BOSTON IS PLANNING
AN OLD HOME WEEK

Elaborate Programme Which is Expected to Draw Many Thousands to the Hub

BOSTON, Feb. 28.—A home-coming reunion and celebration is to be held in Boston during the regular Massachusetts Old Home week, July 28 to August 3, which is expected to eclipse in magnitude and interest anything of the kind ever before planned by an American city. This decision was reached at a meeting of prominent business men of the city, held today and presided over by Mayor John F. Fitzgerald. The belief that such a home-coming reunion can be made a success is based on the fact that there are something like 20,000 Massachusetts born people with their families living in different parts of the United States, outside of New England, and it is believed that the elaborate programme to be prepared will attract many thousands of these absent sons and daughters to their old home.

There will be all sorts of festivities scattered throughout the week, including a civic and trades procession, electrical and automobile parades, river and sea shore carnivals, literary exercises, firemen's musters, yacht races, old-time sports, exhibit of manufactures, historical pilgrimages, band concerts, trolley trips, illuminations, inspections of local industries, receptions and other features.

THE WORLD RENOWNED
REGAL SHOE TO HAVE AN

AGENCY IN ST. JOHN

It would be no exaggeration to say that there is hardly a man or woman in St. John who has not heard of the Regal Shoe. The original idea of the makers of the Regal Shoe was to sell direct to the American public and to carry out this idea a chain of exclusive stores were located in the largest cities throughout the union. Some years ago a change was made and branches were opened in the principal cities on the continent. Up to two years ago the factory capacity was strained to meet the increasing demand of the established stores and additions and alterations were made so that at present the premises occupied in making Regal Shoes are by all odds the largest in the world. Up to December 21, 1906, the Regal people would not entertain, or repeated requests for permission to sell the goods in Canada, but about that time the directors concluded that so many applications were pouring in from all parts of the world that a few agencies would be opened and Coady & Co. have the proud distinction of having had the first agency granted in the Dominion of Canada. That of 736 applications they should be among the chosen few speaks well, not only for their business ability, but is a convincing tribute of the high opinion entertained by American manufacturers for St. John as a prospective business centre.

It is Coady & Co.'s intention to hold a grand opening on, or about, the 18th of March, when an opportunity will be afforded the people of St. John to inspect as complete a stock of Regal Shoes for men and women as can be seen in any one of the large Regal stores in the United States.

Society

Japanese Want a Railroad Agreement—Chinese Bandits Cause Some Apprehension

ST. PETERSBURG, Mar. 1.—The following details of the murder Wednesday at Karsenoyarsk, Siberia, of Commander Koslovsky, the commandant of that town have been received here.

The general was walking on the street at five o'clock in the afternoon with some friends and he referred jokingly to a threatening letter he had received that day, saying he would be killed at 5 o'clock that afternoon. Drawing his watch from his pocket the general remarked laughingly to his friends: "You see I am still alive."

At about 6 o'clock when General Koslovsky was returning home alone a man suddenly called upon him to halt and then fired three revolver shots at him. The general dropped dead.

ST. PETERSBURG, Mar. 1.—A Japanese delegation composed of three staff officers of the engineers, headed by Lieut. Col. Fukudada, have arrived here for the purpose of negotiating a workable agreement for the junction of the Russian Japanese and Chinese railroads in Manchuria. The present lack of connection between these lines is a serious obstacle to traffic and particularly hinders the development of Japanese
