There has been a revival of speculation regarding the dividend to be declared by the Steel directors when they meet next Thesday, and the fact that the Rockefeller Interest advocated a reduction at the time of the last declaration is now being dwelt upon, and the suggestion that a two percent; basis may be agreed upon is being discussed, but the general expectation is that the regular dividend will be declared.

feeling at the close. The fact that the Bank of England rate was not advanced helped sentiment, but the loss in reserve by that institution was not commented upon favorably. The low prices of yesterday brought out small selling orders this morning, but with these out of the way an improvement was made in the late trading. Both C. P. R. and Twin City were largely influenced by New York and followed the rally in that market. Northern Navigation sold a point lower at 117, but this was recent decline. The volume of business was september, 1963 ...\$61,301,327

Intere of values. To:onto Rajway rallied % a point at the close and Coal was firm on small trading. Banks were quiet with Dominion one point lower on a small sale.

At Montreal the market was exceedingly quiet, but the early weak turn was followed by later strength. Twin City, C. P. R. and Toronto all made advances for the day. Coal and Steel were almost unquoted, with prices about steady.

The Traders Bank of Canada is opening branches in Kincardine and Ripley, Ont.

At Boston to-day Dominion Coal closed 7 bld and Dominion Steel bld 10, offered 10%.

way to bid up prices.

A careful canvass of commission houses showed a more cheerful sentiment, but very limited public interest in market. There was a fair amount of invergment buying, but out of all proportion to very heavy professional operations.—Dow Jones.

There has been a revival of successional operations.—Dow Jones.

that the regular dividend will be declared.

London evening special: Americans closed on early strong at best prices of day. The larger operators here are incilined to sell on the bulges and the leading arbitrage operators advise caution in suort transactions. Continental bourses were firm.

All indications point to a renewal of the selling movement to-day, altho the volume of business will be restricted by the absence of a large number of traders from the street thru observance of the Jewish holiday. Sentiment at the clese was decidedly bearish and carly cables from London indicate that the selling movement has been renewed there, and we look for lower prices with considerable pressure on Pennsylvania, Reading, N. and W. New York Central, L and N. Amalgamated Copper and United States Steel bonds. It is obvious that liquidation has not yet been completed, and vesterday's buying movement only served to emphasize the refusal of the public to come in under existing conditions. We consider the specks mentioned as a good sale, especially on any little rallies that may occur.

All tweep—wheat, spot and the close of the market to-day:

The market to-day displayed a good undertone under the influence of strong cables and a general feeling that the seling movement had placed the market in a position where an advance was justified. The contract market had become overseld, and in fact rather drastic liquidation had raken place in all positions laier than September as a result of auticipations of deliveries on contract precipitating a decline and the heavy receipts forcing much lower spot markets.

The situation now is that the world is absorbing the movement freely and that the price of spot cotton seems to furnish no bar to an active buying in all directions.

Chicago Gossip,

McIntyre & Marsnall wired J. G. Beats,
King Edward Hotel, at the close of the

Mont enl Live Stock.

Montreal Oct. 1.—About 300 lead of cattle, 56 calves and 800 sheep and lands were offered for sale at the East End Abattoir to-day. The wet weather helped to increase the depression in the cattle trade, and prices are lower than they have been for some time-past. A considerable number of the cattle offered here yesterday were sent to trasture until there is better demand for them and most of those offered to-day will follow suit. Four cents per lb, was the highest figure point to-day and that down to 1½ cents per lb, for the leanest canning bull. Nearly all the calves offered to-day were grassers and these sold at from 2½ cents to 3½ cents per lb, Good veals would bring 4c to 4½c per lb, Sheep sold at from 2½c to 3½c to 3½c and the lambs at from 3½c to 3½c per lb, Fat hogs are still declining in price, good late selling at from 5½c to 5½c per lb, while 5c per lb. 4s being offered for mixed lots.
