, assaying from \$60 to \$120 per ton. Twelve men are working under the management of John Hanlon, the original locator of the claim. About fifty tons of high grade ore are now on the dump ready for shipment. A new whim for hoisting ore has been creeted at the mine.
