MANUFACTURERS OF

*The "Field-Stirling" Patent*

*High Pressure Boiler,*

THE SAFEST AND CHEAPEST STEAM-GENERATOR  
 NOW IN USE.

This Boiler is unusually durable, being made of the best steel and wrought  
 iron exclusively. **No cast-iron is employed.** It is simple in  
 construction, has a rapid, well-defined circulation, and a large  
 cool mud-drum, where all impurities are collected to be blown  
 off. **All parts of the Boiler are readily acces-  
 sible for the closest inspection.** This is  
 point of greatest importance. It has great excess  
 of strength and is not liable to be strained by  
 unequal expansion. The water space is  
 divided into sections so arranged that  
 if any section gives way from short-  
 ness of water, the explosion  
 would be local and com-  
 paratively harmless.

We guarantee dry steam and great economy of fuel.
