GAINING GROUND RAPIDLY IN EAST

Conservative Party Given Good Reason for Confidence-Will Win Many Seats in Ontario and Quebec

MR. BORDEN

AT BROCKVILLE

Hon, George P. Graham's Seat in that District in Much Danger-Other Ministers Have Hard Struggles

BROCKVILLE, Ont., Aug. 28 .- With a mass meeting in the skating rink tonight, Mr. Borden closed his Ontario tour, which has been marked by a series of triumphs since the opening of the campaign at London. At no place did 'the people acclaim the opposition leader more heartily than in the stronghold of Hon. G. P. Graham. which has returned a Liberal to Ottawa since the death of the late Hon. John

F. Wood. Brockville is just now the centre of the attention for the fight between the minister of railways and canals and Webster, a leading commission merchant, whose business relations bring him constantly in touch with the people throughout the entire riding. In 1908 he made a splendid but unsuccess ful fight against Mr. Graham, going down to defeat by only 144. He was then an untried man. Since then Mr. Webster has developed unusual strength, both off and on the platform, and in the present struggle is backed by a solid Conservatve front and scores of Liberals dissatisfied with reciprocity, he is expected to redeem

Mr. Borden travelled during the afternoon from Ottawa, where he spent Sunday, and seems to have been greatly refreshed after his two weeks of arduous campaign. He was in particularly fine form. On his way from the capital to Brockville, train connections necessitated a wait of some thirty minutes at Smith's Falls. Advantage was taken of the occasion to address the electors of that village and he spoke from the platform. In his speech tonight he dwelt consistently on the political issues, receiving a splendid hearing.

Gaining Ground.

OTTAWA, Aug. 28.—The opening of the fifth week of the campaign finds the Conservative party making great headway in Eastern Canada. Mr. R. L. Borden closed his Ontario tour tenight with large meetings at Smith's Falls and Brockville.

The Conservative leader will begin his Quebec tour tomorrow, and will find the Conservatives there better organized and in better battle order than ever before since the heyday of Conin that province. In the district of Montreal, where Sir Wilfrid Laurier threw the great weight of his Quebec tour, the Conservatives have filled forty-one out of the forty-five nominations. George H. Perley, the chief Conservative whip, who has been directing the Conservative work in Ottawa, leaves this week for his own county of Argenteuil, where

he will be nominated on Wednesday. Sir Wilfrid Laurier, Mr. Sifton and Mr. Foster are all in New Brunswick today, where they will wage fierce warfare during the next ten days. Sir Wilfrid is speaking tonight in St. John, where Dr. Pugsley is hard pressed, de spite the promises of great government expenditures in the riding. In Ontario Ministers Graham and Paterson are forced to stick to their ridings, with the minister of railways in grave danger and Mr. Paterson already a beater man. Hon. Mackenzie King in North Waterloo, is making a desperate fight and is seeking to hold the large German vote in that riding by racial appeals, declaring that Mr. Borden wanted Canada to give ten millions to fight Germany.

It is now generally admitted that the Conservatives will make considerable gains in Ontario and Quebec. One moderate estimate gives eleven new seats in Ontario and a total of twenty. five Conservatives in Quebec. Mr. Bourassa starts a whirlwind campaign in Quebec this week.

Mr. McGillicuddy's Charges

TORONTO, Aug. 28.—At a largely attended meeting, which was disturbed by frequent disorderly interruptions and from which two men were violently ejected, Mr. McGillicuddy tonight at Devine's restaurant at Humber Bay, discussed the charges against Hon. Frank Oliver, minister of the interior, the investigation of which was summarily stopped by the dissolution of parliament. During the course of his address Mr. McGillicuddy read a letter which he sent to Sir Wilfrid Laurier in July before the house of commons reasembled Mr. McGillicuddy's Charges fore the house of commons reason after the summer recess. In this he called that he had showed the premie photograph of a bank account showing tems of \$69,370, disbursed partly for election purposes, and "partly to pay off Mr. Oliver's personal accounts." He had told Sir Wilfrid of another trust account in the name of a son-in-law of the minister, de-posited in the Edmonton bank of which another son-in-law of Mr. Oliver was local manager. Mr. McGillicuddy said he would not say that the mony deposited to the minister's credit at No. 40 Wall street, he would say that it had be more than he would say that it had been paid by the Guggenheims or any other of the hundreds of concessionaries with whom the interior department did business. He charged that Mr. Oliver had "bolstered up the tottering fortunes of his newspaper in Edmonton by getting \$15,000 from a well-known corporation closely allied with the government. On February 17, 1906, he added another \$20,000 from another source to the Bulletin's bank account.

He declared that the minister had deceived the premier by permitting the Cana-

He declared that the minister had de-ceived the premier by permitting the Cana-dian Northern Railway Company to select the lands from the reserve of the Qu'Ap-pelle, Long lake and Saskatchewan railway Company in defiance of the decision of the minister of justice. Mr. Oliver had allowed the land subsidy of the Manitoba and Southeastern railway to be selected in Sas-matchewan instead of in Manitoba.

Sir Wilfrid at St. John ST. JOHN, N. B., Aug. 28 .- The opening was stended by the several thousand persons were unable to get in. On his arrival in the city fir Wilfrid was met at the depot by a crowd numbering several thousands. Many buildings were flag-bedecked. He was escorted to the rink by a torchlight procession with five bands. Many people followed. Besides the premier, speeches were made by local condidates and by Hon-Charles Marcil, of Quebec.

Hon, Mr. Pugsley announced that the Norton Griffiths Company, English contractors, were the lowest tenderers for the Courtney bay dock and other works, but that the matter must go to the cabinet in council before the contract was awarded.

Mr. Cassyrain for Megantio

Mr. Casgrain for Megantic MONTREAL, Ang. 28.—It was announced today that Mr. Charles Casgrain, had decided to accept the Conservative nomination for Magantic, following the withdrawal of the former candidate owing to ill-health. Mr. Casgrain will leave the field in his old riding of Montmorency clear for Hon. Rodolphe Forget, who will run as the Conservative candidate against Mr. Parent, son of Hon, S. M. Parent.

ADMIRAL TOGO

Sanquet Given in His Honor by Seattle Chamber of Commerce—Message

From President SEATTLE, Aug. 28 .- The final function on American soil in honor of Acmiral Count Heihachiro Togo took place tonight when 100 prominent business men sat with him at a banquet given in his honor by the Chamher of Commerce and the commercial

club of this city. In addition to the Americans at the tables were many prominent Japanese among them Commander Hiraga, naval attache to the Japanese embassy at Washington, Consul General Kakamura of Ottawa, Canada, Consul Yada of Vancouver, B.C., and representatives of the Japanese association of Cali-

fornia and Oregon. Mayor George W. Dilling presided nd toasts were responded to by Rear Admiral W. H. H. Southerland, commander of the second division of the Pacific Fleet, Judge Thomas Burge and Consul Takahashi.

Admiral Togo spoke in his native tongue, his address being translated by Commander Taniguchi, his aide. He said:

"On the eve of my departure from your hospitable shores, I am happy to take advantage of this occasion to say once more that nothing could be more cordial than the receptions which your government, a well as all classes of your people, have accorded to me, as the guest of the nation, during my stay in your great republic. Especially I have been deeply impressed and exceedingly gratified by the great honor which President Taft was pleased to confer upon me in your capital city of

Weshington. "Although I have already bidden farewell officially to your government and people, your hospitable citizens have been so good and so kind as not to allow me to pass this city as a private person, and I feel that I am still the guest of the nation today. Moreover, I have learned that your government will be good enough to do me a great honor once again in giving me an escort of a squadron under the command of Admiral Southerland upon my departure

from this port tomorrow morning. "For all these honors, hospitality and friendship. I fail to find words which may give adequate expression to my feelings of profound gratitude, I can orly say, however, that it is my most pleasant duty to carry home with me those evidences of great goodwill shown towards my country by your government and people, and I can assure you that they will doubtless be highly appreciated not only by my government, but also by the whole Japan-

ese nation. BEVERLEY, Mass., Aug. 28.-President Taft sent today the following telegram to Admiral Togo at Seattle:

"Accept my best wishes for pleasant vovage. The government and the people of the United States had much pleasure in welcoming you to this country and regret that your visit to us could not have been prolonged." Mr. and Mrs. J. J. Haslett, who have peen guests at the Empress hotel for

the past few weeks, have left for Prince Rupert and upon their return south on September 3rd, will remain at Glencoe lodge, Vancouver, for a few days before leaving for their home in Winnipeg.

LORD STRATHCONA'S HELP

Gives \$3,000 Towards Vancouver Navy League Fund to Purchase H.M.S. Egeria

That a cheque for \$3,000 has been received from Lord Strathcona as a contribution to the fund being raised for the purchase of H.M.S. Egeria was announced by officials of the Navy League last night. This brings the total amount available for this purpose to \$8,000 The intention of the Vancouver Navy League is to obtain possession of the vessel with the idea of converting her into a training ship for the young men of British Columbia having naval as-

MANY OUT OF WORK

Affected by Strikes in England-Pew Vessels Loading

MONTREAL, Aug. 28.-Upwards of six hundred longshoremen are practically thrown out of work on account of the labor difficulties in England which have resulted in the cancellation and non-arrival in the port this week of many steamers.

Never in the history of the port, it is said by those whose daily work keeps them on the waterfront, have conditions been so bad as they are just now, and it is felt that with large families to support, many of the dock laborers and workers will be the real sufferers through circumstances over

"All of last week," declared a longshoreman this morning, "we have had little or nothing to do. Some of the ships going out took no cargo."

The lumber mills of W. C. McElimon on the Serpentine river, have been totally destroyed by fire with loss of approximately \$18,000, and insurance of less than \$3,000. The fire is believed to have been caused by fusion of the power wires, a transmission wire accidentally falling across the tramway line.

Mr. H. T. C. Knox, Lecturer for British Navy League, Talks on Objects of Patriotic Institution

Mr. Henry T. C. Knox. a former leutenant in the British navy and now chief lecturer of the Navy League, is a visitor in Victoria at present. He is on a pleasure trip of some considerable length, but during it he is endeavoring to arouse interest in the work of the Navy League—an organization which stands for the paramount importance of an adequate navy as the

best guarantee of peace. Lecturing as he does for this organization any statements which he nakes may be regarded as official, inasmuch as they may outline the ideals of the league. "The latest suggestion made," he says, "is that the admiralty should send a flying squadron around the world. It is proposed that this squadron should consist of four of the make a year's trip around the world showing the flag in ports of the Empire new little frequented. This I believe would prove an excellent training for both officers and men, and would have the effect of teaching the outposts of the Empire something of the navy. At present the Admiralty's policy, and undoubtedly a wise policy, is to concentrate a great bulk of the armor! ed fleet around the shores of the Brit ish Islands as that is the point from where the whole Empire can be best defended. The first essential in order to command is concentration. If an excuse is made that Great Britain is unable to afford four of her best cruisers for the purpose of circumnavigating the globe then that only goes to show the need for the provision of more cruisers. Indeed in my opinion there can be no question as to the need for more protected cruisers, as distinguished from armored cruisers, for the protection of the 54,000 miles of the Empire's ocean trade routes.

Need of Larger Pleet "The Navy League in the British Isles intends to devote its energies to pointing out to the inhabitants of the Britsh Isles the need for an increased programme of cruisers and also for insuring that we in the British Isles shall at all times have at least a three months' food supply at home.

league is a non-party organization formed in 1895. I have the honor of having been one of its original founders. During the last sixteen years I have been lecturing throughout Great Britain and New Zealand, I have addressed meetings in 200 preparatory and public schools in Great Britain in adfition to speaking at large public meetings in New Zealand and in all that Dominion's more important schools. The great object of the Navy League, by means of its educational propaganda is to point out to the British people no matter in what part of the Empire they may be situated, the undoubted fact that sea power is practically the whole of their life, and that a heaten British fleet would mean a lost British Empire. Britons have had handed down to them by their forefathers an Empire which was won by the shedding of blood, and the least they can do is to hand down that Empire intact to those that follow them. In order to do that they must retain the command of the sea. The Navy League is I know well supported in Victoria and Vancouver as well as in other parts of Canada, and

will be one of the most powerful organizations in the Dominion. "The German Navy League was founded in 1898 and it now has a membership of 1,200,000 people and an income of at least \$250,000 per annum. The total membership of the British Navy League would not exceed 60,000, and it has an income small in propor-

I very much hope that before long it

tion to its membership.

"Mentioning Germany and ner navy league naturally leads me to speak of the enormous increase of the German fleet, owing mainly to the effect of the propaganda of its navy league wuring the past few years. When the Emperor William came to the throne in 1888 Germany was spending \$12,000,000 per annum on her fleet. This year she is spending no less a sum than \$112,-000,000. The kaiser himself has given it as his dictum that the future of Germany lies on the water. For what purpose is Germany spending so large a sum upon her fleet, when it must be remembered that that nation is also possessed of the largest standing army on the planet. That Germany has nothing to fear from the British fleet, and that our fleet is being built for defence and not for defiance, is shown by the fact that since 1854 our fleet has never been in action against any other fleet. During the last 57 years British ships have been employed in keeping the ocean trade routes of the world open for the safe conduct of British seaborne trade. It (the fleet) is the instrument which Britons have employed in order to stamp out the hideous cruelty known as the slave trade. the traffic in human beings on the east coast of Africa, in which work of prevention and eradication I myself was privileged to take a small share. At this moment the fleet is the shield behind which everyone in the Empire is enabled to carry on his legitimate bus ness without molestation. It is hardly necessary for me to say that the most expensive fleet we could have would be one which would be one per cent inadequate to our needs. Our standard of strength from 1889 to 1910 has been what is known as the two power standard. In 1906 I visited every part of Germany from Emden on the North Sea to Dantzig at the eastern end of the Baltic, including such interesting and important places as Borkum, Heligoland, Bremerhaven, Wilhelmshaven, Hamburg, Kiel and Stettin. In the Oc-

number of the navy journal I wrote an article in which I advocated that we should jay down two Dread noughts in Great Britain for every Dreadnought keel laid down on the other side of the North Sea. Such a standard means peace and I am convinced that anything materially short of it means sooner or later war. As long as man s on this planet and as long as other people want what somebody else pos-sesses so long I am certain will war

I believe that the best way to insure it is to be prepared for war. "We cannot afford from a naval point of view to take any risks, as we have at stake an Empire whose foundation re laid upon sea power. We also have the advantage of the lessons learned in the war between Russia and Japan. Our allies in the far east lost in one day by floating mines thirty-three per cent of their battleship strength, namely two ships out of six.

"Of course I am not going to express my opinion of how Canada can best as sist the Imperial fleet. That is a question which in my view can only be decided by the nine million inhabitants of this splendid Dominion. I shall content myself" with saying that the Em pire is all one and I trust it will always remain so. In conclusion I quote the words of Tennyson:

"Britons myriad voices call-Sons be welded each and all Into one Imperial whole: One with Britain heart and soul. One life, one flag, one fleet, one

Britons hold your own!"

Mr. Knox during his present trip is ecompanied by Mr. A. N. Brown, who is honorary secretary of the Ludgrove school branch of the Navy League, Ludgrove being one of the chief preparatory schools to Eton.

W. R. Brock, of Ottawa, director of the W. R. Brock, of Ottawa, director of the Dominion Geological Survey, is visiting the Skeena river (to have a look at the new silver-lead camp in the vicinity of Hazelton) before going on to the Portland Canai camp, where members of his staff are now collecting data for special reports.

Suddenly finding himself cut off by burning timber while fighting a forest fire near Nelson, Oscar Mills of Paulson, forced his way through four hundred yards of flame, and finally reached safety, badly singed, after a sensational fight for his life.

George Walker of Waterload and

George Walker, of Waterloo, and Fred Ambrose of Nanaimo, were each fined \$50 and costs in the Nanaimo police court recently for infractions of the Bush fires Act. Other charges are
