An Honest Beef, Iron and Wine

An honest beef, iron and wine is one made of an honest amount of honest ingredients. It contains the necessary amount of iron to strengthen the blood, a sufficient quantity of the finest quality extract of beef and wine, well aged, mellow and of fine flavor. That describes our own beef, iron and wine. We take extra care in making it and believe it impossible to make better. It's a preparation that will make one strong and vigorous.

LOST AN EYE.

Louis McPhee, a 14-year-old lad who is employed on the farm of Duncan Taylor, living between Mapleton and Belmont, ran into the limb of a tree about 9 o'clock yesterday morning, and the limb penetrated his left eyeball so badly that when he was brought to the Annapolis Wood Hospital at St. Thomas, Dr. Campbell and Dr. Lawrence found it necessary to remove the eye. The boy is a son of Mrs. McPhee, of West Lorne.

THE ONTARIO BOND ISSUE.

Toronto, Aug. 17.—It was learned at the treasury department today that the subscriptions for the new Government bond issue of \$3,000,000 now amount to over \$2,000,000, and its success is, of course, fully assured. It is evident that the public having money lying around loose know a good thing when they see it.

Pleasant Moments.

It has been said with a great deal of truth that you can never become really acquainted with a man until you have supped with him, and in order to insure a pleasant time good tea should be used. During the past sixteen years "SALADA" has become a familiar word to every newspaper reader, and the fact that the demand is steadily increasing requires no comment; it tells its own story, "SALADA" is king.

GRAND TRUNK WAS FULLY EXONERATED

Inquest Into the Death of the
Late Ernest Fry Completed
Last Night.

"That the said Ernest Fry came to his death in London on the morning of Aug. 7, 1906, at Victoria Hospital, from injuries received at the Adelaide street crossing of the Grand Trunk Railway, by riding unaided on No. 8 express, east-bound, was exonerated the Grand Trunk from all blame in the matter."

The above verdict was brought in by the coroner's jury last night. The inquest was held in the police station, the witnesses examined being: Conductor James Downey, William Smith, Arthur Sharratt, Car Inspector William Heir, Inspector James Wright, Crossing Watchman P. C. Walsh, and Dr. English.

The evidence went to show conclusively that Fry was beating his way, when the accident happened, and there was nothing for the jury to do but exonerate the company.

Conductor Downey testified that Fry was not a passenger in the coaches on the time the train left Sarnia until it reached London. Downey had seen nothing of him.

James Wright told of the finding of the injured man. At Adelaide street he heard groans and cries, and, running back, he saw Fry lying on the ground. A doctor who was on the train was called, and he found the man's wounded leg with a towel. While the ambulance was arriving, Fry talked coolly of his injuries.

"Don't tell my father," he said to Wright. "The shock would kill him."

In the ambulance Fry informed Dr. English that he had a letter in his pocket from his sister, asking him to come home.

Dr. English testified that death was due to a hemorrhage and the shock sustained.

GIVEN PURSE OF GOLD

Presentation to Miss Mayou, Late of
Victoria Hospital.

Miss Edith Mayou, former lady superintendent of Victoria Hospital, was last night presented with an address and a well-filled purse of gold by a number of her friends, who met at the residence of ex-Trustee John Labatt, to bid her farewell, to her departure for Labrador, where she will take charge of one of the hospitals conducted by the famous Dr. Grenfell. There were about 20 or 30 guests present. The following is the address:

"Dear Miss Mayou,—Will you accept from a few of your many friends in London a small token of their appreciation of your untiring and successful work in connection with Victoria Hospital? Those of us who knew it in the past can but better appreciate all that you have accomplished. We regret extremely your decision to resign your position and leave London, but feel that what is our loss is distinctly Dr. Grenfell's gain.

"Our very best wishes go with you to your new field of labor, where, with your energy and ability, your success is assured."

During the evening tea was served by Mrs. Labatt, and a very pleasant time was spent by all.

APPEAL FOR NEW CHURCH

Ven. Archdeacon Richardson Asks Aid
for St. Luke's at Broughdale.

The Ven. Archdeacon Richardson appeals to all who may be interested in church extension on behalf of his new church, St. Luke's, which he will take in course of erection at Broughdale, a northern suburb of London.

The church will be built of brick with colored cement block trimmings and rubblestone basement. The nave will measure 36 feet long by 32 feet wide, chancel, apsidal, length 26 feet, which is feet, with good-sized vestry and organ chamber. The building will seat about 200. The cost will be upwards of \$4,500. Of this, the people of Broughdale, without respect to denomination, have subscribed a large proportion. London friends and others have generously helped, making the total subscription list more than \$2,750.

The church will be the only one in Broughdale, in the very center of a growing community and considerably distant from the city churches.

Earnest effort is being made to have St. Luke's Church opened and consecrated in October, entirely free from debt. To this end, this appeal is strenuously made, to all who will aid in this good work, for money or furnishings. Presentations, of which several are already promised, will be gratefully received in the form of prayer, lectern and pulpit seats, stained glass windows, carpet, communion table, chairs and service, fine linen, service books and alms basin, etc.

All subscriptions and gifts will be duly applied, acknowledged and devoted.

J. B. RICHARDSON,
Archdeacon of London.

DRAWING TONIGHT

This Is Prize Night at Springbank
Theater—Next Week's Bill.

The drawing for the silver cake dish will take place at Springbank Theater tonight, when the holder of the lucky coupon will have given the prize.

The play will be "Sis Hanks," which has been presented for two nights now, and which has met with a flattering reception at the hands of Londoners who visit the summer park.

For the first three nights of next week the popular comedy-drama, "Way Out West," will hold the boards.

New specialties, illustrated songs and moving pictures will be introduced between the acts.

MYSTERIOUS FIRE ON SIMCOE STREET

Firemen Had an All-Night Job
at Rag and Metal Co.'s
Warehouse.

A mysterious fire in the plant of the St. Thomas Rag and Metal Company, Simcoe Street, East London, gave the firemen an all night's job last night. At 11 o'clock the alarm was responded to, and the men did not get away until an early hour this morning.

Part of a warehouse and a large quantity of baled rags and paper were burned, the loss being at least \$1,000. The building is insured, but there is no insurance on the stock. No one knows how the fire originated.

The brigade also had a run last evening to the works of the Waggoner Ladder Company, corner of York and Colborne streets. The loss there was very slight—about \$10.

GOT ALL THE GANG NOW

John Boyle of London in Hands of
Detroit Police.

Detroit, Mich., Aug. 17.—Seven men, comprising a gang of pickpockets and small thieves, with headquarters in Toronto, Canada, were arrested by the Detroit police in a raid of the St. Lawrence Hotel, by Detectives High and Larkin and a corps of policemen.

An unusually active season of minor robberies and hold-ups was traced to the gang holding forth at the hotel.

The men arrested are:
John Boyle, London, Ont.
Thomas Gibson and Frank Ringzell, Toronto.

George Martin, Montreal.
William (alias "Budd") More and James Tunney, Detroit.

George Martin, unidentified.

They are members of an organized crew of crooks, the police say, which works out from Toronto, and the tip which led to their capture came from that city. In case enough evidence cannot be secured here to assure conviction, they will probably be driven back across the border.

TROUBLE AT HAMILTON

Street Railwaymen and Company Have
Difficulty in Coming to Terms.

Hamilton, Aug. 17.—The situation in the dispute between the union and the street railway officials is not as bright as it was a few days ago. Although various arrangements have been made during the past four days, the executive committee of the union has been unable to hold a conference with the officers of the company.

The old agreement, which expires next Thursday night, as the executive committee has been unable to hold a conference with the company to consider the demands of the new agreement, a meeting of the union will be held tomorrow night to discuss the situation. Definite action to plans for the coming week will be decided upon at the meeting.

Although the situation is becoming somewhat darker, the union still believes a settlement will be had without any trouble.

HELLO GIRL'S PRISONER

Wouldn't Let Him Leave Booth Until
the Toll Had Been Paid.

Philadelphia, Pa., Aug. 17.—"That little fifteen minutes' talk was worth a million dollars," remarked Anthony K. Vansant, of Omaha, as he left a telephone booth after having called up his fiancée in a western city over the long distance, and asked, "What's the charge?"

"Eighteen dollars and seventy-five cents," replied the hello girl.

Vansant began to search his clothing for money, discovering his total capital was insufficient to meet the cost of the conversation. Manager Arthur Barney then was consulted in regard to cashing a check, and suggested that a messenger be sent to Vansant's hotel for the necessary sum. This was done, while the hello girl held Vansant a prisoner in the telephone booth. It was 9 o'clock when the call was made, but it took the messenger two hours and a half to return with a reinforcement of greenbacks.

"I'm glad that kid didn't have to go to Omaha," exclaimed Vansant as he walked away.

The Arizona Gold Mines.

The investors in the stock of the Pick and Drill Gold Mine of Arizona, which was sold by Mr. Nestor A. Young, in this city, during last fall and winter, have just received their second dividend at the rate of 32 per cent per annum.

This mine is located about 49 miles from the Black Rock mine, which is owned by citizens of London, and was examined by Mr. Young, who is a mining engineer of high standing, and whose report is to be found in the prospectus of the Black Rock mine. He states that their mine is one of the most desirable that he has ever seen. This is good authority for concluding that the Black Rock mine is a good one, as Mr. Young has been a mining engineer in Arizona and California for the last 50 years, and is considered to be one of the best judges of mines in the west.

The Pick and Drill stock was sold at 25 cents per share, and a limited amount of the Black Rock stock is now offered at same rate. Parties desirous of securing any of these shares can do so by inquiring at 11 Oddfellows' Hall. All moneys received for stock to be applied in the purchase of machinery to operate the mine, in reducing the ore to values. Millions of tons of ore now in sight. London, Aug. 14, 1906. Black Rock Mining Company.

ROW OVER RAILWAY

Southwestern Traction Company and
Port Stanley Village Lock Horns.

W. R. Cameron, of St. Thomas, on behalf of the village of Port Stanley, has issued a writ against the Southwestern Traction Company, and has asked for an injunction to prevent the construction of the company's railway on the streets of the village.

An agreement between the village and the company was allowed by the latter to lapse. Under the agreement the road was to be constructed under the direction of the village engineer. The traction company are going on with construction regardless of the village engineer, and it looks as though "a heap of trouble" will be encountered before the matter is fixed up.

It is reported that the Southwestern Traction Company are moving the toll house near this village off the road. This is one of the toll houses which Mr. Robert's witness placed considerable value on.
