## COBALTMININGSTOCKS Beaver Shipments

Machinery Now on Ground and Prospecting Being Carried Active Mining Will Soon Begin.

The Preston East Dome Company will soon be ready to begin permanent mining operations, as its machinery and supplies have reached the camp, and the machinery is being assembled as rapidly as possible. Four shafts will be sunk on the Golden Rose vein, which is one of the richest in the whole Porcupine camp. Mined samples of quartz and porphyry taken from six openings averaged over \$100 per ton, and numerous individual assays have shown values in this vein to go from over \$100 to over \$100 per ton.

There are twenty-six different veins on the Preston East Dome properties, that carry gold. On the double cross vein the average assay across the vein was \$91 aton. It is expected that by the time the stamp mill is set up there will be plenty of high-grade ore mined to keep it busy. The stamp mill is of the same capacity as that now working on the Hollinger.

MORE GOLD DISCOVERIES

#### MORE GOLD DISCOVERIES

Additional Showings Found on Smith Veteran in Tisdale.

PORCUPINE CITY, March 3.—(From Our Man Up North.)—New finds are reported on the Smith veteran, where W. E. Edwards has men at work under the direction of Gideon Harkness. When the camp buildings were finished, trenching was started and the first surprise came when it was found that the main vein is fully five feet wider than was first surmised.

Following up the trenching, more free gold finds were located in the quartz. Not until more trenching is done will the full extent of the find, so far as that portion of the vein is concerned, be known.

Chas. Fox.

the men guided to make every hour count.

The direction of the vein is east and west, and carries along a high ridge in the schist formation. Where the drills art at work, the width is about 10 to 12 feet. The shiking is near the west line of the Dome and a trifle to the south and west of where the big Dome mill is to stand.

The machinery now on the ground and in use is merely for prospecting purposes. More machinery for operating a plant will be necessary, but just what will be brought in is not decided upon, and will not be till Supt. Weiss visits Toronto the first of the week, where he will confer with the owners.

Chas. Fox.

Sell. Buy.

#### MUSGROVE TOWNSHIP

District Should Make Good Prospe ing Ground-Values to \$5 a Ton.

PORCUPINE CITY, Mar. 2.—Prospetore are coming in daily from the Mugrove district, and while no sensation reports are given out. In nearly everage they say the district has a good a pearance and will make good territory which to prospect during the coming the comin

The heaviest and doiomite.

The heaviest owners in the new distribute the W. E. Edwards syndicate and crew of men were sent down yesterday do the work on 15 claims that were stated during the rush. They also hold several other claims which were staked to fall, and on which the work was done in the comment.

#### SILVER BAR AFFAIRS Shareholders Meet on Thursday to Trethewey Watts

Reconsider Reorganization.

A meeting of the shareholders of the Silver Bar Mining Co. the incorporation of the emplay. It will be remembered that the shareholders met on Feb. 27, when a proposition for reorganization was placed before the meeting by H. H. Lang of Cobnit. This called for the incorporation of a new company, the Silver Bar. Mines Limited, with a capital of \$1,500,000. to place 200,000 shares of this in the treasury, and to offer 200,000 shares of the Silver Bar. Mines Co. the shareholders would receive a share in the new concern. This you'd place \$55,000 in the treasury to pay off the debis outstanding and leave \$25.000 for mining purposes.

The proposition to be considered on Thursday is somewhat different. The capital will be increased to \$2,000.000. the share, which would give the company \$60,000. The balance of the capital stock (500,000. the capital will be increased to \$2,000.000. the capital will be increased to \$2,000.000. The balance of the capital stock would remain in the treasury.

The portles conducting the reorganization have succeeded in having the sale of the property and plant postponed 10 days, that is to March 13.
