MORE BOXER TROUBLES. Methodist Chapel Burned and the Preacher Killed Officials Loyal,

New York, Aug. 19.-The Methodis fission Board has received by mail number of reports from its agents n China concerning the recent local Rev. Joseph Beech of Chungking,

Rev. Joseph Beech of Changking.
West China, writes under date of June
22: "Word has just been received
from the Rev. W. Edward Manly and
the Rev. Spencer Lewis, superintendent
of the mission, who are in that neighborhood, that the Red Lantern Society, the local name for Boxers, has
burned the chapel in Tien-Ku-Chiao
and killed the preacher and four other
members. The officials have endeavored to suppress these Boxer practices, and had previously decapitated
six and crucified one. Thru this section there has been drought for a considerable time, and this adds to the
unrest. We are confident the officials
can cope with it, but it may cause
us much loss in the outlying districts."

WANT NO OUTSIDERS.

Truesdale, president of the Lackawanna Railroad Company, said: "There is no foundation in fact for the rumor that the anthracite coal operators will make concessions in order to end the strike. I think work will be resumed in time to produce plenty of coal for the fall demand. The operators are ready, as they always have been ready, to adjust with their men any grievances that they may have, and they have never discriminated against any of their men because they belonged to the union. What the operators will not do is to discuss their business affairs with outsiders."

A Pair of Pigmy Camels.

Two white pigmy Persian camels have just been presented to the Berlin Zoological Gardens by the Shah. These little animals are perfectly formed camels, but they are orly about two feet high and weigh 61 pounds. They come from a region in the western part of Persia, where they are regarded as sacred by the inhabitants.

An interesting miniature world might be arranged in some zoological garden, with they toy terriers for dogs, small selected shetland ponies for horses, bantam chickens for fowls, a few of these camels for picturesque effort, the dwarf oaks and other trees which are produced in Japan for vegetation and some pigmies of Central Africa for unhabitants.
