The last meeting of the York County Bec-Keepers' Association met at the residence of Mr. John H. Boyer. Mr. Boyer's father kept bees before him, and one of his sons take a very keen interest in beekeeping. We thus have three generations of bee-keepers and all of them known in their vicinity as successful and leading bee-keepers. The family have kept bees for over forty years and at their present home. They began with the straw hive, then the Thomas, and now use what is known throughout that district as the Boyer Hive, it has twelve frames 13½ x 18½ inches. They produce extracted honey. They were amongst the first to have Indian bees. As high as 201 colonies have wenkept and in one apiary. For a season their crop has been over 10,000 lbs. of exmacted honey. Five years ago when the founder of the homestead died many of the bees were sold but there are still over 50 colonies kept. Mr. Boyer says bees have done well this fall, he believes they gathered a good deal of honey from rape.

Personal.

Hou. A. S. Hardy, Premier of Ontario, Canada, in his boyhood days cultivated a The Canadian Bee laste for honey. Journal reports that at the recent Toronto Exposition Mr. Hardy spent some time at the tent where bees were exhibited, and honey exhibit. dso visited the wonder our Canadian bee-keeping friends re proud of their Premier. Most men in high official positions have but little time to notice things outside of their special plice, but the majority of them would be interested in such sweet things as honey and bees if they had half a chance.— American Bee Journal.

[Right you are Editor York. want of mion, organization and action on the part of the individual and large majority of bee-keepers accounts for what interest here is lacking in the general public.—ED.]

M.C. Beaupre, Forestville, Ont., stated readly: Lorenzo Helmer, Forestville, and from 60 acres over 900 bushels of backwheat seed. Since bees have been cut in this vicinity the yield per acre from backwheat has been very much greater.

Embossed In Gold.

To buy and reproduce famous paintings involves and expenditure that could hardly be borne unless, as in the case of The Youth's Companion, the enterprise is sustained by the approval of more than five hundred thousand subscribers. The Companion's Souvenir Calendar for 1898, a series of charming figure-pieces, faithfully copied in colors and embossed in gold, is recognized as one of the richest and most costly examples of this form of art. Yet every new subscriber receives it without additional charge. Moreover, the paper is sent free to new subscribers every week from the time the subscription is received until January, 1898, and then for a full year to January, 1899.

The popular price of The Companion, \$1.75 a year, and the character of its contents, make it a paper for every household. Exceptional attractions are promised for the fifty-two numbers to be issued during 1898. The Rt. Hon. W. E. Gladstone, the Hon. Thomas B. Reed, Rudyard Kipling, Lillian Nordica, John Burroughs, W. D. Howells und Max O'Rell are prominent in the long list of eminent contributors named in The Companion's announcement, which will be sent free to any one addressing

The Youth's Companion 205 Columbus Ave., Boston, Mass.
