SIR WILFRID TO SPEAK AT DINNER

Will Address University Students and Graduates on Tuesday Evening.

SIXTIETH ANNIVERSARY

Many Other Prominent Speakers Will Be at Celebration.

Great interest is being taken in the an nual University College dinner to be held this year in the large drafting room in

this year in the large drafting room in the rear of Convocation Hall next Tuesday evening, and at which Sir Wilfrid Laurier is to speak. This function is one of those looked forward to by all students and graduates as on of the features of the year and this year, which is the sixtleth anniversary of the inauguration of the Literary Society, a special effort is being made to honor the occasion.

In recent years the graduates have not been present in as large numbers as they should be, and this has been due to a great extent to the fact that there is no list of addresses which is up-to-date and reliable; the committee, therefore, have great difficulty in locating the men who are known to be in the city. In order that these may yet obtain tickets for this dinner, a limited number have been placed with H. C. Hindmarsh, 18 West King street, who will be glad to supply any who communicate with him before Saturday at one o'clock.

A glance at the toast list shows the names of Sir Alan Aylesworth, Hon. W.J. Hanna and President Falconer in addition to that of Sir Wilfrid, so that the evening cannot fail to be one of great profit as well as enjoyment to all who have the pleasure of attending.

RAILROAD MUST **INCREASE RATES**

Boston and Maine Affairs Described as in Desperate Condition.

BOSTON, Dec. 10 .- (Can. Press.)-The absolute necessity of an increase in rates for the Boston and Maine Railroad was urged in a report submitted to the public service commission today by S. M. Felton, president of the Chicago and Great Western Railway. President Feiton has been making an examination, as a railroad expert of Boston and Maine affairs, at the request of President Elliott of the New York, New Haven and Hartford System. "The situation is serious," said Mr. Felton's report. "The rate increase are necessary and should be secured at the earliest possible date.
"If the result does not re-establish
the company or make possible the reling of the short term notes which are due in February and June, and the procurement of additional funds ne

cessary to get the recommendations in this report, the prospects are, to say the least, discouraging, indeed." ARE MORE MELONS COMING?

MONTREAL, Dec. 10 .- The Mail of this MONTREAL, Dec. 10.—The Mail of this morning says:

It cannot be denied, however, that more valuable "rights" have been expected. Sir George Paish spoke of "a financial plan other than an increase of capital stock that will yield shareholders a substantial bonus." The plan announced hardly fills the bill, and it is possible that Sir George will be plooked upon as a poor prophet.

The special trust fund created does not include any of the unsold lands or other extraneous assets of the company, however. These still remain, as the statement issued yesterday states, "intact for the future benefit of the shareholders."

In that phrase is to be found consolation for the meagreness of the present bonus. Undoubtedly the present plan is only a foierunner of other segregation plans which, taken altogether, will yield a substantial profit to stockholders. "Look to the future." must still be the mette of holders of C. P. R. stock."

THE WEATHER

METEOROLOGICAL OFFIC rotonto, Dec. 10,—(8 p.m.)—The disturbance mentioned last night is now centred over Quebec, and light snowfalls or flurries have occurred in many parts of Ontario and Quebec. The fine, mild weather has centinued in the western provinces, and in Alberta temperatures of 50 and 60 have been recorded. Cold weather, however, has set in over Northern Ontario.

Minimum and maximum temperatures: Prince Rupert. 40-52; Victoria, 40-52; Vancouver, 34-46; Kamloops, 24-36; Battleford, 16-34; Prince Albert, 18-34; Calgary, 24-54; Medicine Hat, 28-54; Moose Jaw, 17-54; Qu'Appelle, 24-44; Winnipeg, 20-33; Port Arthur, 24-26; Parry Sound, 22-32; London, 29-36; Toronto, 32-40; Kingston, 34-38; Ottawa, 24-34; Montreal, 30-34; Quebec, 26-32; St. John, 24-44; Halifax, 20-46.

—Probabilities.—

Lower Lakes and Georgian Bay—Fair and coider today; rising temperature again on Friday.

Lake Superior—Fine; cold today; rising temperature by Friday.

Manitoba, Saskatchewan and Alberta—Fine and mild.

PHONE THE WORLD GOOD FELLOW LEARN WHAT CHRISTMAS MEANS

Plenty of Poor Children Are Needing a Little Attention in Toronto This Year-The World Good Fellow Will Put You in Touch With One.

Winter does not mean hardship for most of the men who read The World. Big, heavy storm coats and shaggy gloves with soft lining take the sting out of the air. And a grate-fire makes the evenings pass pleasantly at home or at the club. For many, it might just as well be July, except that hockey has taken the place of baseball on the sporting page, and there are holly leaves sprinkled thru the advertisements of the newspapers. Mother, too, and sisters, and the kiddies are warm while he is at busi-

Winter is welcomed by all of them, for winter means that everybody is in town and there is plenty to do and see. Theatres, and concerts, and meetings, and family gatherings make the days and the evenings pass too swiftly. Wifie will hardly be used to her new furs before it is spring, and she won't be able to wear them. It is different with the poor kiddies of poor parents. They feel the cold thru threadbare clothes, and it chases them into the house when the frost

king drives them from the street. Their Christmas is going to be mighty desolate unless someone steps in to help. That is where The World Good Fellows come in. The World Good Fellows made Christmas worth while for two thou sand shivery children last Christmas Day and they are going to beat that record this year. Send your name in to The World, or phone, and get enrolled in the list of the Good Fellows, the real philanthropists, the

One word for you, and The World Good Fellow will send you the name of a little child who may not get any Christmas cheer at all if you do not Are you one of us? Hoping you are.

International Commission Proposes Legislation on

Both Sides of Border HUGE AREA COVERED

Nearly Seven Million People Will Be Affected by Reforms.

WASHINGTON. Dec. 10 - (Can. Press.)-One of the most important sanitary investigations ever undertaken in America has practically been concluded by the International Joint Commission and in a few months legislation probably will be recommended to congress and to the Canadian Parliament looking to the prevention of water pollution along 2000 miles of the northern international boundary.

The investigation, authorized by the treaty of 1910 between the United States and Canada, was begun last spring, and altho it has taken only six months, has covered the territory that lies between the head of Lake Superio and the point where the St. Lawrence River ceasees to become the boundary line between the Dominion and the United States. It has taken in hun-dreds of square miles of territory in

connect them and has gone over int the country drained into the St. Law-rence by the St. John River in Maine. Millions Vitally Interested.
Duluth, Sault Ste, Marie, Detroit,
Juffalo, Niagara Falls, Rochester in the United States and many cities and towns in Canada are concerned in the investigation and in the legislation which may result from it. According to the estimate of Americas officers of the commission between six and seven million people are vitally inter-ested in the prevention of water pollution in this area.

the great lakes and the streams whi

While the enquiry has been directed solely toward the discovery of sewage and has not looked to the typhoid bacillus, it is regarded by sanitarians in Washington as one of the most important ever undertaken, since it is not a unwarranted presumption that in sewage-polluted water the germs of typhoid and other deadly diseases will se found.

The commission's findings will not be made public for several weeks, but it is generally understood here that while they are not alarming, they wil disclose conditions along most of the 2000 miles stretch that should be re-medied to better health conditions

Will Engage Experts.
While the work has been performed under the direction of an organization which has a membership of three from the United States and three from the Dominion, most of the maps made and data gathered have been kept in Washington. A meeting of the full commission will be held next month. It is highly probable the report on conditions will lead to the employment of the best sanitary engineers and experts on water pollution in the United States, Canada and possibly Europe, to clean house along the great lakes and the border The problem of prevention is admittedly so big that American members of the commission have hardly considered its above. have hardly considered it at all, and confess that the best experts in the world should be chosen to tackle it
