

areas in Canada that are neither restricted nor accredited under Canadian regulations, except for immediate slaughter as provided in 92.23.

- c. Brucellosis test or vaccination certificates. Importations from Canada of cattle six months of age or older, except steers and all cattle for immediate slaughter, shall be in compliance with the following conditions and requirements:
1. Cattle from herds designated as brucellosis certified free herds by the Canadian Government, except as provided in paragraph (c)(3) of this section, shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government. This certificate shall show them to be from such herds and that the cattle to be imported have been tested for brucellosis with negative results within 30 days prior to their date of entry. If one or more reactors or suspects are disclosed in such a herd as a result of a brucellosis test at any time, cattle from the herd shall not be imported into the United States unless after such test the cattle to be imported and the herd are tested for brucellosis and found negative and such cattle are accompanied by a certificate in accordance with paragraph (c)(2) of this section of the herd is officially certified by the Canadian Government as a brucellosis certified free herd under Canadian regulations.
 2. Cattle of the beef breeds raised under range conditions in the western provinces of Canada, except as provided in paragraph (c)(4) of this section, shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing them to be such range cattle of the beef breeds and that they have been tested for brucellosis with negative results within 30 days preceding their offer for entry.
 3. All other cattle to be imported from Canada, except as provided in paragraph (c)(5) of this section, shall be accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing that the cattle originated from a herd which is officially certified by the Canadian Government as a brucellosis qualified for
