The carmen have been in convention in the city and closed their essions age, ever providing blessedness for the yesterday; and as a grand finale de-cided to become a party to the federation, which increases the strength by Recognizing that while they are not immediately affected in western lines

notices and rules posted recently by the company, they will be affected as soon as the award under which they are now working expires. In a despatch from Ottawa it was stated that an extension of time would be granted to the two representatives chosen to arbitrate for the company

and the men, but so far no official no

tification has been given the men.

#### STYLISH FEET

Men generally are becoming as pernickety about style in their shoes as in hats or neckwear.

It's right that they should be, and the "Boston" encourages it.

The "assortment" of stylish Summer Oxfords in patent, gunmetal and tan calf leathers is proof of it.

# RESOLUTION AIMED AT

Presbyterian Synod in British Columbia Wouldn't Accept Too Stringent Resolution.

VANCOUVER, May 9 .- (Special.)-A resolution aimed at the authorities responsible for the administration of justice in British Columbia, charging them with maladministration in terms so strong that the resolution had to be withdrawn and a statement by Rev. J Y. Rochester of Winnipeg, that British Columbia was the only province in the Dominion that was not enforcing the Lord's Day Act, were features of the Presbyterian Synod to-day.

"Your attorney-general's responsibility does not amount to the power to veto, as seems to be the position at present," said Mr. Rochester. "The act merely gives him power to withhold his consent to certain prosecutions,

and then only when there is cause. "British Columbia was," he added, "the only province which permitted the printing and sale of Sunday newspapers." It was pointed out by several
delegates that the fault lay
largely with the church and
people, and that during the
whole of last session there had been whole of last session there had been no deputation or formal request made to the local government or the legislature for the enforcement of the act.

"There is no justification whatever for its non-enforcement," said Rev.

Mr. Rochester.

Mr. Rochester.

"If the provincial government know that there is a far larger number of people in British Columbia in favor of this act to-day than there was a real account. there was a year ago, I think they would enforce it," said Rev. A. J. Mc-It was decided to urge the govern-

New School at Belleville. BELLEVILLE, May 10.—Archbishop Gauthier of Kingston this afternoon laid the corner-stone of the new St. Michael's School in this city in the presence of a very large crowd, and assisted by many visiting priests and digni-

The new school, which will be com-pleted this year, will cost, with equip-ment, \$52,000, and will be one of the finest schools of its kind in Ontario. At high mass this morning, Archbishop Gauthler confirmed 130 children, fifteen of them being from the Deaf and Dumb Institute

MONDAY MAY 11

## **Absolute Safety the First Consideration**

At a time of more or less discussion regarding the safety of public buildings, we point with special emphasis to unusual precautions in connection with our new store to insure the maximum of strength, solidity and safety in every detail of construction. The world's best architects have been working for years on the improvement of mercantile buildings, and in up-to-date establishments there is never any suggestion of economy in anything relating to the best interests of the public. The new addition now under way here is the very latest word in the line of store architecture, embodying as it will

## Every Known Device and **Precaution for Safety**

### **Every Possible Comfort and** Convenience for Shoppers

The foundations are many times stronger than the most exacting requirements call for, and the unusual strength of beam and column in the steel construction tells its own story. We started out to be absolutely sure of the finest, strongest and most adaptable building of the kind on the continent, and so far as thorough experience and careful judgment have any weight Toronto can depend on something infinitely better than has ever before been attempted here.

### Men's Hats \$1.50

Men's Derby and Soft Hats, in latest American and English styles, correct spring and summer designs, in a special quality fur felt, and well finished, a reliable, up-to-date hat, good range of colors. Tuesday for .......\$1.50

#### Men's \$1.00 Belts 25c

A manufacturer's clearance of Sample Belts, and some from our regular stock, consisting of Boys' and Men's Ring Sides and straight, in black, tan and brown leathers, narrow and wide widths. Sizes 26 to 44. Regular value up to \$1.00. To clear, Tues-

#### **Brighten the Walls**

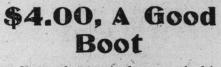

When you are at home you are in the most important place in the world to you. Why not make the most of it? Brighten the walls. Make it cheerful. Wall paper costs little at Simpson's and the choice is unlimited.

2500 rolls Bedroom Paper, in light colorings, neat designs. Regular in tapestry and flats,, with uppers or friezes. Regular to 35c. 

### Men's Odd Trousers \$2,49

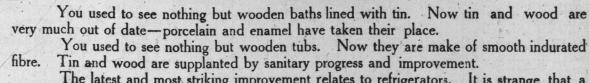

A nice, neat, grey-striped pair of extra trousers never comes amiss. We have two hundred pairs to offer to-morrow at a cut price.

200 pairs Men's Worsted Trousers, assorted patterns, neat stripes, mostly dark shades, grey and black, also black and white, with colored stripe running through, cut in the latest style, with side, two hip and watch pockets, splendid fitting, being loose and roomy over the hip and tapering to the knee. Sizes 32 to 42. Regular \$3.00 and \$3.50. To clear Tuesday at .....\$2.49

If the choice of dozens of different lasts and shapes picked on expert advice after long consideration is of any service to you, you have it in the Victor Shoes. All the popular sizes and widths \$4.00.

## White Frost Refrigerators

The latest and most striking improvement relates to refrigerators. It is strange that a receptacle for the storage of perishable food such as a refrigerator had not been the subject of improvement sooner.

The White Frost Refrigerator is made of enameled sheet steel. There is not a splinter of wood used in its whole construction. It provides also for a perfect circulation of air. Thus it is always sweet, while it may be washed as easy, as an enamelled sink. No warping, rotting or unpleasantness about a White Frost Refrigerator. The shelves work on pivots—that's another advantage. You don't have to drag your sleeve in the butter to reach the cream. See them, they're new.

Small Size, Tuesday . . . . \$28.75 Medium " . . . . \$34.00

Our full line of wooden cased refrigerators is now complete and embraces efficiency at moderate prices; guaranteed to give satisfaction from the smallest at \$6.00 to the large family size at \$40.00. Come and inspect these Tuesday while the assortment is at its best.
