CASING and it swung back into place with

and the thing was done. Wad laked at his watch and found is minutes just 12.

"I's dend easy," he said to him is be walked away. "All you have right so far. I give you credit for it. minutes past 12. hat's dead easy," he said to him That's dend easy," he said to his it is be walked away. "All you have do is to measure your door and cut it who the measurement of the door much the hinges, and there are." He had an idea that the thing a peat deal more complicated and anded special skill. He had a saw a square of his own at horse. The ways rather a small sized one, and it is destring and filing a little, but it as still equal to chewing off the too. adley could only guess, but which in- all the afternoon to trim it down his deep respect, nevertheless. The people next door had a place, he can be deed, and as they had lately borrowed is gorden take and Mrs. Wadley's generous shavings, bending over from lothesline props he did not see why he should not ask to be allowed to use it for 12 minutes. He thought this all cined himself astonishing Mrs. Wad-

"I think it is about time we did some-grew eather he said that he didn't be-with it." said Mrs. Wadley when lieve a fly could get in, anyway, unless with it," said Mrs. Wadley when usbrind asken where in the basement she had put that screen door.

a cin?"
I think I can manage it all right."
I watched a man puras as I was coming home, and I want year as I was coming home, and I want year time me fail the minute I start."
I fair he start dhe had to take down ad doord which had been simply a It was several minutes before he for ad door which had been simple and by the tast hired girl. She was good girl, ad girls go, but she have sale worked in a restaurant the habit a the lawer panel of the door she had come and the lawer panel of the door she

to open. then placed out to ones," has ed. "to there the an make the old the side, so o."

Mrs. Wadley rose and went into the lotely artisan would not be in his lob, but would go to his dinner, and he elt sorry that he had stopped.

He was mistaken in this. The man hald his square lengthwise and nerves the door opening, and then, producing a flat pencil from the rear pocket of slack trousers, measured the screen oor and made two rapid marks, at her draw a line along the edge of the same over it in a fatiguing position.

Mrs. Wadiey returned his saw house, and Wadley, having marked the screen, laid it on the porch and began to saw. It was hard work, for the blean over it in a fatiguing position.

West Wadiey returned his saw the service and he was persplying from the was not him for a winor extra and their uggested that she so that the end of the door and steady it while he sawed. Presently she inform d him that the saw was approximately and the straight and the saw was approximately and the

ing from the straight and nat in ented by the pencil, and terran ineffectual effort to ack, stopped and wiped his b sleeve of l. a shirt.

if I only had a saw that was od," he said.

"There's the ment saw," suggested Mrs. Wadley, hesitating y.

His. Wadley, hesitating y.
Her husband looked at her sharply, but it was evident that she had spoken in good faith, and he continted himself with saying that he didn't believe the meat say would do. "I guess i'll have to start again from the other side," he continued: "I wasn't watching the thing as closely as I ought to have done."

This time he heard protty closely to he line, but the saw begin to wish, dorder and harder, and by the time is and got its own with into the sood is and got its own which into the cool is sinck fact and observately refused ingo any further, "It needs greasing, aid Wadley, and he precured the value of bottle and smeared the saw plen toously. It traveled well for another inch and then stuck again, "I think," said Mrs. Wadley, "that you put a wedge in the end who you've sawed it will be all right. Here I'll show you what I mean."

She pressed a nail into the cleft are

It was several minutes before he figured the thing out. Then the irresistible conclusion that he had measured in the inch of procruding side piece and had then ignored it when he marked was borne upon him. But it brought no

consolation.
At last, with infinite labor, he sawed out an inch strip of wood and nailed it on the top of the door. It nearly fitted then, but was a little too thick, and in paring it down Wadley broke the blade of his pearl-handled penknife. There was more trouble when he tried to put on the hinges. The rusty screws refused to turn for Mrs. Wadley's sewwhich was a source of the many of the way, it may be a source of the many of the state of the many of the many of the state of the many of the state of the many o
