## LOCAL NEWS.

Celebrated Broad Cove coal, \$7.00 per chaldron delivered, at Watters', Walker's wharf, Tel. 612.

The world's temperance Sunday will be celebrated on November 22nd, when special sermons will be preached and special lessons taught in the Sunday schools.

The charge against the proprietor of the Alexander Cafe for having liquor for sale which was to have come up for hearing this morning has been postponed until tomorrow.

Whether you're worth a "million" or whether your day's pay represents your wealth, get your money's worth. Cambridge—a five cent Havana cigar, is fit for a millionaire. Golden Sunbeam—a smoking mixture, blended after forty years' catering to the public taste—a mixture of Turkish and Pinque, won't bite the tongue. Louis Green, King street.

## SALE RESTRAINED.

Before Judge McLeod this morning in the supreme court chambers, hearing in the case of Murchie vs. The Eastern Trust Co. and the Royal Bank of Canada was resumed. The plaintiff seeks to restrain the defendants from selling certain timber which they hold in security for the payment of debentures of the Tobique Mfg. Co., on the ground that the sale will injuriously affect the interests of other creditors of the Tobique Mfg. Co., of whom the plaintiff is one. After hearing both sides, his honor allowed a postponement of the sale of the timber for a fortnight from date.

In the meantime, the proceedings of winding up the Tobique Mfg. Co. will be carried to completion, and with that object in view the interested parties met before Judge McLeod in chambers this afternoon.

Attorney General Pugsley and W. H. Grimmer appear for the petitioner, George H. Murchie; and Col. D. McLeod Vince, George W. Allen, K. C., and J. N. W. Winslow oppose the petition.

## PRIZE STOCK PURCHASED.

At S. T. Golding's stable, Princess street, this morning, Dr. Fred M. Johnson, acting on behalf of the St. John Agricultural Society, sold to members of the society three pure-bred Jersey heifers. These animals were two years old, and were imported from the Scotia farm, owned by J. Rufus Starr and located in Kings county, N. S. Two of the heifers, one of which took first prize at the Halifax exhibition, were purchased by Samuel Creighton, of Silver Falls, for \$55 and \$45, respectively, and the third by J. M. Donovan, of Goldbrook, for \$35. This is only a few dollars less than was paid by the society for the animals.

## A FACTORY ACT.

The Women's Council is co-operating with the Fabian League to secure legislation for the better protection of employees in factories. At the public meeting in Berryman's hall on the evening of the 15th inst., R. G. Murray will speak on the needs of a Factory Act. M. J. Kelley, Wm. Stanley and others will take part in the discussion. Possibly the Hon. H. A. McKeown will be present.

## THIS EVENING.

Country Fair at the Opera House.  
Thistle Curling Club's first regular meeting.  
G. W. Temple's official visit to Victoria Temple No. 2.  
Meeting of No. 2 Social Company at 7.30.  
High tea and sale at St. Peter's church.

## TIGER

Tea in Packets Only

## A ST. JOHN IDEA STOLEN.

The Star yesterday re-published from the Montreal Herald a description of a new invention consisting of a small window for umbrellas through which a pedestrian, leaning against a storm, could keep a lookout over the sidewalk ahead of him and prevent the annoying collisions that so frequently occur. E. G. Corbin, of this city, informs the Star that he has been working on this invention for some time, and has just about perfected it by discovering for the window a transparent substance which would afford no obstacle to the folding of the umbrella. He has mentioned his efforts to several and is confident that the Montreal invention was inspired by his idea. He will probably not carry his work any farther as he supposes the other inventor has already prevented him by procuring a patent.

## STRIKE IN SYDNEY.

A strike by the employees of the Dominion Iron and Steel Company, Sydney, C. B., may likely take place at any moment. The trouble has arisen over the recent dismissal from the works of a large number of employees, all of whom were members of the Provincial Workmen's Association. Conferees have been held with the management of the works, but no definite understanding has yet developed. The members of the P. W. A. claim that there is an unfair discrimination against them in favor of foreign labor. The Dominion Company threatens a general reduction in wages, which, if it is brought into effect, will immediately bring matters to a crisis.

## AN ENJOYABLE EVENING.

Gordon Division hall in the Market building, was filled last evening when a visit from the members of the district and subordinate divisions, S. of T. together with the grand officers, was made. W. P. McCavour, J. S. Gowland, C. E. Everett, H. W. Belding, James Sullivan, John Law, readings by C. Lester, Joshua, Starke, Miss M. Leggett, Mrs. G. Armstrong and Miss L. Sullivan; song by Jas. Ross, and harmonica solo by Joseph Wells. The evening was most enjoyably spent by all.

## GREAT IMMIGRATION PROSPECTS.

The immigration officials who are already in the city, are wearing worried looks over the prospects for the coming season's work. They think it was bad enough last year, but with the C. P. R.'s two dollar discrimination in favor of St. John the officials fear they will get no rest at all. It is thought in many quarters that this new rate will practically shut out the Dominion and Hamburg lines from Canadian business and will give the C. P. R. more passengers than they can handle. If the other lines wish to remain in the business they will have to land their passengers at St. John.

## AT THE OPERA HOUSE.

The Country Fair at the Opera House drew a very large audience last evening and those who went were not disappointed. All members of the company are clever and the specialty work was above the average. The imitation of a band of gypsies by the Diamonds and Bowers was very funny. The play itself winds around the same old story of a mortgage on the farm which is finally paid by money won by cold molasses in a race at the country fair. This latter scene was shown by moving pictures and was quite interesting. The piece will be repeated this evening.

## A NOTABLE BOOK.

There has recently been issued the "History of St. Andrew Society of St. John," written by Dr. I. Allan Jack during the last years of his life. This book is not only a creditable literary production, but is of value as containing the chronicles of the society from its inception till the present time. The book contains the list of officers, members of the society, photographs of the presidents, and bright accounts of the many functions which the society has been interested.

## BURIED TODAY.

The funeral of the late Miss Isabella Breen was held at eleven o'clock this forenoon from the almshouse to the Cathedral. Rev. Fr. Carleton conducted service and the body was interred in the new Catholic burying ground. This forenoon the funeral of George F. Petrie was held privately from his late residence in Windsor street to the new Catholic burying ground.

## THE DELEGATES ARE HOPEFUL.

Say Montreal Trip Was Not Wasted.

But They Decline to Say Anything About the Plans Discussed With the C. P. R. Officials.

The civic delegation returned today from Montreal, where they had been in a vain attempt to discuss the harbor accommodation question with Sir Thomas Shaughnessy. As a rule the delegates are as dumb as oysters in so far as detailed information regarding their trip is concerned, but from general remarks from all of them it might be supposed that the discussions held were profitable and that there is something good coming. They say they cannot give any details, for making public the results of the conversation would spoil all chances of ultimate success. There were no banquets, but the delegates had a good time, and while it is regretted that they were unable to go into the matter more deeply with Sir Thomas they feel that the trip was not without good.

Deputy Mayor McGoldrick said: "I cannot tell you what happened, but we went into the matter pretty thoroughly and I think the discussions may come out all right. I can't very well talk just now, but further particulars will be learned later."

Ald. Tilley, the member most deeply interested in the welfare of the West Side, said: "I have nothing at all to say for publication. I'm not talking today."

Ald. Maxwell, after expressing the hope he felt that good results would follow, added that he expected Sir Thomas Shaughnessy down in the near future, probably within a couple of weeks. No definite time was named, as Sir Thomas will first see the other officials with whom the delegates were in consultation.

Alderman Macrae said facetiously: "We are back in good health and three days older. We had a fairly good time while away and are hopeful of the future."

Alderman Robinson said: "None of the details of our conference with the C. P. R. people can as yet be given to the public, as more conferences are to be held. It cannot yet be said that no results have been achieved, and it is difficult to say what the future will develop. We are all hopeful."

Supra Downie says he thinks that progress was made, but that the railroad standpoint. Nothing was finally settled, but more discussion and figuring will be required. He believes the outlook is hopeful for an agreement as to the new berths.

## G. P.'s, MADE A LAKE.

Prettiest Spot in Rockwood Park is Now Practically Completed.

New Lake is a 12 Mile Long

Yesterday morning water was turned on for the first time in the new lake at Rockwood Park, and now the bottom is covered to a depth of about four feet. The work of building dams is almost completed, and one day more of the chain gang will be sufficient to finish the job. This new lake is already far prettier than Lily Lake, both as regards surroundings and formation of the lake itself. It is over half a mile in length. The width of open water cannot be fairly estimated, owing to the many small and beautiful islands scattered through it. As yet, nothing has been done towards clearing the bottom of the lake, and this work will in all probability not be started until the Peacock arbitration matter is settled. This, it is expected, will be done within a few weeks, and by the time the ice forms the laborers will be ready to cut down the bushes and other undergrowth now forming the bottom of the lake.

This lake has been built wholly by the work of the hard labor prisoners of the jail. They first went to the park on the 8th of June, and, with the exception of a few who have been employed ever since in building the dam, eight men went up first, but the number has been gradually increased to as many as 13. The principal expenditure for the lake has been the pay of the two guards who looked after the men, although certain moneys have also been laid out for clothing and other necessary equipment of the laborers. The work has been done by hired labor. The park committee naturally feel much gratified over this success of their plan and are congratulating themselves on what is now the most beautiful of the many lovely spots in Rockwood Park.

## HAVE EMPLOYED AN ADVERTISER.

Messrs. Manchester, Robertson, Allison, Ltd., are adding a new department in connection with the conducting of their increasing business, and after Dec. 1st, will employ the services of a professional advertiser. Walter H. Golding, for nearly three years a member of the writing staff of the Globe and engaged in newspaper work in this city for over ten years, has been engaged to assume charge of the publicity department. Ad. writing is now one of the essentials in the progressive carrying on of nearly all branches of business, which fact Messrs. Manchester, Robertson, Allison, Ltd., recognize, and in securing an advertising specialist are the first in St. John to do so. There are four busy buildings in the corporation's establishment and nowhere are the premises more to-date and convenient than those to be found in the soon-to-be-opened new building on King street. Clothing for men and boys, all lines of dry goods, men's furnishings, fur, millinery, ladies' clothing, furniture, carpets, travellers' requisites, etc., etc., are ready-selling goods, which require daily advertising to allow of their being presented to the public in detail, and this Mr. Golding has been engaged to do.

## THERE'S MONEY IN DIAMONDS.

KIMBERLEY, South Africa, Nov. 17.—At the annual meeting of the shareholders of the DeBeers consolidated mines yesterday, a report was presented showing that diamonds produced during the year realized a total of \$25,255,950, giving a profit of \$11,511,450.

## FAMILY QUARREL AIRD.

Geo. J. Denniston Was Fined \$20 for Assaulting His Stepmother—She's a Crank, He Says.

George J. Denniston appeared in court this morning to answer the charge of assaulting his step mother, Mrs. Joseph A. Denniston, in her home on St. David's street on Sunday evening, Nov. 14th. Sherwood Skinner appeared for the defendant.

Mrs. Denniston told that upon going home from church George was at their house. He went in and saw her get into a discussion over some family ill-feeling. Mrs. Denniston rose to discontinue the talk when he struck her, knocking her down. This happened twice, and she sustained a number of severe bruises.

Joseph A. Denniston, the father, told practically the same story, adding that George had threatened to strike him. For the defence the defendant and his young son gave evidence, which went to show that the stepmother is of an irritating disposition, prone to quarrelling with the family and hard to get along with. George denied that he had struck her, but admitted that he had pushed her away when she struck at him.

The magistrate seemed inclined to allow the case to drop in the hope of an amicable settlement, but J. A. Denniston insisted that the law take its course. The defendant was adjudged guilty and fined twenty dollars, the penalty being allowed to stand.

## MONTREAL ICE BOUND.

A Slippery Covering of Ice Ties U Traffic and Causes Many Accidents.

(Special to the Star).

MONTREAL, Nov. 17.—Montreal was demoralized last night by a rain which fell and froze and covered the city with a slippery coating of ice. Many injuries to men and horses are reported. A driver of a mail wagon had to ascend a long hill by the aid of two horse blankets laid on the ground, using one blanket at a time. On the same hill a cabman tried to descend safely by unhooking his horse. The result was that the horse slid down two blocks and into a fence with the driver holding on to his tail.

## WILL BUILD YUKON RAILWAY

(Special to the Star).

OTTAWA, Ont., Nov. 17.—Mr. McPherson, M. P. of Vancouver, saw the premier today about the early construction of a railway from Kluhat to Dawson. In view of the recent Alaska award, it is understood that the premier approved and gave McPherson encouragement to proceed with the formation of company.

## PREMIER McBRIDE STAKES ALL.

(Special to the Star).

VANCOUVER, B. C., Nov. 17.—C. Wilson, conservative, and Capt. J. Duff Stuart, liberal, have been nominated in the local by-election for the place made vacant by Wilson entering the government. It is stated that Premier McBride has indicated that if Vancouver goes against Wilson he will place the government's resignation in the lieutenant governor's hands.

## PERSONALS.

G. K. Hanson, of Little Lepreux, left today for Los Angeles, Cal., to join his wife and two sons, who have been residents there for two years. He will return about the first of May. Mrs. J. H. Nase and her daughters, Mrs. Woodman and Miss Louise Nase, have left their summer home at Woodman's Point, and will reside at 25 Crown street for the winter.

## DYNAMITE EXPERTS.

More Witnesses Testify in the Case Against John Scribner.

The preliminary examination of John Scribner, charged with endangering life and property by throwing a box of dynamite, was continued in the police court this morning. Two witnesses, both experts in the handling of dynamite, were heard, and the examination was further adjourned.

John A. Wheaton, railroad contractor gave expert evidence regarding the handling of dynamite. He said it should be handled carefully and not thrown about. Three weeks ago it could be used at once without thawing. If Scribner threw dynamite fifteen feet he did a very dangerous thing and if people were near they were exposed to great danger, as the act was one that would be liable to cause an explosion. Dynamite falling less than fifteen feet might cause an explosion. He had handled dynamite personally but never allowed any to be dropped. Would not take the risk of throwing one of these sticks across the room.

Michael Corr, of the city public works department thought it would be a dangerous act to throw a box of dynamite fifteen feet. It might go off and it might not. Had known frozen dynamite to explode and would not agree with the statement that it could not be exploded by concussion. There is danger in handling even frozen dynamite. A box of properly packed dynamite might fall sixty feet and not explode, but then again it might. In the street work he had seen just as good work done with the frozen as with the thawed dynamite.

## POLICE COURT.

James R. Macaulay was entered on the police books as General Macaulay, but admitted to the magistrate that he makes no claim to such a title. He has no recognized military standing but labors under a nickname. The "General" paid four dollars for being drunk last night on British street.

John McShane had never been arrested before and never would again. Once is enough for him. The magistrate hoped so—so did John. Four dollars.

William Burns denied that he had been drunk and was remanded for evidence.

W. H. Thorne, George McLeod, Geo. R. McKean and Attorney General Pugsley leave today for Chatham, where they will continue the hearing of evidence in the Shives arbitration matter.

## Morrell & Sutherland

TELEPHONE 1653.
