THE GLASGOW MARKET.

Edmiston & Mitchells' Monthly Timber Circular reviews the Glasgow market as follows:

Bainess has been rather quiet during the month, but this is invariably the case at the beginning of the year, owing partly to the holidays and the fact that buyers are inclined to look into their stocks before making further commitments. A fair amount of business has been done in pitch] pine and spruce deals, and there are also some transactions reported in Wancy Boardwood. Prices continue to he well maintained all round, and the positem of the market is healthy. Broad 1st pine deals and sidings continue to be enquired after, and the few slupments which come to hand from time to time via In ted States in all classes find buyers at satisfactory prices, while American Hardwoods are also in demand, and shipments are being well absorbed.

WHITE CL YELLOW PINE.—Business has been quiet during the month. There have, however, been a few good lines cleared in Waney Deckwood and F. A. Lower Port.—The stock on hand is now practically exhausted, the balance of the nower Port.—The stock on fand is now practically exhausted, the balance of the old Picton wood, which has lain so long, having been sold recently at 18d. for 15% inch average.
