

WEDNESDAY MORNING

THE TORONTO WORLD

CITY AND THE UNION MEN PROTEST OVER A CONTRACT

Labor Deputation Sees the Controller—The Mayor's Big Scheme—City Hall Matters.

There will be some warm argument upon labor lines at the board of control meeting to-morrow, when Controller Bryce, who has the carpenter work on the new ferry shed at foot of Bay-street, will appear before the controllers. Yesterday the board was waited upon by a deputation of business agents from the unions, complaining of the way Bryce was conducting the work. John W. Wilson, E. A. Drury, J. Virtue, A. C. Saunders, Ed Reynolds, L. H. Gibbons, C. A. Wells and James Monaghan were in the deputation. Mr. Wilson said the union carpenters had refused to work with the non-union men and Mr. Bryce would only employ the latter. The clause regarding the payment of the Bryce contract, as was also the clause prohibiting the employment of men not resident in the city six months. The work is supposed to be completed in June, but Mr. Wilson claimed it would not be finished this summer. City Architect McCallum reported that the contractor was not making satisfactory progress for want of material. If Mr. Bryce's explanation is not satisfactory to the controllers the work will likely be taken over by the city and be done by day labor. The inconvenience to the city of accommodation at present ferry sheds was mentioned by Ald. Church in a communication, which was forwarded to the city.

Governor-General and Jails.
With the inauguration of a movement for the improvement of jails, in view, the board of control met on Friday afternoon at the city hall. The suggestion came from Dr. Roseburgh of the Prisoners' Aid Association. The members think there are too many jails in the province. One good one should do for two or three counties. Commissioner Harris thinks a new building is required for Toronto. He suggested that the ventilation needs improvement.

Hospital Conference.
W. F. Flavell wrote the board that Hon. W. J. Hauser would meet representatives of the city council and the hospital board, for a conference at the parliament buildings at noon on Friday. The board suggested that a committee, who, with the controllers, will represent the city and will report the result of the conference to the city council, which is expected to meet on Monday at the hospital board.

Mayor's \$5,000,000 Scheme.
The mayor yesterday popped a big plan, which he wants to make solid if his friends, the newspapers, will join hands with him. It is for a "greater and better Toronto." Financial men of the city have approached his work, and he has been busy in the city of development should be entered upon, calling for an expenditure of about five millions on the go in outside of the plan.

China Makes Promise That Satisfies Britain.
London, May 29.—Foreign Secretary Grey announced in the house of commons to-day that the British chargé d'affaires at Peking had telegraphed to the foreign office to-day announcing that the foreign board yesterday definitely promised that the Chinese government would send a note to the British legation in a few days formally recapitulating and reaffirming the specific engagements contained in the treaties of 1892 and 1898, and stating that the administration of the maritime customs would continue as now constituted.

Be Prepared For It.
Comes without warning, strikes quick as lightning—the lumbago; but Nerviline quiets the pain instantly. W. H. Fowler, of Fowler's Corners, Ont., writes: "When applied for lumbago or neuralgia, Nerviline is quick as lightning. I was subject to attacks, and after I used most everything, nothing relieved quickly till I discovered Nerviline. Have used it also for pleurisy and sore chest, and found it was just the proper thing."

Michigan Central and Lake Shore.
Railways' Pacific Coast Terminals, taking in scenic features of Colorado, Grand Canon of Arizona, California, North Pacific Coast, Yellowstone Park and Canadian Rockies. Special trains leave Buffalo June 30th. A thirty-day personally-conducted, all-expense tour at absolutely net cost and under personal direction of an experienced New York Central Lines representative. Many leading teachers in the States of New York and Pennsylvania have joined this tour. Write for itinerary. J. W. Daly, Chief Asst. G. P. A., Buffalo, N. Y.

Shipping Through Suez.
London, May 29.—According to a parliamentary paper issued to-night there was a decrease last year of 176,394 tons of British shipping passing through the Suez Canal, compared with 1904, while for the same period the tonnage of German vessels passing through the canal increased 143,923 tons.

Passed Exams.
The following members of Rev. Dr. S. R. Bates' Sunday School, Teachers' Training Class have passed the examinations in Adams' primer on teaching: Miss Beese G. S. Kyle, Alice Oakley, Mary Cowan, M. W. Nott, 119th Ave. and Gertrude B. Starr and Mrs. M. S. Clarke.

Roller Skating.
The musical program at the Parkdale Roller Skating rink is an attraction in itself. The public is invited to the Toronto Light House chooses excellent selections from the band's repertoire, and the program is a most enjoyable one.

Temagami.
The peerless fishing and tourist resort reached only by the Grand Trunk and T. & N. O. Railway. Round trip from Toronto only \$12.50. Hotels now open. Train leaves Toronto at 11:30 p.m. with through Pullman.

Dr. Lyon's Tooth Powder

Cleanses and beautifies the teeth and purifies the breath. Used by people of refinement for over a quarter of a century. Convenient for tourists.

THAT SEALED LETTER OPENED BUT PRESTON KEEPS SECRET

Admits That He Now Knows Names of N.A.T. Co. Shareholders, But Will Not Divulge Them.

Ottawa, May 29.—The examination of W. R. Preston was resumed in the public accounts committee this morning.

A cable from Lord Strathcona, acknowledging receipt of the committee's cable asking for the letter on which was based Preston's memorandum, alleging that correspondence had been taken from Ennis office at Liverpool, was also said that the letter had been forwarded to Sir Wilfrid Laurier.

Mr. Preston then read the memorandum, dated October 28, 1899, which was submitted to Lord Strathcona, outlining the formation of the North Atlantic Trading Company, and giving the draft of the agreement, and reciting the negotiations, to this memorandum followed a letter dated November 15, 1899, by Lord Strathcona to Mr. Preston, reviewing the situation and stating that the legal firm of Hon. Chas. Russell and Company, deputed the conclusion of such an arrangement.

Mr. Preston then said that there was much difference in principle between the new scheme and that formerly in operation, excepting that a few of the bookkeeping agents. He noted that "it involves certain risks," and concluded by saying: "I need hardly point out that the new arrangement must be regarded as very confidential and that it must not be made public in any way."

The board asked some days. An old episode of some days. Preston was shown a small envelope enclosing a number of vouchers for the North Atlantic Trading Company, which were written in a large flowing hand, with a heavy pencil: "Not to go in."

Asked by the Conservative who examined him, whether he recognized the handwriting, he said he did.

"I think it is the handwriting of the secretary of the North Atlantic Trading Company," he said.

To-day Mr. Barker showed him the envelope again, and Mr. Preston refused absolutely to identify the handwriting.

Differences arose between Mr. Barker and Mr. Preston as to the auditor's shift to the payments for printing the "Arundel Printing Company," and the auditor-general was asked to produce the cheques to this company.

Mr. Barker then asked the auditor-general to produce the cheques to this company. Mr. Barker then asked the auditor-general to produce the cheques to this company.

LECTURES ON VITROPHY BY PROFESSOR WINDSOR.
Prof. William Windsor, president of the Boston Co. of Vitrophy, will lecture on the subject of "Vitrophy" beginning Thursday night, at Association Hall, and continuing Friday and Saturday night.

CEAR TO TRAVEL.
London, May 29.—The correspondent at Copenhagen for The Tribune says it is stated there that Emperor Nicholas of Russia will visit the Danish court in August.

Tammany Leader Dead.
New York, May 29.—Charles H. Knox, who was president of the municipal civil service committee under Mayor Van Wyck, and a leader in Tammany Hall councils, died to-day, aged 54 years.

Dr. Chase's Ointment.
Dr. Chase's Ointment is a certain and guaranteed cure for every form of itching, swelling, and all other skin diseases. It is a most valuable remedy for all who are afflicted with these troubles. It is sold by all druggists and chemists.

ANNUAL PROFITS DANGEROUS SCARE OFF POLICYHOLDERS

Col. Macdonald Says That Early Results Would Dishearten Government Insurance.

Col. W. C. Macdonald, actuary of the Confederation Life, was the witness before the insurance committee yesterday. The feature of the day was the lengthy argument between the witness and Commissioner Kent on the subject of a government life insurance company as conducted in New Zealand.

Col. Macdonald also gave evidence on the loading of premiums, the rebate and how estimates were obtained, admitting that in the case of other companies the results were not all that were represented to the insurer.

The financial statement of 1905 was first gone through by Mr. Shepley, and explained by Col. Macdonald. An item loading on first year's premiums, amounting to \$73,580, was the difference between the gross and net premiums, said the witness.

This amount was reached by adding a percentage on a fixed amount and a percentage to the net premium. This system existed prior to 1896, and then the estimating of premiums was changed. This amount and the percentage varied according to the classes of insurance.

Col. Macdonald said that previous to 1896 the loading was as follows: Whole life, 30 to 33 1/2 per cent; limited payment life, 20 to 25 per cent; and endowment policies, 17 1/2 to 20 per cent. Then, on the basis of reserve, was introduced, and the loading became a percentage of the premium, plus the constant amount. Whole life loading, 22 1/2 per cent; plus \$1; ten-year life, 22 1/2 per cent; plus \$1; fifteen-year life, 22 1/2 per cent; plus \$1; twenty-year life, 22 1/2 per cent; plus \$1; and endowment policies it was 17 1/2 per cent, plus \$2, and on non-participating, 8 per cent, plus \$1.

Mr. Shepley asked the witness if the amount of loading was not larger since 1896, and if so, what was the reason. Col. Macdonald said that the new expense of procuring business was the chief cause.

Mr. Shepley wanted to know if profits should enter into the matter of loading, and witness thought they should.

The policy-holder is led to expect by profits, said Col. Macdonald.

Mr. Shepley then entered into the cost of first year's business. He elicited the fact that the general fund, after years had been to increase the cost of securing new business. In 1905, the cost was \$222,300, made up of \$188,650, commissions and salaries; \$18,972, medical fees and examinations; and \$14,678, for general expenses.

Col. Macdonald contended that the cost of new business was largely due to the fact that the company was a life insurance company, and had to keep a reserve.

Col. Macdonald said that originally, when policies were issued, they were treated as a separate class. This method was abandoned on account of getting a proper average, and owing to the natural fall in dividends.

"You had difficulty in overcoming the great expense in respect to the head office building," asked Mr. Shepley.

"It crippled the surplus-producing power," Col. Macdonald explained how the fall in dividends was due in a large measure to the increased cost imposed by reason of government taxation.

WHY CAN'T I EAT LIKE OTHER MEN DO?
WHY? BECAUSE YOU'RE A SLAVE TO DYSPEPSIA—INDIGESTION—OR OTHER STOMACH DERANGEMENTS THAT ONLY CAN BE REACHED AND CURED BY SUCH A TRIED AND TRUE REMEDY AS

THERAPION

This successful and highly popular remedy, used in the Continental Hospitals by Ricord, Kossak, Jobert, Velpeau, and others, combines all the advantages of the most powerful and reliable remedies, and is a most valuable remedy for all who are afflicted with these troubles.

THERAPION No. 1
In a remarkably short time, often a few days only, removes all discharges from the urinary organs, and cures all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and all diseases of the prostate gland, and all diseases of the urethra, and all diseases of the testicles, and all diseases of the epididymis, and all diseases of the vas deferens, and all diseases of the seminal vesicles, and all diseases of the bladder, and
