

since He gave it, and many other Sunday thoughts can come into your heads on that day.

Soldiers marching in "close order" will take about two and a half feet to each man, but so much time will be required that we must put them closer than that, and save every inch we can and every minute of time. So we will expect them to march in "lock step," and allow only a foot and a half to each person. In one mile there are 5,280 feet. At lock step there will be 3,520 persons to each mile. Each million of them will stretch along for a distance, say, of 284 miles.

Twenty miles a day is good work for a column on the march. We will reckon at that, —it is fast enough for a column moving on to judgment,—and so each million will require fourteen days in passing.

And now all is ready. When shall the column form and the review begin? Let us have a fine day to start with, even though wintry ones should be ahead. We will pitch on the first day of June, with the whole of an all-glorious summer before us.

CHIHLI, which means "direct rule." It is the capital province of the Empire. Population, 27,990,871. They will reach 7,952 miles nearly. The line will stretch from Halifax across the continent, and far away into the
