Ouotations Lower at Chicago in Anticipation of Today's Report.

CHICAGO, March 8 .- Wheat specualors gave evidence today of considerable bearish feeling based on a heory that very large farm reserves would be shown in the official report, tue Monday. Closing prices were unsettled 3-8c to ½c to 5-8c under last night. Corn finished 1-8c to 1-4c down, and oats off 1-4c to 3-8c. In provisions, the outcome was 5c to 20c

back on the farms, the bulls had to contend with big receipts at Minneapolis and Duluth, and with notice that country points southwest were preparing to make increased ship-ments in consequence of the ideal outlook for crops. Experts who have gone over the best sections of Kansas since the disappearance of the snow, reported abundance of moisture in the if with the plant well rooted and no danger of high winds later.

No Foreign Demand.

Alesace of foreign demand tended further to pull down wheat. The situation in that respect was made more emphatic by statements that much of the recent export business had been merely the filling out of old contracts. Primary arrivals of wheat were 769,-000 bushels, against 417,000 bushels a year ago. Seaboard clearances of wheat and corn equaled 249,000 bush-

There was no snap to the buying side of corn Weather reports suggested lighter feeding and better conditions for hauling. Purchasers also had misgivings in regard to the government report. Talk of enlarged acreage had a weakening effect on

Offiances of an increased run of hogs next week cut some figure in lowering the provision market. Most of the filling, however, came from longs on realizing profits.

.LIVERPOOL, March 8 .- The market opened steady, unchanged to 1/3d higher. The easier American cables yesterday were offset here by the closing firmness in Buenos Ayres and a good overnight demand from the continent for Plate steamers. Indications point to smaller American shipments this week, as indicated by Bradstreet's, and cargoes were more firmly held. During the remainder of the trading the market was dull and inclined lower, with some pressure from freer offers, and a belief in liberal American reserves. At the close the market was dull, but steady, ¼d lower to ¼d higher than yesterday.

Corn opened unchanged to ¼d lower, with some pressure in Plate. At the start shorts were inclined to cover on the firmness in Buenos Ayres, but later pressure developed on the freer Plate offerings. American grade was neglected, awaiting the American Government report.
