ONE BOX OF DOAN'S KIDNEY PILLS CURED DROPSY.

Dropsy is not a disease in itself, as many people believe, but is an evidence of very severe kidney trouble. Dropsy is caused by watery particles coming through the walls of the arteries when they are distended by unusual pressure, which can only be caused by obstructions in the kidneys. The symptoms of Dropsy are puffiness under the eyes, swelling of the feet and ankles, urine changed in character and appearance, smothering feeling from exertion or excitement. The only rational method of treating this disease is to reach the kidneys and restore them to a healthy condition.

The most successful remedy for this purpose is Doan's Kidney Pills. Read what Miss Agnes C. Smith, of Upper Smithville, N.S., says of them:—"I caught a cold, which settled in my kidneys, and turned to dropsy. My face, limbs, and feet became bloated, and if I pressed my finger on them it would make a white impression that would last fully a minute before the flesh regained its natural color. I was advised to try Doan's Kidney Pills, and found by their use that I was cured in a very short time. I have never had any trouble with it since."

Price 50 cents per box, or 3 for \$1.25.

THE DOAN KIDNEY PILLS CO., TORONTO, ONT.

CITY NEWS.

Recent Events in and Around St. John.

To cure Headache in ten minutes use Kumford Headache Powder, 10 cents.

The iron screw steamer Peruvian, 3,322 tons gross, 2,621 tons net, belonging to the Allan line, has been sold to Italians. She has been laid up for the past year.

FOR INTERNAL AND EXTERNAL applications we have found Perry Davis' Painkiller of great value and we can recommend it for colds, rheumatism or wounds and bruises.—Christian Era. Avoid substitutes.

At the adjourned meeting of the trustees of the local Y. M. C. A. on Tuesday evening, a resolution of condolence was passed regarding the death of Mrs. Marshall, wife of Fraser G. Marshall, of New Glasgow, N. S., the association's maritime cemetery, and a copy will be sent to Mr. Marshall, who is well known in St. John.

CHILDREN'S DISEASES. If your little boy or girl comes home from school or play with a stomach or a headache, the first thing to do is to give the little one a Hutch Tablet. There isn't a bit of danger in using it freely, as it contains nothing that is injurious. It doesn't gripe or pain their little stomachs either. Children like to take it, because it looks, smells and tastes so nice. It is chocolate coated. Mothers ought to remember that "A stitch in time saves nine," and keep a bottle of Hutch Tablets in the house all the time. A bottle of it in the house is a necessity in every home, and a safeguard much the same as a lock on the door.

You may not need it often, but when you do need it bad. One gives relief. Buy it for your druggists.

The people of Hartland listened to a musical treat last Wednesday evening, when Miss Kelly's pupils gave a recital, which was largely attended and greatly enjoyed. Among those who took part were Miss Kelly, Messrs. H. Tracy, Morgan, and W. Tracy, Miss Lella White, Geo. S. MacLachlan, Miss Dorothy Perkins, Miss Alice Boyer, Miss Mary Bradley, Miss Clara Matheson, Miss Edith Kennedy, Miss Louise Reid, Miss McMullin, and Miss Bradley.

SCHOONER ARRESTED. Yesterday Marshal Coughlan seized the three-masted schooner Wandan, now lying at a wharf, and arrested the crew at the instance of Benjamin Hatfield, for \$1,000 damages done to the schooner Helen M., in Parrsboro harbor by a collision last fall.

NERVOUS DYSPEPSIA. Mr. George Bolen, Spry, Bruce Co., writes: "I was troubled with nervous dyspepsia for some years, and after using nine boxes of Dr. Chase's Nerve Food I felt better than I had for years. Dr. Chase's Nerve Food is certainly the best medicine I ever used, and I say so because I want to give full credit where it is due."

WRIT AGAINST P. S. MACNUTT.

Messrs. G. C. and C. J. Coster, acting for the Bank of Nova Scotia, have had a writ issued by the supreme court against P. S. MacNutt, who for some years carried on a business as a dealer in agricultural implements. Mr. MacNutt is at present out of the city. It is said that Mr. MacNutt's indebtedness to the bank is \$18,000, chiefly in the form of notes given to him by customers and discounted.

Mr. MacNutt is at present in the United States but is expected home shortly.

P. E. I. STEAMER ICEBOUND.

The steamer Stanley, which left Georgetown, P. E. I., Monday for the ice barrier to attempt a transfer with the Minto, became stuck in the ice and has not been able to get clear yet. The boat had a full cargo and the intention was to transfer with the Minto, which left Pictou with a full cargo for Georgetown. The Minto arrived at the barrier, but as the Stanley could not get to the barrier the Minto returned to Pictou.

If you select your servants from the class who read and answer want ads. you will at least have intelligent help—and you know from experience that nine out of ten of the poor servants are ignorant ones.

RECENT DEATHS.

Prominent Carleton County Men Have Passed Away.

Dennis Moriarty Died Suddenly at His House on Marsh Road.

WOODSTOCK, N. B., Mar. 8.—David Smith, one of the best known residents of the county, died at his home at Upper Woodstock, this morning after a brief illness. Mr. Smith had been identified with the hay and produce business for many years. He was a brother of the late A. C. Smith, of St. John, and an uncle to B. F. Smith, M. P. He leaves a family of three sons, all grown up.

By a rather sad coincidence the death also occurred this morning of Thomas E. Smith, for many years connected with the C. P. Railway office here, retiring some time ago on account of ill health. He was a resident of St. Andrews, but lived in Woodstock the last part of his life. He leaves a widow, one son and two daughters. Deceased has been ill with paralysis for the past three years.

DENNIS MORIARTY.

Dennis Moriarty, 47 Marsh road, was found dead in his bed Wednesday. Mr. Moriarty has been troubled some time with his heart and it is believed that his death was caused by heart failure. He was about eighty years of age.

Mr. Moriarty was born in Ireland and came to this country when a young man. He has been in the round house here since it was put in. He was superannuated only a short time ago.

He leaves a widow, who has been paralyzed for over three years, one son and one daughter. The son, Dr. W. P. Moriarty, is a dentist, of Boston. The daughter is the wife of Captain John Kernely and resides with her mother.

DANIEL DIAS.

SYDNEY, C. B., March 8th.—Daniel Dias died last evening of paralysis. He was stricken a few days ago and never recovered from the effects. Deceased was born in Belfast, Ireland, and resided in St. John for many years. He was 60 years of age and leaves a widow, three sons and three daughters.

Deceased's widow was a sister of the late M. A. Finn, of this city. For several years the late Mr. Dias conducted a liquor business on Water street and later moved to Union street. At the time of his death he was at Cape Breton. Mr. Dias moved here.

The funeral of the late Chief Lipsett took place this afternoon at 3 o'clock at his late residence, Brunswick street, and was very largely attended. The band and firemen preceded the truck which bore the remains.

This truck was beautifully trimmed and hauled by two horses tandem. The captain of the different fire companies acted as pall-bearers.

Following the remains came the mourners, and after these twenty men represented the R. C. R. of Fredericton, city council, officers of the 1st battalion and men, the old Victoria Rifles and citizens. Interment was made at the rural cemetery. The floral tributes, which were borne in sleighs in the procession, were numerous and beautiful, coming from all sections of the province.

MISS LOUISE R. DYKEMAN.

This death took place Wednesday in the city of Miss Louise R. Dykeman, second daughter of Abram and the late Maria E. Dykeman, aged 30 years. The cause was due to consumption. The funeral took place at 2:30 p.m. Saturday afternoon from the residence of her brother-in-law, F. R. Rogers, 93 Acadia street.

ISAAC BONNELL BUDD.

The death occurred at Rosedale, Mass., on the 14th February, of Isaac Bonnell Budd, of consumption, after an illness of five years. He was born at St. John, N. B., and his early life was spent in Digby, but for a number of years he has lived in the United States.

DR. BRODERICK'S CHILD.

The infant child of Dr. E. J. Broderick died on Wednesday, aged 11 days. The funeral took place yesterday at 2 p.m. at the residence of the late Dr. Broderick, which were borne in sleighs in the procession. The funeral was held in the new Catholic cemetery.

EASY CHANGE.

When Coffee is Doing Harm.

A lady writes from the land of cotton of the result of a four years' use of the food beverage—hot Postum Coffee: "Ever since I can remember we had used coffee three times a day. It had a more or less injurious effect upon us all, and I myself suffered almost death from indigestion and nervousness caused by it. I know it was that, because when I would leave it off for a few days I would feel better. But it was hard to give it up, even though I realized how harmful it was to me."

"At last I found a perfectly easy way to make the change! Four years ago I abandoned the coffee habit and began to drink Postum, and I also introduced the rest of the family to do the same. Even the children are allowed to drink it freely as they do water. And it has done us all great good. I no longer suffer from indigestion, and my nerves are in admirable tone since I began to use Postum Coffee. We never use the old coffee any more. We appreciate Postum as a delightful and healthful beverage, which not only digests but supplies the best of nourishment as well." Name given by Postum Co., Battle Creek, Mich. There's a reason.

Read the little book, "The Road to Wellville," in each package.

LEGISLATURE OPENS WITH USUAL CEREMONIES.

The Speech from the Throne—Mr. Hazen Scores Government for Its Apathetic Dealings With Provincial Affairs.

(Special to the Sun.)

FREDERICTON, N. B., March 9.—The N. B. Legislature was opened this afternoon at three o'clock with the usual ceremonies. At that hour His Honor Lt. Governor Snowball proceeded to the legislature, accompanied by the staff, which consisted of Col. White, Col. Wadmore, Colonel Mullin, Sheriff Sterling, Private Secretary Baker, and aide-de-camp, Capt. Carlin. The large assembly room was crowded and the scene presented a brilliant one. The 1st Battalion, headed by their band, under Captain Gray, acted as a guard of honor, and the Newscote Field Battery fired the usual salute.

Mr. Speaker, Mr. Hazen, Mr. MacNutt, and Mr. MacNutt, all of whom were present, took their seats on the throne, and read the following speech: "It is my pleasing duty to welcome you upon your again assembling for the discharge of your parliamentary duties."

Since prorogation the term of office of His Excellency Lord Minto has expired, and in common with the other provinces of the dominion the people have been deprived of the services of the late Governor General and the Countess of Minto, during their official residence with us, endeared themselves to the hearts of the Canadian people.

Our province was honored by a visit from Their Excellencies on two occasions, the second being a most memorable one, when they accompanied the present Prince and Princess of Wales. These visits are remembered with pleasure by our citizens.

To the present incumbent of this high and responsible office the people of New Brunswick, equally with those of the rest of Canada, accord a sincere and hearty welcome, due to His Excellency, as well by reason of his high personal qualities as by reason of his long and successful career.

He has manifested in the affairs of the dominion, I trust that under his administration our country may enjoy the same prosperity and peace as all classes may live in that peace and harmony which marked in so eminent a degree the term of office of his predecessor.

During the recess, the appeal taken by my advisers to the judicial committee of the privy council on the subject of the right of parliament to reduce the salaries of the judges of the province in the house of commons has been decided adversely to the contention of my government. It has been held that the population of the provinces of Canada admitted to the same as the confederation is to be taken into account in applying the provisions of sub-section 4 of section 51 of the British North America Act, known as the saving clause, which was originally inserted by the framers of the constitution in order to guard against reduction of representation.

An important feature in connection with the judgment of the judicial committee is that it is left undetermined as to whether or not, in considering the sub-section referred to, the population of the Territories is to be treated the same as the population of new provinces. It is now before parliament a measure is now before parliament providing for the creation of two additional provinces out of the Northwest Territories, my government is considered as desirous of directing attention to the necessity of making some provision in the act which will prevent the position of the province in respect of representation being still further prejudiced.

It is a matter of congratulation that the year just closed has been a period of contentment and average prosperity. In connection with the lumber industry, however, I regret that during the past year considerable depression existed in the trade, particularly in the English market, and for this reason many of those engaged in the business have limited their operations during the present season. But it is gratifying to note that this depression, which it was feared would continue for a considerable period, has largely passed away. Deals have appreciated in value and the tendency of the market is upwards. This industry is so important and gives employment to such a large number of our people, that its condition must always be matter of the greatest concern to those who are charged with the duty of administering the affairs of the province.

Considerable attention has, during the past year, been given to mining development, and there is reason to hope for continued satisfactory results. Under the legislation authorizing the executive to deal with the water power at Grand Falls, the preliminary steps have been taken for its development. The sum of fifty thousand dollars has been deposited with the receiver general by the province, and the safekeeping of the funds is guaranteed, as an evidence of bona fides. This sum is to be forfeited in case the works are not proceeded with. I look with very considerable confidence to the establishment in the near future of large manufacturing industries at this point, and for the distribution of electrical energy therefrom to various sections of the province. The agreement entered into between my government and the company will be laid before you.

The development of the coal areas in the counties of Queens, Sunbury and Kent is making gratifying progress, and my government anticipates a very considerable revenue to the province as a result of such development. During the recess my government has in conjunction with the other provinces, continued to press upon the dominion cabinet the desirability of readjusting the proposed salaries of the judges of the province. I am pleased to be in a position to inform you that there is reason to believe that the federal government is favorable to disposing of the question in a manner which will be satisfactory to the provinces, and I anticipate that steps to accomplish this end will be taken in the near future.

My government has also continued to press for a settlement of the matters in controversy between the provinces and the dominion in respect to the fisheries, including the right of the province to a portion of the Halifax Fishery Award. The terms of a proposed reference to this question, agreed upon by my government, are now under consideration of the federal authorities, and I trust that this important question will, before very long, be submitted to the supreme court of Canada for its decision, unless, as is not improbable, the subject may be not dealt with by the federal government. The re-adjustment of the provincial subsidies.

Pursuant to the authority conferred by the legislature at its last session, I have the honor to make a report on the subject of factory legislation. During the recess the commissioners have carefully investigated the subject and have prepared a report, as well as a bill dealing with the question, which will be submitted for your consideration.

Under the provisions of the act of the legislature, the commissioners of the provincial hospital, during the recess, employed two experienced physicians to make an examination of all the patients in the institution, and to report to the commissioners, which, if approved, they would be not damaged, and which should be taken care of by friends, or should be made a charge on the municipalities to which they belonged before being taken to the hospital. These gentlemen have, in conjunction with the medical superintendent, attended to the duties assigned to them, and have prepared a very full report, which will be laid before you.

The consolidated school at Kingston, in the county of Kings, established through the munificence of Sir William McDonald, which was opened some months ago, is proving a most successful one, and will be of great public benefit, not only by reason of the superior educational advantages which the institution affords, but as an incentive for the establishment of other similar schools throughout the province.

I have directed the accounts of the income and expenditure for the past year, as well as the receipts and payments of the current year, up to the opening of the present session, to be laid before you. Estimates of the probable income and expenditure for the current year will be submitted to you, and I think you will find that the estimates of expenditure have been prepared with a due regard to economy and the requirements of the public service.

Bills, to amend the Liquor License Act, the Probate Act, the Game Law, for the licensing and regulating of the provincial hospitals, and the act relating to Accident Insurance, to amend the Supreme Court Act and other measures of importance, will be submitted for your consideration.

The Hon. Mr. Tweedie submitted election returns for the counties of Westmorland, Carleton, St. John, and for the city of St. John.

Hon. Mr. Tweedie submitted returns of the votes polled for the City and County of St. John. Hon. Mr. Sweeney was introduced by the Hon. Mr. Tweedie and Mr. Legere. Hon. Mr. Jones was introduced by Hon. Mr. Pugsley and Hon. Mr. Farria.

Mr. Lowell, the new member for the county of St. John, was introduced by Hon. Mr. Tweedie and Mr. Legere. Mr. Maxwell, the new member for the city of St. John, was introduced by Messrs. Hazen and Smith.

Hon. Mr. Pugsley introduced a bill supported by life and accident insurance companies. Mr. Carpenter moved the address in reply to the lieutenant governor's speech, and spoke in part as follows: "Mr. Speaker—In attempting to move the address in reply to the speech from the throne, I cannot, as has been very frequently done in the past, ask the indulgence of the house as a new member, but I think I can very justly ask the indulgence of the house on account of the shortness of time I have had to prepare for the performance of this duty. While I recognize the fact that many of the members of this house could with short notice and little effort do justice to the different subjects mentioned in his honor's speech, yet I feel that I have much to say on some of the subjects of this speech, and I feel it very embarrassing to me under existing circumstances."

And now, in turning to the subject of the different provinces, and how much we may differ on some of its paragraphs, this house and this country will all agree with what is contained in its first three paragraphs, those relating to the departure of Lord and Lady Minto and to the reception of His Excellency Earl Grey. Lord and Lady Minto paid this province two visits, the second on the memorable occasion of the visit of the Prince and Princess of Wales, and we all know how they were received and how popular they became with the people of the different provinces, and how when they left this country they took with them the best wishes of the whole people.

We welcome His Excellency Lord Grey as a man of great ability, large experience and one who has long since taken an interest in Canada. Those portions of the address referring to the conduct of the deceased representative of New Brunswick in the dominion parliament are not without importance. I think it will be regretted by members on both sides of the house that the contention set up by the government of this province before the judicial committee of the privy council has not prevailed. It is certainly regrettable that the representation of the province in the Dominion is decreasing while some other portions of the Dominion are increasing their representation. I am strongly of the opinion that the necessary steps suggested in the speech will be put forward to prevent a further decrease in our representation will be heartily supported by the whole house.

The next two paragraphs deal with the general prosperity of the country and our great lumbering interests. It is gratifying to hear that there has been a depression in the lumber industry and what is regretted that this great industry should receive a check yet it has borne good fruit.

That portion of the address which refers to mining is brief, but its importance is far reaching. Referring to the coal areas of the province, I must say that the assistance granted by the Dominion government has been productive of important results. As a result of this assistance some 7,000 tons of coal were raised in Queens, Sunbury and Kent counties during the past season.

In the time of development of natural resources comes the Grand Falls water power, which is also referred to in the speech. You will all very well remember the action of the government to obtain control of different water powers in this province and I am sure that the members of this house will be gratified to know that the result of last year's legislation is already bearing good fruit and that the large sum of \$50,000 has been deposited with the government as a guarantee for further development.

The next paragraph of the speech refers to the provincial subsidies, a subject of great import to the province. If my memory serves me correctly it has been asserted by the leader of the opposition from his place in this house that the province would never get further consideration from Ottawa in this particular. I remember in years that have passed members of the opposition spoke along the same lines with reference to the eastern extension claims. Yet the present government has succeeded in effecting a settlement of these claims with the dominion government and obtaining therefrom the large sum of \$70,000. This question came before parliament at Ottawa a day or two ago on motion of Mr. Carleton.

Having the utmost confidence in your zeal for the public welfare, I am satisfied that your deliberations will tend to the enactment of such laws as will promote the happiness and prosperity of our people.

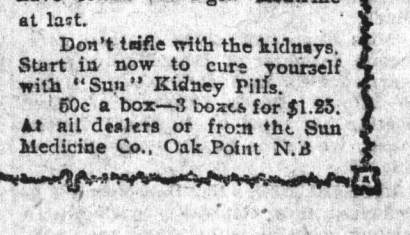

74 Years of Age and Cured of Rheumatism by "Sun" Kidney Pills

"I am 74 years of age, and have suffered for years with Rheumatism. My left leg shrank in size, and at times with my foot, was much more than six inches apart. Since taking 'Sun' Kidney Pills, the pain has left my arm, my leg has regained its normal position, and my foot is now as firm as ever. I can, at times, walk short distances without aching, a thing impossible before. 'Sun' Kidney Pills. I now refer to rest in my bed." STEPHEN PALMER.

Think of the disadvantages of treating a case like this. Mr. Palmer was 74 years old. He had suffered for years. His kidneys were badly diseased. His whole system was filled with uric acid which caused the swelling. Yet "Sun" Kidney Pills cured him just as easily and as quickly as though it was a simple touch of Rheumatism in a strong, vigorous man.

That's the way with "Sun" Kidney Pills. They cure ANY case of Rheumatism, Gout, Bright's Disease, Diabetes, Kidney or Bladder Trouble. Whether you've had it 6 months or 30 years—"Sun" Kidney Pills will cure you. The first box stops the aches—relieves the swelling—restores the blood—brings back the appetite—and makes you feel so much better in every way, that you know you have found the right medicine at last.

Don't tifle with the kidneys. Start in now to cure yourself with "Sun" Kidney Pills. At all dealers or from the Sun Medicine Co., Oak Point, N.B.

The development of the coal areas in the counties of Queens, Sunbury and Kent is making gratifying progress, and my government anticipates a very considerable revenue to the province as a result of such development. During the recess my government has in conjunction with the other provinces, continued to press upon the dominion cabinet the desirability of readjusting the proposed salaries of the judges of the province. I am pleased to be in a position to inform you that there is reason to believe that the federal government is favorable to disposing of the question in a manner which will be satisfactory to the provinces, and I anticipate that steps to accomplish this end will be taken in the near future.

My government has also continued to press for a settlement of the matters in controversy between the provinces and the dominion in respect to the fisheries, including the right of the province to a portion of the Halifax Fishery Award. The terms of a proposed reference to this question, agreed upon by my government, are now under consideration of the federal authorities, and I trust that this important question will, before very long, be submitted to the supreme court of Canada for its decision, unless, as is not improbable, the subject may be not dealt with by the federal government. The re-adjustment of the provincial subsidies.

Church's ALABASTINE

is a perfect and everlasting WALL-COATING, made from a cement base, in twenty days and white. One that HARDENS WITH AGE is ready for use by mixing in COLD WATER, and may be renovated whenever necessary to renew the wall surface.

NEVER SOLD IN BULK. Anyone can put it on—no one can rub it off. Write for booklet on Alabastine and how to use it. It's free.

The Alabastine Co. Limited, Paris, Ont.

well for a return of the correspondence between the federal and provincial governments on this question. In reply Sir Wilfrid Laurier draws the opportunity of laying the correspondence before the public. In 1887 the conference of province premiers at Quebec adopted a resolution that the subsidies granted to the provinces should be increased as the population grew. The government had since received requests from the various provinces individually in that way except British Columbia, which asked for an increase. Two years ago the Quebec resolutions had been reiterated at a conference of province premiers at Quebec. The system of subsidies adopted by the Dominion was not as wise as it could be made, but they must abide by it locally. It was too drastic and should be more elastic. These were other matters in which the relations between the Dominion and the provinces were not satisfactory, such as the fisheries. I am pleased to observe that in the same of the different provinces, and how much we may differ on some of its paragraphs, this house and this country will all agree with what is contained in its first three paragraphs, those relating to the departure of Lord and Lady Minto and to the reception of His Excellency Earl Grey. Lord and Lady Minto paid this province two visits, the second on the memorable occasion of the visit of the Prince and Princess of Wales, and we all know how they were received and how popular they became with the people of the different provinces, and how when they left this country they took with them the best wishes of the whole people.

WE WELCOME HIS EXCELLENCY LORD GREY as a man of great ability, large experience and one who has long since taken an interest in Canada. Those portions of the address referring to the conduct of the deceased representative of New Brunswick in the dominion parliament are not without importance. I think it will be regretted by members on both sides of the house that the contention set up by the government of this province before the judicial committee of the privy council has not prevailed. It is certainly regrettable that the representation of the province in the Dominion is decreasing while some other portions of the Dominion are increasing their representation. I am strongly of the opinion that the necessary steps suggested in the speech will be put forward to prevent a further decrease in our representation will be heartily supported by the whole house.

The next two paragraphs deal with the general prosperity of the country and our great lumbering interests. It is gratifying to hear that there has been a depression in the lumber industry and what is regretted that this great industry should receive a check yet it has borne good fruit.
