SABBATH SCHOOL REPORT

FOR 1883.

MEMBERSHIP.

The school, as regards members and attendance, has not made any advance during the past year, although our meetings have been pleasant and profitable. Two of the Senior Classes, owing to the long absence of the regular Teacher in one case and the want of a suitable Teacher for the other, were almost lost to the school for long periods, but now they are again in good form. It has been gratifying to Teachers, Superintendent and Pastor to find that four, at least, of our young people—still remaining in connection with the school—were enrolled as members of the Church upon a profession of their Faith.

TEACHERS.

There have been some changes during the year in the Teaching Staff, and at times help was very much required, but I am proud to report a full complement of Teachers at present.

TEACHERS' MEETINGS.

Owing to the Pastor taking up the "International" Lessons as topics for exposition at the Wednesday evening meetings, there have only been a few meetings of Teachers for necessary business.

VISITING SCHOLARS.

Its faithful performance would tend very much to secure a larger and more regular attendance of the scholars, and enlist the co-operation of parents to a much greater extent. The attention of Teachers is respectfully called to this important duty.
