Did space permit, we could rive many hundred etch manes, from all parts where the Tills have been used, but evidence even mark convincing than the certificates of these cannent public men. is shown in their effects upon trial.
These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical precess, in a state of purity and combined tegether in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills buok, to produce a more efficient remedy than had bitherto, been do-tained by any process. The reason is perfectly do-vious. While by the oil mode of composition, ov-ery medicine is burdrend with more or less of atar-monious and injurious qualities, by this, cach indi-vidual virtue only that is desired for the eurative effect is present. All the inert and obnoxious qual-tices of each substance employed are left behind, the eurative virtues only being retained. Honce it is elf-evident the effect should prove as thep have proved more parely remedial, and the Pills a surg-more powerful antitote to disease than any other medicine known to the world.
As it is frequently expedient that may medicines hould be taken under the counsel of an attending physician,

internal viscera to purify the blood and stimulate it into health action — remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derange-ments as are the first origin of disease. Being augar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions, see the wrapper on the Box.

Box. Prepared by JAMES C. AYER, Practical and Am-alatical Chemist, Lowell, Mass.
