### TESTING IN THE DAIRY

(Office of the Dairy Commissioner, Ottawa)

your herd test at the factory runs perhaps 8.9 or 8.5 as a rule, but supposing you took a sample from one or two cows separately, would you be surprised to find one milk testing 2.6 and another testing 4.3? Some samples of milk from three individual cows that had been sent in for a special test at one factory ran up last month over six per cent, but on enquiry it was found that a new hand on the farm had not understood it is necessary to get a representative sample of all the milk, not the strappings only.

To get results that will be of benefit, the person who takes the samples should be careful to get an accurate sample of the whole milk. Don't "monkey" with the test. Information that is of vital importance to the man intent on building up a good herd, cows giving an abundance of milk of good quality, is obtained from careful sampling and accurate testing.

Of course, milk varies in composition.

## STOP HEADACHES BEFOREHAND

You never had a headache when you were well.

To keep well is to keep clean, inside.  
To relieve headache, and to prevent it, keep the liver active and industrious and the bowels as regular as a clock.

Two generations of healthy, vigorous people have done this by taking one pill at bedtime, regularly—a large dose when nature gives the warning.

**CARTER'S IRON PILLS**  
Genuine bears signature  
Colorless faces often show the absence of iron in the blood.  
**CARTER'S IRON PILLS** will help this condition.

## ARE YOU GOING TO MOVE; OR HAVE YOU A HOUSE OR FLAT TO RENT?

This page of the TIMES is the city directory for the home seeker; and for the landlord who wants a tenant.

the dairy cow is of a nervous temperament; if it did not vary there would be little need to test. But the very fact that the test may be up one day and down another, within certain reasonable limitations, makes it advisable to test composite samples occasionally. Your testing can be done by yourself or at the factory, by joining a cow testing association composite samples of each cow's milk may be tested monthly free of charge. If there is no association in your locality, persuade some neighbors to join with you and write to the Dairy Division, Ottawa, for milk record forms. C. F. W.

**WOMEN IN LUMBER MILLS**  
Spokane, Wash., Nov. 2.—Invasion of lumber mills by women workers is the latest war development in Spokane. Thirty women are employed at the plant of the White Pine Sash Company in Union Park. The "lumberettes" come from Union Park and North Side laundries and down-town offices and stores. They receive \$2 an eight-hour day.

All over the mill the girls are doing the work formerly done by men and boys. Most of them wear rough skirts, heavy shoes and heavy gloves. At one place a wife "falls down" at a machine which her husband tends. Here a girl is sandwiched between two bulky lumber heavers and there a couple of "burles" are surrounded by a heavy of girls—all doing their work as if it had ever been thus. The condition was brought about when some girls volunteered to do the work for which men could not be obtained.

"We can't get male help," says Henry G. Klopp, president of the company, "and when the girls asked for a chance at the work we gave it to them. Of course, they are getting none of the heavy work, but what they are doing they can handle as well as a man. They all tell me they are getting better pay than they can elsewhere."
