Intestinal Stasis and Lubrication

"Liquid petrolatum in a large number of cases gives most excellent results, and so far as we know, may be used indefinitely and in large amounts. Its results are particularly gratifying in the dry or rectal types of stasis."

Harold Barclay, M. D., Attending Physician, Knickerbocker Hospital, New York, and C. A. McWilliams, M. D., Presbyterian Hospital, New York.

NUJOL, the quality liquid petrolatum, is highly effective in the majority of cases of intestinal stasis. It thoroughly permeates and lubricates the faeces, assisting normal peristalsis.

Nujol is scientifically adapted by both viscosity and specific gravity to the physiology of the human intestines. In determining a viscosity best adapted to general requirements, the makers of Nujol tried consistencies ranging from a water-like fluid to a jelly. The viscosity of Nujol was fixed upon after exhaustive clinical test and research and is in accord with the highest medical opinion.

Sample and authoritative literature dealing with the general and special uses of Nujol will be sent gratis. See coupon below.

Nujol

A Lubricant, not a Laxative

Nujol Laboratories, Standard Oil Co. (New Jersey),
Room 703 44 Beaver Street, New York.

Please send booklets marked:
