For All Pain

"The efficiency of any drug" says Dr. C. P.
Robbins "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, i. e., something to relieve his pain. If we can arrest this promptly the patient is most liable to trust in us for the other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is anti-kammia tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of maiarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-kammia tablets are also excellent for the headaches from improper digestion; also for headaches of a neuralgic origin, and especially for women subject to pains at certain times. Two anti-kammia tablets give prompt relief, and in a short time the patient is able to go about as usual."
