DOMINION GOES BACK TO PEACE BASIS TONIGHT "OTTAWA, Dec. 31.—Tonight at midnight all orders-in-council passed and enforced by virtue of the War Measures Act, become ineffective, some hundreds of orders being numbered in those which no longer will be law. Commenting on this, a member of the cabinet stated Tuesday that, contrary to the interpretations of the rescinding orders-incouncil which had been published, the orderin-council relating to censorship is among those rescinded from Jan. 1."—Winnipeg Tribune, December 31, 1919.

CENSORSHIP.
"TORONTO. Dec. 31.—The Methodist Ministerial Association has passed a resolution requesting the Dominion Government to 'consider carefully whether full pre-war freedom of speech and press ought now to be restored.' The association does not go so far as to indorse the view that one of the chief causes of the prevailing unrest is the restrictions upon freedom of speech and press." RAW SUGAR MARKET STILL ON UP-GRADE

Indicative of Even Higher Prices On Refined.

The Canadian Grocer this week publishes the following comment on conditions in Toronto.

Following the recent advances on Acadia and Dominion sugars, other refineries have also registered advances. Redpath, \$2 per hundred, and Atlantic

and St. Lawrence \$2.50 per hundred. The differentials on gunnles and cartons have also advanced. The situation in the in the raw sugar market continues up-ward, and these advancing prices on raw are indicative of even higher prices on refined. Lyle's cane syrup has ad-vanced, and higher prices on corn syrups are not unlikely in view of the higher cost of corn and containers. Cereals are ruling firm in a quiet mar-ket, but the steadily advancing prices cereais are ruling firm in a quiet market, but the steadily advancing prices of grains, especially corn and oats, is having a firming tendency. Manufacturers of cereals state that the present price of grains warrants an early advance on all oat and corn products. The ever-increasing consumption of tea and the difficulty of transportation are country a chartery of spect teachs. tea and the difficulty of transportation are causing a shortage of spot stocks. Shipments that are arriving are mostly of the medium grades and a scarcity of the finer grades and the lower grades is noted. No new developments are manifest in the market for rice. A few small shipments are arriving, but with the big season for rice approaching, it is stated in some quarters that prices will reach even higher levels, due to the short crops and the control of exports in European countries. Canned goods are steady and dried fruits al. Imports of spices have been extra hely small and in consequence spot tocks have ben steadily dwindling. Local importers are predicting firmer to higher prices in view of the scarcity of certain lines and the keen bidding amongst European buyers. Potato supplies are scarce and quotations are higher. keen bidding amongst European buyers. Potato supplies are scarce and quotations are higher. Advances have been registered on washboards, parowax, cigarette papers, condensed milk and Lenox soap.

The produce and provision markets are slightly firmer. Fresh meats have advanced one to two cents per pound. Hams and bacon are quoted higher. Cooked hams are quoted two cents per pound higher. The egg market is firmer, probably due to the fact that storage operations are now under way. The butter market is easier and quotations are one cent per pound down. Cheese, lard and shortening are steady.
