PROFESSOR A. C. BARRY'S

Tricopherous or Medicated Compound

When Theory and Comment authenticate each other, ene can be no mistake. This is the case as regards ATA S Tracopherous. The theory of its operations is as:—That it is imbibed by the absorbents and injected abough the superficial vessels promoting the growth, banty, and health of the Hair when applied to the scalp, and dissipating inflammation of every kind, (whether and dissipating inflammation of every kind, (whether careful by disease or accidental,) when applied to the crapted, blotched, tumorous, punctured, cut, burned, scabled, or in any way irritated skin. It is also assured that it acts upon the pores, those ventilators and escape pers of the system and assists to dispet the materies mortee elements of disease through these important channels. So much for Theory. Experiment proves that the cut le is an invaluable reinedy for all external hurts and considered, and that as a preparation for renewing the vegetance power of the hair, giving it a rich metallic lustre, rindering it classic and cutly, and removing-scurf and challength, it has no equal either in Europe of America, while in cheapness it certainly stands alone.

SIR HENRY HALFORD'S IMPERIAL BALSAM,

THE GURE OF THEUMATISM, ACUTE OR CHRONIC, RHEUMATIC GOUT, NEURALGIA,

AND DISÉASES OF THAT CLASS.

THIS extraordinary and potent compound is made according to a favorite prescription of the above eminent Physician. Sir Ashley Cooper, also, frequently reterred his students to the compound as emmently calculated for the cure of Rheumatism, and other diseases of that class,—its ingredients are entirely from the Vegetable Kingdom, and if any medicine could legitimately be denominant a specific, this temedy is preeninently entitled to that appellation. But the Proprietor does not believe in INFALLIBLE SPECIFICS for the cure of any disease; wet his confidence in this medicine is such from personal knowledge, as to supply it, when taken under his own supervision, on the condition of "NO CURE NO PAY." Its success, in almost every case where it has had a fair and honest trial, fully confirms as general

reputation, of being the very best inclinie in the world, for the cure of Rieumatism. Gout. Neumalota, &c.,

Tononto, 14th December, 1848.

Sir.—Having for a considerable time severely suffered from an attack of Rheumatism, in my right arm and side, I applied to one of our respectable Physicians; but his treatment was of no permanent benefit to me. A was, treatment was of no permanent benefit to me. A was, therefore, induced to procure a bottle of your IMPERIAL BALSAM, which has completely cured me, having now been perfectly free from any kind of pain for twelve months. You may use this communication as you think proper, and refer enquirers to

*Dear Sir.—Being for the last four years subject to severe attacks of Rheumatism, Gout; or Rhematic Gout.—I know not which; and having tried many remedies, prescribed by different parties, I have now no hesitation in stating that your Medicine, called SIR HENRY HALFORD'S IMPERIAL BALSAM, has stopped the complaint in the preliminary stages, four times over, in a few hours. Indeed, although you are rise it to be taken four times. Dear Sir .- Being for the last four years subject to severe deed, although you prescribe it to be taken four times a-day, I have never had to resort to it more than twice. Not only myseli, but some friends to whom I have given some, were similarly relieved:—and in no case have I found it to fail. This is the first Fall, for four years, I have escaped the affliction, and which I attribute, under Providence, to the use of your Medicine.

A Case of Chronic Rheumatism of fifteen years standing, cured by Halford's Balsam and Hope's Pilis.

TORONTO, 14th December, 1348.

DR. URQUIART:

Dear Sir.—I hereby certify, that I have been afflicted with Rheumatism for fifteen years; for a considerable time I was confined to bed, and the greater part of that time I could not more myself; some of my joints were completely dislocated, my knees were still, and all my joints very much swelled: for the last three years, I was scattely able to do three month's work without suffering the most exeruciating pains, I was doctored in Europe by the most exeruciating pains, I was doctored in Europe by several physicians of the highest standing in the profession as well as in this province, I was also five months in the Toronto Hospital, and, notwithstanding all the means use-1010110 Prospirat, and, notwithstanding all the means useful, could not get rid of my complaint, indeed I was told by a very respectable physician that I never could gened, so that at the time my attention was directed to your Sin HENRY HALFORD SIMPERIAL BALSAM, for the cure of Rheumatism, and Rheumatic Gout—and Dr. 1101 & FILLS, I was despairing of ever getting cured when I called on you. I was hardly able to walk, and what was almost miraculous, in three weeks from my commencing to take your medicine, I gained louiseen pounds in weight, my health was much improved, and in about three weeks more my Rheumatism was completely gone and my health perfectly restored. I now enjoy as good health as any man in Canada. Since my recovery I have walked forty-six miles in one day with perfect freedom; and I assure you. Sir, that I feel truly thankful. You can make any use of this you please; my case is known to several individuals of respectability in this city their names you know and can refer to them if necessary.

Yours, truly and gratefully, THOMAS WRIGHT.

THE Subscriber begs to inform his friends and the public generally, that having at a considerable expense entered into arrangements with various Agents in Great Britain, for the purpose of furnishing in-Agerts in Great Britain, for the purpose of furnishing intending emigrants with the best information of Private Lands, both Cleared or otherwise, that he may have to Sell or Lease, he trusts to receive that support and encouragement which the undertaking deserves, by parties possessing Lands for disposal, sending the same to him with the necessary authority, as a published menthly list will be sent to his Correspondents, by which means our Emigrating Countrymen will receive that knowledge they so much require, viz inlew and in what manner they can invest their capital the instant they arrive here. As at present, very little is know of the true capabilities of Canada by a large majority of the British public, the Sub-Scriber confidently hopes that correct accounts forwarded monthly, in the proper quarters, will eventually bring many to our shores who otherwise would have gorgenses many to our shores who otherwise would have gong cisewhere.
