PREMIERS TO CONFER ON RUHR CRISIS

British Leader Receives the French Note on Reparations Question.

DOCUMENT STUDIED

Ministers Will Not Discuss Reply Until All Have Read It.

(Canadian Press.) London, Aug. 23.—Recognizing the futility of a further exchange of lengthy notes on the reparations issue, Premier Baldwin has decided to meet Premier Poincaré upon the former's return from his vacation at Aix Les Bains, it became known today.

The British Premier will not formally ask his French colleague for an appointment, but will make known quietly through second parties his readiness to discuss the whole reparations problem in the light of the French Premier's latest note.

Francis is Ready. The British Premier feels that in France he should profit by the suggestion contained at the end of M. Poincaré's note that France was ready to discuss the indemnity problem verbally. It is thought possible Lord Curzon, the secretary of foreign affairs may participate in the conference, since he plans to remain for some time at Bagnolles, where he is at present recuperating.

Both Aix Les Bains and Bagnolles are within easy train distances of Paris and both the vacation and the conference could readily stop off for a few days at the French capital on their way to London and have a personal talk with Premier Poincaré.

It is felt there is no immediate need of such a verbal exchange of views and in fact that it would be preferable to postpone it until the British government experts charged with the study of reparations questions have carefully examined all the claims of the French note and presented their findings to the cabinet.

The meeting, therefore, in all likelihood will take place after Mr. Baldwin has had his vacation and considered and matured judgment of the cabinet before him.

Premier Gets Note. London, Aug. 23.—Premier Baldwin returned to London from the country last evening and took a preliminary look at the French note, copies of which have been sent to all members of the cabinet. Time will allow the ministers to digest and consider the article before any formal cabinet discussion takes place.

Mr. Baldwin leaves Saturday for Aix Les Bains, France, where he is likely to give full consideration to the latest communication from the French government. Before returning to England the Premier may meet Marquis Curzon, the foreign secretary, who is staying at Bagnolles, Normandy. It is suggested that he may also visit Premier Poincaré, coming home by way of Paris.

In the meantime, no definite developments in the situation are expected and it is not supposed that the British cabinet will convene until Mr. Baldwin returns. However, the Premier is likely to confer with those of his colleagues who are in London before he leaves for Aix Les Bains.

Most of the morning newspapers felt that Premier Poincaré's note has not changed the situation.

MILLION LOST AS DAM BREAKS

Cloudburst Forces Walls of River Shed to Crash in Colorado.

Public, Colo., Aug. 23.—Damage estimated at possibly one million dollars was caused by the breaking of the Ashtabaga River dam near Fowler, Colo., 28 miles south of here yesterday, from a cloudburst Tuesday night in the river's water shed.

A huge wall of water from the broken dam has demolished railroad and automobile traffic and all wire communication in the flooded area is broken. No verification of reports that La Junta, Colo., was under water could be had and telephone company officials could not state definitely whether the water had reached the exchanges or washed down the poles.

Messrs reports received here early today indicated that the rushing water swept the livestock and other property with it down the valley. Warnings had been sent out, however, before telephone lines were put out of commission and it is believed that most of the residents in the valley escaped to higher ground before the floods descended upon them.

TATTOO CATTLE

Great Britain Changes Method if Dealers Do Not Want To Brand.

London, Aug. 23.—Canadian cattle coming to this country may be tattooed instead of branded, according to a statement issued by the Ministry of Agriculture here yesterday.

The tattooing may be on the left side of an animal in the form of the capital letter "C." This operation, it is stated, is a simple one and practically painless.

The substitution of the tattooing for the branding method for the identification of imported cattle from Canada is due to the protest made by the Canadian Society for the Prevention of Cruelty to Animals. Strong protests were sent out from Montreal from cattle dealers as well as from the society against branding of cattle as a cruel operation.

The British Ministry of Agriculture points out in its statement that the regulations under the Importation of Animals Act of 1922 require the indelible marking of cattle which come from Canada.

Heavy Damage To Crop In Province

Fredrickton, Aug. 23.—Damage which will run up into many thousands of dollars and which will be all the more severely felt because the crop had not been expected to be any too large was done to the apple orchards in New Brunswick by yesterday's abnormally severe gales.

Trees have been stripped of almost all the fruit they were bearing in some instances and orchards along the St. John River and elsewhere throughout the province are today covered with apples blown from the trees and now upon the ground in an unripened condition which makes them practically valueless.

DANGLES BABE FROM WINDOW; POLICEMAN RESCUES LITTLE ONE

New York, Aug. 23.—Joseph Vintolo, who lives on the second floor of the house at 181 Bay street, Jersey City, became exasperated with his eight-months-old son and decided to give it to the air. He held the weeping infant out of a front window by one leg.

Citizens in the street below, alerted in amazement. Patrolman Corrigan looked up and saw the man's arm protruding from the window with the baby dangling from it. He rushed up the stairs to Vintolo's apartment. Onlookers below saw the blue-clad arm of the policeman reach out the window, grasp the child and draw it to safety. Vintolo, who the police say had been drinking, was sent to Jersey City Hospital to get sober before arraignment.
