Reciprocity and Fish

THE SWING OF VICTORY

(Montreal Star.)

A Maritime Province correspondent writes us to the effect of these fishing licenses which the American fishermen are to get practically for nothing. After some encouraging words about our fight against the pact, he says:

"And wishing information on that part of the bill dealing with the fisheries, wherein our government expects to license American fishermen to the tune of one dollar per man each year, can you tell me what privilege is to be included in this license as given to American fishermen?

"This one item as pertaining to the fisheries part of the bill may mean, indeed, more than is shown on the face of the deal, and be the beginning of the end of our coastal fisheries." "It cannot be that we on the coast must open up to our neighbors the valuable fisheries we now enjoy."

RIGHTS GIVEN AWAY.

RIGHTS GIVEN AWAY.

The answer to our correspondent's enquiry is very simple. The licenses which will be given the American fishermen for the nominal fee of a dollar a year, are the same licenses which are now granted them under the "modus vivendi" for \$1.50 a ton. We may remark that this rate of \$1.50 a ton, works out at about \$125 a year per vessel for the ninety odd American vessels now using them. Under these licenses, the American fisherman can land at a Canadian port for the purpose of purchasing ice, bait and supplies, for shipping crews and the trans-shipment of the "catch" in short, they get for a dollar a year EVERY RIGHT IN OUR PORTS WHICH CANADIAN FISHERMEN HAVE, with the single exception of selling their fish, free of duty.

Thus we not only give the Americans our fish market in exchange for theirs—a poor trade, as we shallshow—but we bonus their fishermen to the tune of nearly \$125 apiece in competition with our fishermen. And we do this when The Hague tribunal has declared that we have the right to keep them out of our ports altogether.

WHAT WE PAY.

For this, we pay—what? First, we give our market. That amounts to about \$16,000,000 a year. They get a fighting chance for sixteen millions in exchange for less than six millions. Is that a good trade—for us? Secondly, we "pay" the opening of our market to the twelve most-favored nations, which export annually something like \$26,000,000 worth of fish. Thirdly, we neutralize the value of our present system of giving Government assistance in the expressage of fish from the Maritime Provinces to Montreal and the West. Today that assistance, joined with the duty, nicely enables the Maritime Province fish to beat Gloucester fish in the Montreal market. Remove the duty, and Gloucester fish will win in spite of the express assistance. Moreover, when the Americans stop our fish bounty, they will probably forbid that Government express assistance at the same time.

Now what do you think of that bargain? It looks to us as if the

ductive Cone Into Sunbury- Time in Three Weeks-Strike in Industrial World Gradually Abating

Special to The Standard.

Newcastle Bridge, Queens Co., Aug.
21.—The strike in the industrial world of the United Kingdom gradually is abating. With a bill of fare with which Col. Molean is seeking to beguile the electorate of Sunbury-Queens. At his political meeting here today to ice form and children, who composed the majority of his audience. Incidentally the Colonel and Senator King, who accompanied him, made speeches which were regarded by most of his audience as a tiresome but necessary part of the programme.

The Colonel had evidently got wind of the discontent and dissatisfaction which prevails throughout the constituency as his neglect to secure the Federal subsidy for the Minto-Gibson railway. He touched upon the subject only to offer the threadbare excuss that pressure of business at Ottawa prevented his doing anything before the end of the session. He gave no explanation as to why the provincia government granted the handsome subsidy of \$15,000 a mile months ago He had not even mentioned the subject.

The delay in starting the construction of the road is recognized here as due to Col. McLean's campaign so far has brought him little encouragement. On the other hand the Conservative meetings are attended by a large number of the electors, and the utmost confidence prevails that Luther Smith will be sent to Ottawa as the constituency's next representative.

Organization and Work should be the utmost confidence prevails that Luther Smith will be sent to Ottawa as the constituency's next representative.
