

COMPLIMENTS FROM FRIENDS  
ABROAD.

We have to thank numerous contemporaries, at home and abroad, for flattering notices of the *MONETARY TIMES*. It would be easy for us to fill some pages with these testimonials but we must be content to allow those printed last month and these which we print to-day, to serve as specimens of the opinions held of this journal. It is an additional pleasure to acknowledge, at the same time, the receipt of various letters from subscribers, contributors and advertisers, on the completion of Vol. XVIII. some making suggestions for which we are thankful, and all conveying, in unmistakable terms, appreciation and good will.

We wish it continued success.

One of the very best of our exchanges is the *MONETARY TIMES* of Toronto. We say very best because we like its entire impartiality and reliability. UNDER the heading of "Business facts and comments," the N. Y. *Commercial Bulletin* has the following:—Upward of 150,000 vessels and 600,000 men in Europe and America are engaged in the fishing industry, and the total annual product of fish is not far short of 1,500,000 tons. Few people realize the full meaning of these latter figures. A ton of fish is equal in weight to about twenty-eight sheep, and hence a year's fish supply for ten European countries included in this estimate and the United States and Canada might be represented by 42,000,000 sheep. Of this amount the United Kingdom, Canada, Russia and the United States alone aggregate 1,000,000 tons, equivalent to 28,000,000 sheep.

## MONTREAL MARKETS.

MONTREAL, Sept. 23rd, 1885.

The last few days have developed a decline in the stock market, probably due to the desire on the part of some to sell, and there has been rather more doing. The principal break was in City Passenger Railway shares, which fell off about 2 per cent. Bank of Montreal declined  $\frac{1}{2}$  to  $\frac{3}{4}$ ¢, as also did Ontario and Toronto; Commerce sold at \$1.25 or one per cent off.

General trade is about the same as last week, groceries and metals showing a pretty fair movement, as also do shoes, drugs and wool; other lines rather quiet. Remittances, except in the case of dry goods' payments, are reported as very fair, but in this latter line they are not satisfactory. Failures are few.

ASHES.—The market has again assumed a firmer tone. No. 1 pots being quoted at \$3.75 to \$3.80. A fair amount of shipping is being done, and stocks are reduced, pots in store numbering under 1,000 brls., pearls 131 brls. There has been more doing in this latter line of late, mostly purchases for English account, the price ranging from \$4.80 to \$5.00. There is not enough doing in No. 2 pots to base a quotation on.

DRY GOODS.—Though trade as a whole is on the quiet side, there are some houses which report a fair sprinkling of little orders, and the few travellers out are doing better than was expected so early in the season. Visiting buyers are few, and city retail trade is hardly so active as it should be at the season. Collections and remittances are not a subject for congratulation. There is nothing new in cottons here; the tendency on the other side of the line is upward; our mills keep fairly employed, but not profitably for the stockholders as yet.

DRUGS AND CHEMICALS.—The advance in freights will have the effect of stiffening prices of all heavy chemicals. Quinine, opium, &c. are unchanged, but a rise in quinine is anticipated. Disinfectants are still in good demand at unchanged prices; camphor advanced and very firm; Mercury also dearer. We quote: Sal Soda, \$1.00 to \$1.10 per 100 lbs., Bi-Carb Soda, \$2.50 to \$2.60; Soda Ash, \$1.65 to \$1.75. Bichromate of Potash, per 100 lbs., \$8.00 to \$9.00; Borax, refined, 11 to 12 $\frac{1}{2}$ ¢; Cream Tartar crystals, 31 to 34¢; do., ground, 36 to 38¢; Tartaric Acid crystals, 52 $\frac{1}{2}$  to 55¢; do., powder, 55 to 58¢ per lb.; Caustic Soda, white, \$2.40 to \$2.60; Sugar of Lead, 9 to 11¢; Bleaching Powder, \$2.25 to \$2.75 according to lot; Alum 1.65¢ to \$1.80; Copperas, per 100 lbs., \$1.00; Flowers Sulphur, per 100 lbs., \$2.75 to \$3.00; Roll Sulphur, \$2.40 to \$2.60; Sulphate of Copper, \$5.00 to \$5.75; Epsom Salts, \$1.25 to \$1.40; Saltpetre, \$9.00 to \$9.50; German Quinine, 90¢ to \$1.00; American do., 90 to 95¢; Howard's quinine, \$1.00 to \$1.10; opium, \$3.75 to \$4.25; Morphia, \$1.80 to \$1.90; Gum Arabic sorts, 40 to 45¢; White, 55 to 70¢; Carbolic acid, 40 to 60¢; Iodide Potassium, \$4.25 to \$4.50 per lb.; Iodine, \$5.00 to \$5.50; Iodoform, \$7.50 to \$8.00.

FISH.—The s. s. "Vanguard" and a sailing cargo of Labrador herrings are to hand, the gregating 6,000 brls., the quality is good; price will be about \$4.25, possibly lower; strictly fine C. B. herrings are few, but are
