

GROUP SYSTEM GRAVE MISTAKE

Farmers Imperil Their Organization, Mr. Stansell Says
AT KINGSMILL MEETING
National Candidate Doubts That
Elgin Votes Are for Sale

KINGSMILL, Oct. 28.—(By Staff Reporter).—“A man cannot purchase unless there is something in the market for him to buy, consequently our U.F.O. friend, who made the statement that the Government would buy its way in East Elgin as he alleged it did in Colchester, was insulting the farmers of this riding by insinuating that they could be bought.”
This statement, made at the town hall here to-night by John L. Stansell, was greeted by a round of applause from the large audience that gathered to hear the National candidate. The weather was exceptionally chilly and during the afternoon a heavy rain fell compelling those in the distance to remain at home. Other speakers who addressed the meeting were J. A. Sexsmith, M. P. of Peterborough; S. L. Squires and W. T. Hare, ex-reeve of Mulahide, who presided.
Mr. Stansell, in opening his address, told his audience that he did not propose listing his faults for their perusal for there were others in the riding at the present time who are undertaking to do that. The farmer and laborer, said the speaker, had many things in common and both had every right to organize but when it comes to forming a new political party and thereby introducing group government the farmers had made a grave mistake.
FOURTH CANDIDATE?
Referring to the East Elgin campaign the speaker declared he had been informed that a fourth candidate may at any time enter the field.
“The fight is interesting enough now for a beginner like myself,” he said, “but what would it be with four candidates. Our two opponents at the present time were political bedfellows until they entered the field through finding it impossible to agree.”
Mr. Stansell drew attention to the mud-slinging of his opponents. He had made a promise on nomination day that he would not indulge in such tactics, but he feared that he might have to criticize some of the statements made by his opponents.
“Remember, however, that mud-slinging never did appeal to me and I think no less of either of my opponents personally,” declared the speaker. Mr. Stansell said that the farmers in entering politics had made of a first-class organization a mere temporary affair when it might have been a permanent one. They have set an example to other organizations to place representatives in the house of commons and have laid the foundation for group government in which each party would be legislating for its own interests.
The reason for their having been no close incision in the Ontario Farmers' Government up to the present, said Mr. Stansell, was because the farmers did not have a common enemy.
“A family divided does not make for the well-being of its members, and we Canadians are no more than a huge family,” he said. “If we stand united we shall undoubtedly succeed, but where will we be if we are divided among ourselves?” asked the speaker.
Mr. Stansell drew attention to the outrageous charges regarding corrupt practices in Colchester, made by Mr. Burnaby.
“This man,” he said, “is the head of the Farmers' party, but he is not a farmer, as those who have worked hard in East Elgin. We were not able to engage in the real estate business and make our money before going on the farm.”
Regarding the recent statement of W. G. Charlton that Premier McPherson had shown impertinence in coming to East Elgin to state the issues of the election, Mr. Stansell stated that it was not a case of choosing a Government and that if Mr. Charlton thought the premier's action was impertinent, he himself was as guilty in attempting to prevent the choice of the old party from taking the place of the deceased member.
Mr. Stansell stated that when a man is desirous of making a change he is anxious to know what that change will be, hence the U.F.O. of this riding was not without any great consideration. Discussing the tariff, Mr. Stansell stated that every loyal Canadian is a protectionist, although he may not realize it. He always has a little stronger feeling for his own Canadian industries than for the outsider.
In conclusion, the speaker stated that he stood for a united East Elgin and a better Canada.
MR. SEXSMITH.
Mr. Sexsmith declared that despite criticism public men of to-day, including the much-discussed members of the National party, are doing their best in the interests of Canada.
“It is always easy to make charges,” he said, “but the U.F.O. of this riding goes beyond a doubt that it could not substantiate any charges made. Mr. Burnaby the other night told the Aylmer people that he had affidavits in his pocket showing that liquor and money had been freely used in Colchester, but on looking from the platform he noticed the reporter, and ended up by telling the audience that he had plenty of witnesses who could produce affidavits, if necessary.”
The speaker mentioned the continual criticism of the manufacturers and the attitude of the Government toward them. He declared that, as a farmer himself, he always thought that the more industries that came to the city the greater the demand for the products of the farms.
Sir Robert Borden, now out of public life, had done much for Canada, and while criticized now will, like other criticized public men, be a prominent figure in the world's history.
“Even our opponents have paid great tributes to the late David Marshall, yet they had no good word for him during his lifetime,” said the speaker. “It is worthy of praise after entering his last sleep, he was worthy of it in life.”

Ready to Spend Two Hundred
Million Dollars at Once

ENVOY NOW AT NEW YORK
Labor Leaders Fear General
Holding Back of Produce

WASHINGTON, Oct. 28.—Labor leaders participated to-day with representatives of farms from over the United States with a view to devising ways and means for obtaining credits for the orderly marketing of farm products. Future to obtain such credits, the speakers declared, might result in the inauguration of a general crop holding movement until market prices would provide cost of production and a reasonable profit.
A general committee to draw up a policy to be followed by the conference was appointed with all the various agricultural interests represented. It went into active session immediately. A loan of a billion dollars by the United States to Germany was one plan laid before the policy committee.
William W. Fisher, of New York, who asserted that he represented the German Government, asked the committee to endorse legislation by Congress authorizing such a loan to Germany. He said the German Government was prepared to give such a loan priority over all other claims under the Versailles treaty. Pre-emptory of the German Government and the German nation's seized by the alien property custodian and claims arising from the seizure of German shipping would be offered as additional security, Mr. Fisher said. Germany was ready to purchase \$200,000,000 worth of agricultural products immediately, he asserted, on such an extension of credit.
Mr. Fisher said he held a contract with the German Government authorizing him to secure the billion dollar loan and would have sole charge of spending it.
RECEIVES SILVER CROSS
MITCHELL, Oct. 27.—Mrs. Crabbe, South Ward, has received from the militia department a silver cross in memory of her husband, Pte. Hugh Crabbe, who lost his life in the war.

DRRESSMAKER SAVED FROM OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound in Time.

Ithaca, N.Y.—“Three years ago I suffered from pains in my right side, so severe that I could not raise my feet from the floor. Pain would shoot down my limbs and through my back, and the doctor said I had an abscess. I was in bed two weeks with an icebag on my side and expected any day that I might have to go to a hospital for an operation. A friend came to see me and told me of your wonderful medicine—Lydia E. Pinkham's Vegetable Compound. I began taking it, and after taking six bottles I feel well and strong, do my own work and do dressmaking for others. I cannot speak too highly of your medicine and recommend it to others who suffer with female trouble. It is a Godsend to all women, and you may use my name at any time.”—Mrs. PERMILLA HULSEZER, 218 E. Fall St., Ithaca, N.Y.

ANOTHER ATTACK ON BRITISH CONSULATE IN SPANISH CITY

BARCELONA, Oct. 28.—A large body of Catalanist and Basque students again made a noisy demonstration to-day before the British consulate where they cheered for Ireland and shouted “Down with England.”
All the consulate windows were broken before the crowd could be dispersed by the civil guard. The British consulate has made official protest over the incident.

MAYOR'S TRIP POSTPONED.

ST. THOMAS, Oct. 28.—The rain stopped Mayor Brinkman from taking his promised trip to the clouds with London's chief magistrate yesterday, and again to-day the elements prevented the proposed flight. The mayor is looking forward to an aeroplane trip in the near future. He says that he is anxious to know what it is like to be a bird.

HON. MR. KING AT PRINCE ALBERT

Large Audience Hears the Opposition Leader
TALKS EXPENDITURE
Says Canada's Need Is More
Aces Under Crop

PRINCE ALBERT, Sask., Oct. 28.—Hon. Mackenzie King addressed a large audience which packed the Empress Theatre here to-night. He was assisted by O. Turgeon, M.P.
Mr. King dwelt at some length upon the necessity of encouragement to agriculture as the best basic industry of the Dominion. He pointed out that the latest revenue figures indicated that out of a total of \$220,000,000 only \$200,000,000 had been spent on agriculture or slightly under one per cent, whereas enormous sums of the public money were spent in ways that were wholly unproductive. No country can attain to greatness where the backbone of its prosperity receives such unfair treatment.
He cited the circumstance that there were in Canada at present 194 armories and drill halls owned by the Government, which were being maintained even in times of peace at great expense, and but 25 experimental farms in the Province of Ontario alone, he said, there were two experimental farms and 197 drill halls and armories. The Government is spending this year over \$22,500,000 for military and naval defense and police, in addition to \$175,000,000 on other military expenditures occasioned by the war in the nature of appropriations for soldiers' land settlement, soldiers' re-establishment, pensions and demobilization. For the latter item alone \$20,000,000 had been voted.
Mr. King took no exception to any expenditure being made on account of a returned soldier, but stated that apart from necessary outlays in this connection the country should not be so attention primarily to the fostering of production rather than to matters that were wholly unproductive in their nature.
At the present time only one-tenth of the available land of our country is under cultivation, he said. The duty of the Government at this time is to make the other nine-tenths of Canada's lands yield food for the population and help lift the load from the shoulders of workingmen, their wives and children by lowering living costs, continued Mr. King.
He need more acres under crop more orchards, more herds, more swine more silos and fewer skyscrapers.

SAYS MUNITIONS ON LUSITANIA

Candidate for Governor of New York So Declares
SAYS HE KNEW OF IT
Tragedy Is Dragged In the
Political Arena

NEW YORK, Oct. 28.—(Canadian Press Dispatch).—The sinking of the Lusitania was dragged into the United States political campaign to-night when Dudley Field Malone, Labor-Farmer candidate for governor of New York, and former collector of the Port of New York, discussed federal issues.
He declared that when the Lusitania was sunk by a German submarine she carried a consignment of 4,200 cases of cartridges for the British Government, containing a total of nearly 11 tons of black powder.
As collector of the Port of New York at the time, the candidate said, he knew all about the cargo of the Lusitania and made a report on the subject to the United States state department.
While the presidential candidates of the two major parties campaigned to-night in the Middle West, Senator Harding speaking at Akron, Ohio, and Governor Coolidge at Indianapolis, Indiana, Republican vice-presidential nominee, spoke in New York, and Franklin D. Roosevelt, his Democratic opponent, in Paterson, N. J.
Governor Coolidge declared that under a Republican administration the United States “will continue to be a tribute to its full power to the building of civilization.”
The United States, he added, however, would not tolerate any superciliousness and the nation will never humiliate itself by leaving the determination of its duties to any other jurisdiction.
In his speech at Paterson Mr. Roosevelt said the United States “could no longer draw a Chinese wall about itself and tell the other nations of the world to go to the devil. He asserted that a vote for Cox was a vote to go into the League of Nations with every United States right safeguarded, while a vote for Harding was to remain outside in a position of isolation. Future prosperity in the republic, he said, was dependent on joining the league because the economic problems of the world and States were inseparably linked with those of the old world.
HARDING AGAIN.
AKRON, Ohio, Oct. 28.—“We are never going to have anything to do with a league with an article ten in it,” said Senator Harding, Republican presidential candidate, addressing a large audience here to-night.
To demonstrate the wisdom of the Republican treaty reservations, he cited the president's proposal for a mandate over Armenia, alleging that, though sympathizing deeply with that country, the United States could not afford to send a large army there after Great Britain and France had taken all the desirable territory bordering on Armenia, leaving to Uncle Sam the staying-up and overused people of Armenia.”

WHOLESALE PRICE OF MILK REDUCED BY TORONTO ASSOCIATION

TORONTO, Oct. 28.—A drop in the wholesale price of milk was agreed upon by the Toronto Milk Producers' Association at a meeting here this afternoon and beginning on November 1 the price will be \$2.90 per eight-gallon can, a cut of 35 cents. This will probably mean that the householders of Toronto will get at least one pint more for a dollar than at present, though no pronouncement on this has been made. Twelve pint tickets for a dollar is the present rate. The producers' reason for reducing the price wholesale is that the cost of feed has dropped. While the new price has been set only for November it is believed that it will continue until spring.

The White-Tailed Deer

—perhaps you know it better as the Virginia Deer—is the best and most widely spread representative of American big game. In one form or another it is found over the greater part of the continent. The splendid antlered heads that adorn the homes of many sportsmen are evidence of the popularity of this animal.
In Canada the White-Tailed Deer is represented by three sub-species. The typical form is found in the east, the prairie form in Manitoba westward to the Rockies, and the Columbian White-Tail or Cotton-Tail Deer, which is found in southern British Columbia, between the Selkirk and Cascade Ranges. West of these mountains the White-Tail is replaced by the Black-Tail or Coast Deer, light colored examples of which are sometimes taken for the White-Tail. The White-Tail of the west is known as the Red Deer.
The fleetness of the deer makes a well-placed shot necessary and the sportsman should be sure that his ammunition possesses the speed and accuracy of the new
