With an evident knowledge of student nature, Mr. Wetherell substituted for the usual homily considered suitable for such occasions a practical and refreshthe usual homity considered suitable for such occasions a practical and refreshing sketch worth a hundred homilies in its concrete force and rich suggestiveness. His subject, "Lord Strathcona," was treated with the clearness and sympathy of one who knows both books and men. The wonderful career of Donald Smith was graphically sketched with a running commentary on the great events of Canadian history with which he was connected. The long years of tedious clerkship in the Hudson Bay Company, the work entrusted to him at the time of the Red River Rebellion, the building of the Canadian Pacific Railway, the splendid philanthropic work, and, finally, the equipment of the soon famous, and ever-to-be famous Strathcona Horse were dwelt upon briefly but most effectively, and the recital of the honors and titles con-

The fifth "salon" of the Toronto Camera Club, which closes after a most strucessful week to-night at 10 o'clock, is really an exhibition of photographic prints in various mediums. There is little, if any, "salon" quality, but A tie, if any, "salon" quality, but A tie is doubtful if many of them may be comsidered to have reached "salon" distinction.

New York Examples.

Very satisfactory are Frank G. Grandale's (New York) "Where the Water Ends," and "A Chestnut Tree," full of excellent artistic perception.

"Hunting Frogs," by H. J. Carter, is a promising attempt at "salon" excellence, but the scene overshadows entirely the motif of the picture. Scenes of Country Life.

Completely satisfying are W.H. Mose'
three exhibits of country life near the
city. His "October Landscape" is one
of the best things to be seen on the
walls.

R. W. Magee makes a most excellent
the exhibit of three portraits, tho there are
some technical points which, if carried
out, would improve his work very
much. The results however, are very
pleasing, and must be very encouraging
to the maker.

"The Lumbermen's Home," by Alfred Robinson, is one of the outstanding pictures on the walls, because of
its absolute fidelity to nature His other

LOST AMBITION AND GENERAL DEBILITY.

Dr. McLaughlin:

Dear Sir.—This is to certify that I purchased one of your Electric Belts last June, and can say it is all you advertise it to be. I felt miserable before I got it. I had such a tred feeling; no energy—had to lie down every time I came into the house—but can say candidly, after using the Belt for one week, I have not had that tired feeling since, nor any desire to lie down, as I had before using the Belt. I wore it for about three months, off and on, and did not wear it again for three months—have had it on perhaps seven or eight times since. I forked wheat all day last summer, and felt as fresh at night as when I started in the morning. It used to be I could not stand shovelling the cross furrows in the fields, my back would pain me so; this year I could do it as well as I could when I was not quite so old. I win be seventy years of age next July, if living, but feel as if I was only forty or fifty. It used to be that I could not sleep well—now I sleep soundly. also used to be troubled with Rheumatism, but I never feel it now. Your Belt has certainly cured me. If I could not get another Belt, money could scarcely buy the one I have. Wisning you every success. Yours very truly.

J. C. MASON. legs about like a wooden man? Feel like a man of spirit. Away with the pains and aches; off with this wretched feeling as if you were seventy years old and had one foot in the grave. Come and let me put life into your nerves; let me give you a new supply of youthful energy. Let me make you feel like throwing "our chest out, and your head up, and saving to yourself. "I'M A MAN!" Let me give you back that old feeling of youthful fire, vim and courage. I can do it, so that in two months you will wonder that you ever felt so slow and poky as you do now. Act to-day. Life is sweet, so enjoy every minute. DR. M. Q. McLAUGHLIN, 112 Yonge St., Toronto, Ont. Dear Sir, - Please forward me one of your books, as advertised.

Electric Belton Trial Until You Are Cured I claim that I can cure weak men; that I can pump new life into worn-out

bodies; that I can cure your pains and aches, limber up your joints and make you

feel as frisky and vigorous as you ever did in your life. That's claiming a good

deal, but I have got a good remedy, and know it well enough to take all the risk if

for it until you get it. When you are ready to say you are a big, husky and frisky specimen of vigorous manhood; that you haven't got an ache or pain in your whole body, and that you feel better than you ever did in your life, I get paid. If you can't say it after using my Belt for three months, then give me back my old Belt and I won't ask a cent.

A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like it. Anyway, my patient returned the Belt and said I hadn't done him any good. He said he thought I had treated him honestly, and wanted to pay me the cost of the Belt, because it could not be used again. I refused, and told him that I had made a contract to cure him or get nothing, and I wouldn't take a dollar I hadn't earned.

I've cured lots of men who had paid over a thousand dollars to doctors befor
