

NOVEMBER, 1913

When your friends come to Victoria

We will show
them the town

Our Auto Is at Your Service

WE WANT VICTORIA
To Be BETTER KNOWN

We Believe

That if people REALLY knew about Victoria and Vancouver Island, there would be a population here of

*Five Millions
in Six Months*

Vancouver Island is an Empire within itself. As large as England and Wales, it stands in the same relation to North America that England does to Europe geographically. Untold mineral, forest and farming wealth, all undeveloped, call MEN AND MONEY to come here to the LAST WEST, where there is a place and opportunity for any man.

Victoria, the capital city of British Columbia, is the first port on the Pacific by location, as it has been the first port of Canada for tonnage for many years. The Panama Canal will make it bigger and better.

*We Will Have the Largest Drydock in the World.
We Have the Finest Climate in the World.
Information Gladly Furnished Upon Request.*
