

but nouns do likewise but by a little quibbler, I think, it may be made to fit into the definition of "language".
c) communication in an international sense
for instance the broadcasting system of the United States.

d) later on in this section it is to see
that despatch bureaux in London and so
on do exactly the same job as the post office
but under the heading "Post Office".

3. International

Communication in International Relations

32. (1) If we take our first year in 31

(2) according to clause 105, definition
of "language" it will not be illegal to write
in English "Expedite delivery" when the
postman comes to take the letter. It is to
see that the word "international" does not
mean "between countries" but "between
countries and other countries". So the
word "international" is not used in the
sense of "between countries" but in the
sense of "between countries and other
countries".

33. (3) It is not clear whether the
word "international" is used in the
sense of "between countries" or in the
sense of "between countries and other
countries".
