ELECTRICITY IS THE SOURCE
OF PHYSICAL AND MENTAL ENERGY

Every man who is falling and "going back" knows that there ought to be something that will restore that old "steam" to his physical body. He has tried the usual drug method and found that a fizzle, and yet he knows that there must be something.

I know it, too, and I've got it. It's Electricity. You can't name anything more likely to have that force which a weak man lacks. It's a natural power. I can pump it into a weak man while he sleeps, and make him feel like a Sandow in no time. It's the life of life. If you have been paying money to doctors and taking nasty drugs for years, and after getting no benefit from it all, you find a new lease of life after using my Belt for a month, you will be enthusiastic. You will want to go out on the highways and shout, and sing, because now you are cured and are once a weakling. You are now a man again. My Belt is easy to use; put it on when you go to bed; it flows into the morning feeling like a two-year-old.

Meteghan Stn., Dig. Co., N. S.
A. McLaughlin:
Dear Sir—I am pleased to tell you that I have your Belt for Lane Back and was cured in no time. I have great faith in your treatment and will use it everywhere. Wishing you and your Belt and prosperous years in your good work.
I am respectfully yours,
Ellie D. Extremont.

Most of the pains, most of the weakness of stomach, heart, brain and nerves from which men suffer are due to a lack of electricity. The very element which you have lost you can get back, and you may be as happy as any man lives. This loss of your power causes Kidney Trouble, Rheumatism and Stomach Ailments. You know it's a loss of power and affects every organ of the body. Most of the ailments from which men suffer can be traced to a lack of electricity.

have cured thousands of men who have squandered the savings of years in useless doctoring. My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no sting or burn, old-style belts), and you feel the nerves tingle with the new life flowing into them. You get up in the morning feeling like a two-year-old.

YACHTING

To Command Shamrock IV
London, June 7.—W. P. Burton has been chosen to command the yacht Shamrock IV, Sir Thomas Lipton's challenger for the America's cup.

THE RING

Came Back at Finish
Buffalo, N. Y., June 7.—For eight rounds George, "One Round" Davis, of Buffalo, had all the best of Soldier Kearns of Brooklyn in a ten round bout here last night. In the ninth round Kearns knocked Davis down with right hook to the jaw, and Davis took the count of nine.

News of the Boxers
Joe Hirst, a Philadelphian, who has been in England for several months and won some bouts there, is back in Philadelphia.

Jack Britton and Charley White will probably be billed for a bout at Kenosha, on June 18.

Jack Dillon will take on Tony Caputo in Winnipeg on June 18.

HAVE YOU A BAD SORE?
If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sores?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing and antiseptic. Kills poison instantly, and all harmful germs. It is suitable either for use on the skin or for internal use.

Recent injuries and diseases, and for chronic sores, ulcers, etc. Test how difficult it is to heal a sore. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath, etc. tablet.

Report On Town Planning

The report of the committee on town planning, which was submitted to the Council of the Board of Trade yesterday, was approved and adopted.

The report recommends that the Common Council should be asked to appoint the commission and draw up a general plan to govern the development of the city.

Encouraging reports on the prospects for securing two new industries were submitted.

The entertainment committee was instructed to secure automobiles for the use of the New England ticket agents who will be in St. John on June 16.

County Affairs

Warden Carson, who was in the city yesterday, said that no effort had been made by the Eastern Trust Company to enforce the option on the Municipal Home and that no option would be given.

A special committee of the county council yesterday recommended that the sheriff's salary be increased from \$1,800 to \$2,000.

The hard labor committee of the county council met yesterday afternoon and, after electing Coun. J. E. Bryant of Lancaster chairman, discussed a programme of work for the chain gang.

St. Paul, Minn., expects to expend this year \$38,000,000 on new buildings.

MARATHONS

CAPTURE LEAD
FROM ST. CROIX

Maine-New Brunswick League Standing

Team	Won	Lost	P.C.
Marathon	4	8	.666
Fredericton	5	3	.625
St. Croix	0	9	.000

With the score 5 to 4 in favor of St. Croix, the Marathons came to the bat yesterday afternoon in the last half of the ninth and batted themselves to victory.

The game was the most exciting that had been played here this year, and the nine hundred fans who witnessed it came away satisfied that they had received their money's worth.

The visitors came to the bat first and scored four runs on an error by Riley, a base on balls, two sacrifices and a single. It looked rather blue for the Greeks at this stage, but in the next inning Turbell settled down and was given great support.

O'Brien opened the batting and was given great support. O'Brien opened the batting and was given great support.

Both teams got one each in the fourth, the border boys on an error and a hit. While Fletcher only was winding up, Watt brought the fans to their feet by stealing home, meaking in while the pitcher threw wild.

In the seventh Lynch, the St. Croix third baseman, was hit by a ball from his bat and was carried off the field unconscious, but when he came to returned to the plate and got safe on first on a hit to pitcher, but was left there.

He retired however and his place was taken by Howard. In the Marathons' session at the bat they got their eye on the ball and managed to chalk two more runs to their credit. The eighth inning went through without any change in the tally, but the fans were beginning to get worked up.

The score stood 5 to 4 in the visitor's favor and it was their turn at the bat. Joe was as steady as Gibraltar now and mowed the enemy down in fine style. Nolan opened it for the Greeks by beating out a single to third. Turbell attempted to sacrifice by Lee, who replaced Conley in this inning, fumbled and allowed Joe to reach first, Nolan advancing to second. Both runners advanced on a wild pitch. O'Brien was at bat and he landed on the next hit—Lee, Conley. Hit by pitcher—By Conley, 1 Time—1 hr. 55 min. Umpire—Hanley and McCann. Attendance—900.

Notes of the Game
"O'Brien was right on the job yesterday. He got the first hit and the last, and maybe that last one wasn't a peach.

We are now at the head of the list and running strong.

Turbell worked well yesterday after he got warmed up and had the fans with him at all stages.

The Greeks have now hit their stride and it looks good. Let us hope for more of it.

St. Croix played a good snappy game and their fielding was of the best variety.

Lynch is a game one. With one of his eyes out of commission he got his good optic on the ball and received well merited applause from the fans.

Today's game with the tail-enders should mean another victory for the Leonardis. Go to it.

Indians will present the passion play in British Columbia this summer.

In the Yukon at Whitehorse a New Brunswick man has started a fox farm.

Houses are being moved on saws from Skagway to Juniper.

DANIEL STORE IS
RE-OPENED; BRIGHT
AND FINELY STOCKED
Fresh From Hands of Workmen
After Fire Visitation and Mos
Attractive in Every Way

After having entirely renovated, with new stock, and presenting a most attractive appearance in each floor, the store of F. W. Daniel & Co., Ltd., 100 King street, was opened this week after the fire disturbance, and the opening will continue during next week. Large numbers of customers visited the store and were delighted with the pleasing manner in which it had been improved, the furniture in use, the stock display, and the general appearance of the two floors which had already been finished. The work on the third floor is now being rushed to completion and will probably be ready by next week.

With new metallic ceilings, silent salesmen, improved lighting fixtures, and clearer floor space, the new house of F. W. Daniel & Co., Ltd., is one of the finest in the city, and one would never think the only a few weeks ago the building had been very badly damaged by fire.

On the lower floor is found a variety of stock, haberdashery, dress goods, etc., neatly displayed, while ready-made goods are located on the second floor. On the third floor, when finished, will be found draperies, curtains, etc., with the general offices and Mrs. F. L. Ha's dress-making rooms. Each floor is particularly bright and cheery in appearance and a great flow of natural light helps towards its attractiveness, while the artificial lighting is most modern.

Great Industrial
Projects for Italy
Large Artificial Lakes to Supply
Power For Extensive Works

Milan, June 6.—The Italian government is promoting a colossal undertaking. Three huge artificial lakes are to be constructed in the granite mountain range of Sila, better known as Aspromonte, which lakes, besides irrigating a vast stretch of tableland, will furnish 100,000 horse-power electricity for industrial purposes in Calabria and Apulia, practically the whole of the heel of Italy.

Another rather similar reservoir is being created in Sardinia in a malarious region bordering the Tino river, which is destined to drain about 50,000 acres of marshland and store up 800,000,000 cubic metres of water. It is expected there will be sufficient surplus power to provide electric light and traction for all the line, lead, copper and silver mines throughout the island.

Private companies engaged in the task will enjoy special grants and privileges from the state into the hands of which the entire plant will pass, gratuitously after sixty years' concession. In the meantime the government has the right to be supplied with all requisite power for public services at cost price. The estimated outlay on the project is about \$80,000,000.

Commandatore Ruini, director-general of public works for South Italy, has actually on hand improvements the expenditure upon which totals \$62,500,000.

Richard C. Miller, of Montreal, was released from jail in Ottawa yesterday after being a prisoner of parliament
