

noon, on Wednesday and Saturday evenings, particularly when religious exercises are conducted by the Superintendent, counsel or prayer from christian workers will be most acceptable.

They also respectfully ask the patronage of the Halifax people that the sales in the Kindling Wood department may be largely increased.

The demise of Edward Binney, Esq., is felt a serious loss to this christian charity. He generously supported a boy at the school, and in other ways evidenced his practical sympathy with the School. Who among the wealthy men of Halifax will emulate his noble example? A few guarantees of \$40 or \$60 towards the support of special boys, would widen our sphere of usefulness and increase our opportunities of doing good. Money cannot be spent better than in this direction.

The committee desire to recognize with thanks the gratuitous services of Dr. Slayter, Mr. Puttner, and Mr. H. A. Taylor, and also to make mention of the fact that the Hon. T. D. Archibald has given again this year in coal a very generous contribution to the School. His kindness in this respect is eminently praiseworthy, and calls for special acknowledgements.
