REPORT.

THE EXECUTIVE COMMITTEE of the ALUMNI of KING'S COLLEGE, in the discharge of their duty, have now to present a brief Report to the General Meeting of the Association, for the year which has just closed.

There is necessarily but little to report, more than that your Committee have carefully attended to all matters entrusted to them at the General Meetings of the Alumni. At one of these, which was held at Halifax, on the 17th day of October, and at which many of the members residing in the country were present, the subject of Proxies underwent full discussion. The result was, that the present mode of voting by proxy should not be interfered with, although a very strong opinion is held and was expressed by many valuable members, that it is unadvisable for any one person to hold more than four or five proxies, unless their object be distinctly specified.

It is always pleasing to be able to notice acts of the Alumni of the College, attesting their continued interest in its welfare, and your Committee are thankful to record, that beside the donation by Doctor CHARLES COGSWELL, last year, of £100 to found a Cricket Prize, Doctor ALMON has set apart the like sum for a Prize, to be called the WELSFORD TESTIMONIAL. This Prize is to be competed for in June, by all students who have not kept more than three Terms, the yearly interest to be assigned to the best essay commemorative of the gallant Major WELSFORD, an Alumnus of the College, who so nobly fell in the assault on Sebastopol, on the 8th September, 1855.

These sums, respectively, are vested in the Governors of King's College, who, at the request of your Committee, have granted to each of the donors a Certificate, entitling them to a free nomination.

Your Committee trust that the honorable example set by these Alumni, will be followed by many others, in adding to the attractions
