EASTERN S. S. CO. SCHEDULE CHANGES

Some change has been made in the schedules of some of the Eastern Steamship line steamers in anticipation of the summer rush of travel. Fuller will take the Governor Dingley's place.

The steamer Boston will be taken off the Yarmouth route and held in reserve as a spare boat. The Prince George will not, as heretofore, return north this summer, but will continue to ply between Key West and Havana.

NOT READY YET FOR TENDERS FOR LAYING NEW WATER MAINS

Pipe Will Not be Shipped Until May 29—Douglas Avenue and Adelaide Street

Water and sewerage matters engaged the attention of the city commissioners at their meeting today and there was a general discussion of the proposed renewals. It was announced that it would be impossible to call for tenders for laying the new water mains at present as notices had been received from Ontario and that the pipes will not be shipped until May 29, when they will leave by the Hamilton Line.

On the water now under way, 200 feet of sewer pipe has been laid from Douglas avenue toward the railway tracks for the Douglas avenue outlet. In Adelaide street the trench for both water and sewer pipe has been opened up for a distance of at least 200 feet.

SOME CLEAN-UP DAY INSTANCES

Although it was conceded by practically all connected with the event that "clean-up" day was quite a success there was one merchant at least in Indian town who registered a complaint this morning because he thought that some barrels in which refuse had been stored for cartage, should have been returned to him. He expressed himself as quite indignant that the teams which had taken away the rubbish had not brought back his barrels, but it had been done in one instance it would follow that others would expect it, and there would be less effective work done.

Another man saw a fine chance of having a pile of old boards taken away without costing him anything, so he therefore deposited them carefully in the street expecting them to be carted away yesterday. He was very much disappointed however, when he found he had had his trouble for nothing, as only refuse in receptacles was carried off, and this morning the boards were still in the street.
