CANADIAN SWIMMING ASSOCIATION OFFICERS.

MONTREAL, Nov. 11.—A meeting of the Canadian Amateur Swimming Association was held here this afternoon. Messrs. Murray Hannah, president, representing Lakeside; L. G. Norris, secretary, representing Vancouver; and Y. M. C. A. Montreal, Chris Goulden, treasurer, representing Montreal Swimming Club; Norman Thomson, representing Ottawa Swimming Club; and D. Logan, representing the M.A.A.A., being present.

One of the questions dealt with was concerning an unscheduled meet held in Alberta during the past summer. It was decided not to suspend the swimmers who participated, as the trouble was due to a misunderstanding with the A. A. U. of C. A telegram was received from that body, in which they recognized the C. A. S. A. as the governing body in swimming matters in Canada. The two associations are arranging to prevent the holding of unscheduled meets throughout Canada, and to protect athletes of both bodies.

A letter was received from Mr. McLean, chairman of the bath committee of the New York Swimming Association, bringing up the question of uniform diving suits between Canada and the United States. The matter was left over for further discussion.

The case of Daniels, the New York crack swimmer, who has twice entered Canadian meets and then failed to turn up, was brought up. It was shown that on the last occasion Daniels had been absent from his entry was sent in. The meeting decided not to take any action against Daniels on this occasion.

National Gun Club.

A shoot was held at the National Gun Club, Queen's Wharf, when the following scores were made:

McDuff	50	47
Stouffer	46	40
McDuff	46	40
R. Beard	10	9

There will be a shoot every Saturday, beginning at 2 p.m., to which all trap shooters are invited; a good supply of shells always on the grounds.

Technical Cross-Country Run.

The Technical High School annual cross-country run was held on Saturday afternoon in High Park over a three-mile course. Roy Jackson, who finished first won the Gooderham shield and cup. The night school shield and cup was won by Burkes and the day school shield and cup by Tom Coles. The boys for contest ran under sixteen was won by Gordon Baker.

Freak Field Goal.

PRINCETON, N.J., Nov. 11.—A freak of fortune enabled Princeton to defeat Dartmouth in the final period here today by the score of 3 to 0. With the ball hit the ground 15 yards from the goal line, but bounded over the crossbar and was called a goal by Referee Langham. The two eleven were evenly matched and the result was in doubt until the final whistle. Princeton's defence again saved the day for the Tigers.

Havana Ball Team Wins.

HAVANA, Nov. 12.—The Havana baseball team defeated the Philadelphia Nationals to-day by a score of 3 to 2.

BRILLIANT GATHERING
FOR OPENING OF HOUSE

No Inking as to Contents of Speech From Throne—Gossip of the Corridors.

OTTAWA, Nov. 12.—(Special).—This week will be a gala one for Ottawa, and is being looked forward to with more than ordinary interest by both politicians and the social world. Members are already arriving in the city, and to-morrow will see them pouring in on every train. The question of accommodation promised to be a serious one, as more than the usual number of members and senators are bringing their families to the capital on account of the brilliant social season which is anticipated.

For the opening there will be notable and society folk here from Halifax to Vancouver. There are going to be many disappointments at the opening, for every available seat has already been assigned, and the apartments are still pouring in by the hundreds. The drawing room on Saturday night will be one of the most gorgeous functions ever seen in Ottawa. The Duke and Duchess are sparing no pains to look after the comfort of those attending, so that despite the crowded conditions there will be much inconvenience.

The announcement of the arrangement of the seats of the house has roused more than ordinary interest. The biggest surprise was the leaving of the desk vacant beside Sir Wilfrid Laurier. It has revived the stories that Hon. George F. Graham will re-enter the house and will succeed the ex-premier shortly as opposition leader. It is said South Renfrew will be open when T. W. Low will resign in his favor. Whether the Conservatives will allow him to go in by acclamation is very doubtful.

There is considerable speculation as to the character of the speech from the throne, but there has been no inking yet as to its contents. The cabinet, it is understood, will finally approve it to-morrow or Tuesday. There was a cabinet council meeting Saturday, when the ministers made further progress in preparing the seasonal program.

So busy are the cabinet that many of the ministers, including Hon. R. L. Borden, were back at their offices with their secretaries Saturday night.

ELOQUENT TRIBUTE TO
REV. MR. MORROW

T. C. Robinette, Shows How Pastor's Work Has Saved Taxpayers Money.

Great success attended the concert held in Massey Hall on Saturday evening in aid of Rev. J. D. Morrow's church. The hall was sold out before the concert started.

T. C. Robinette, K.C., paid some high tributes to Rev. Mr. Morrow at the concert. He declared that to his own knowledge Mr. Morrow had saved ten men from long prison sentences. He asked the audience if they had ever figured out how much such work saved the country. It cost the government on an average \$200 for the keeping of a man who was undergoing a long sentence, and in the cases he himself knew of he estimated that Mr. Morrow had saved the country between \$15,000 and \$20,000.

Coin cards were distributed among the audience for the purpose of getting the money to enable the pastor to get the church seats out of storage. They had been there for 18 months, and now the company had offered to take \$1883 of the price of \$4437 if he would take them soon. It is likely that enough will be realized to permit of this.

The concert program was exceptionally good.

At the conclusion Mr. Morrow thanked the artists and the athletic committee.

CROWN CHARTERED

Struck Vein on Saturday, Carrying High-Grade Ore.

COBALT, Nov. 12.—(Special).—A vein was cut on Crown Chartered late Saturday in the cresscut at the hundred foot level. Samples of the ore were received by Consulting Engineer Lamb on the train early Sunday morning. J. P. Heffernan, managing director, who is here, made the following statement: "The foot wall of ore body was encountered at 47 feet in cresscut on the hundred foot level for twenty feet, mineralized schist carrying probably millerite values. It was driven thru ten feet of good mineralized schist. Some quartz carrying visible gold was next encountered. On Saturday high grade ore was reached."

"Drilling is still proceeding in ore similar to the high grade on the surface with no hanging wall yet in sight. Visible gold shows in the vein. No further official report will be given out until the hanging wall has been reached and results checked by the company's consulting engineer."

COLDER WEATHER COMING.

The cold wave of yesterday corresponded with weather conditions of a year ago, according to the meteorological office. The disturbance for the past few days over the lakes, were followed by a cold wave from the west, the thermometer indicating 23 degrees with still lower depression being certain during the night, and a continuance of the depression for two or three days. The wind velocity yesterday afternoon reached a maximum of 46 miles an hour.

THE SPECIFIC TRADE MARK.

Mr. Holland Explains the Significance of the "Dyke."

"We had an entirely new and original discovery in varnish to give the public, and we adopted the name 'Dyke' to exclusively designate our weather-proof and waterproof discovery in the making of high-class varnishes."

"This trade name has more than a passing meaning. The picture on our trade mark is from an exact scene in Holland, a country noted for the fertility of its immense tracts of land actually stolen from the sea by the building of dykes. These dykes have for centuries proven themselves as lasting as human ingenuity could conceive."

"Dyke Varnish resists the action of water and the wear of weather exposure. In time I believe it will be the universal varnish, for we have captured a scientific secret without having the cost of the product exceed that of the common or everyday varnish."

Norman Holland.

ECONOMICS OF LOCAL OPTION.

"What started out as a local option campaign in Canada has resulted in an economic movement of dollars and cents by the retail merchant," said T. M. Humble, before the British Westerne League last night.

He said the merchant realized that a dollar did not go as far now as in former years, and after a visit to the bar by the working man, he did little left with which to buy the necessities of life, so he will vote local option when he has a chance.

According to Mr. Humble there are now 2,346,787 square miles covered by local option in the United States. President Ben Westwood presided and the house was crowded.

Miss Countess as a Motorist.

Miss Catharine Countess, star of the "White Sister," playing at the Grand, is probably the only woman who has ever rode at a rate of speed in excess of 120 miles an hour in a motor car. Miss Countess had a sensational drive of ten miles over the famous course at Ormonde Beach, Dayton, with "Wild Bob Burman," the world's champion speedster, and the holder of all world's records, in his famous two hundred horsepower Benz.
