

NESTLE'S MILK FOOD.

Trade

Mark.

ITS CONSTITUENTS AND PREPARATION.

Manufactured only at Veray, Switzerland, it contains nothing but **Milk, Wheaten Bread Crust and Sugar**, and requires only water to prepare it for use.

The **Milk** is cow's milk, condensed in *vacuo* at a low temperature, to the form of a powder, so that, excepting condensation, the properties of the milk remain unchanged, while its freshness is preserved unimpaired.

The **Wheaten Bread Crust** is prepared from the best wheat by a peculiar method, which preserves all the nitrogenous substances, and makes the crust rich in gluten, while, by being baked at a high temperature, the gluten is rendered soluble; and being browned *throughout* to a certain shade, the starch is converted into dextrine, thus removing a very forcible objection made to many farinaceous foods, viz.: Infants cannot digest starch cells; further, the crust is pulverized to an impalpable powder.

The **Sugar** added is cane sugar, not for the purpose of sweetening, as it is already sufficiently sweet from the sugar of milk in the condensation, but a small percentage for the purpose of supplying the carbon requisite, cane sugar being about 98 per cent. pure carbon.

These constituents are then united in such proportions, that by the addition of *water only* (thus doing away with the danger of milk, usually impure and frequently diseased) in the proportion of ten of water to one of the food, it forms a liquid which, chemically analyzed, will be found to be almost identical with the analysis of *Woman's Milk*. Such are the constituents and preparation of **NESTLE'S MILK FOOD**.

The unequalled favor with which Nestle's Milk Food has been received in Europe and America has, as might be expected, resulted in several imitations under the name of *Milk Food*. We request M. D.'s and mothers not to be influenced by their experience of these imitations.

A pamphlet by Prof. H. Lebert, of Berlin, giving full particulars of the Food, sent to any address on application to

THOS. LEEMING & CO., Sole Agents, 40 St. Sacrament St., Montreal.

We would call attention to **NESTLE'S CONDENSED MILK**, as the richest and purest in the world.

Fig. No. 3 is a comfortable support to the abdomen, but is not so effective as No. 8 in supporting the bowels, spine or chest.

THE IMPROVED BODY BRACE.

FIG. 3.

ABDOMINAL AND SPINAL SHOULDER AND LUNG BRACE.

FIG. 8.

No. 8 is a general and grateful support to the hips, abdomen, chest, and spine, simultaneously and by itself alone, is ordinarily successful; but when not so particularly in spinal and uterine affections, the corresponding attachments are required.
