

tinctly indicated in preference to other blood building agents, because it is agreeable, non-irritant and free from constipating effect. Its hematinic, appetizing and general reconstituent properties are quickly evidenced subjectively, by a general feeling of well-being, objectively, by increased color of skin and mucous membrane and hematologically, by a progressive increase in the number of erythrocytes and percentage of hemoglobin.

Battle & Co., of St. Louis, have just issued No. 11 of their series of charts on dislocations. This series forms a most valuable and interesting addition to any physician's library. They will be sent you free of charge on application, and back numbers will also be supplied. If you have missed any of these numbers, better write Battle & Co. for them before the supply is exhausted.

CYSTITIS.

In the treatment of all cases, rest in bed, with the hips elevated, will often give more or less relief from the strangury and constant desire to urinate; by elevating the hips the urine accumulating in the bladder flows away from the most congested and sensitive part of the bladder. Some recommend opium and belladonna to control the pain. Heat to the perineum and above the pubis, and hot sitz baths, will greatly relieve the tenesmus, and to some extent lessen the congestion of the mucous membrane of bladder. Sanmetto should be freely given, each dose in half wineglass of hot water, and if the urine is acid potassium citrate will render the urine less irritating.

SAL LITHOFOS

A Valuable Effervescent Saline Laxative.

*** * * Uric Acid Solvent. * * ***

Especially indicated in the treatment of - - -
Rheumatism,
Rheumatic
Arthritis,
Gout, Lumbago,
Sciatica, Neuralgia and all Uric Acid Diseases.

SAL LITHOFOS is a preparation containing in an active state Lithia and Sodium Phosphates. It is of special service in the treatment of Chronic Rheumatic and Gouty conditions, their allied affections and in many other disordered states.

Expert knowledge and chemical skill of a high order were required to combine in this palatable preparation the necessary active constituents without it in any way producing the deterioration so often found in many advertised remedies.

SAL LITHOFOS is of value in the treatment of excesses of eating and drinking, restoring the organism to a normal state in a very short time. Sal Lithofos by virtue of its saline aperient qualities, is of distinct service in the treatment of liver cherrrosis and its attendant disorders.
