

Rev. H. L. Eisenor On Tuberculosis

Tuberculosis Sunday fittingly observed in St. Matthew's Church last evening—Instructive Sermon Preached by the Pastor.

Tuberculosis Sunday was fittingly observed in St. Matthew's Presbyterian church, North End, yesterday. A special sermon on the dread White Plague was preached by the pastor, Rev. H. L. Eisenor at the evening service. The reverend gentleman took as his text St. Matthew 9: 12, "They that be whole need not a physician, but they that are sick."

The general connection of the text and its bearing in the passage were discussed. Mr. Eisenor said that the miracles of Christ were part of His healing of the body. His public ministry proves the recognition of the two deadly enemies of mankind: Sin, the deadly enemy that afflicts the soul, and Disease, the deadly enemy that afflicts the body. We do not estimate largely enough His work in this direction. "Wherever He entered into village, or city, or country, they laid the sick in the streets, and they besought Him that they might touch the hem of His garment, and

as many as touched were made whole. The speaker said that sulphur is a gift to mankind as fire; it was the greatest single gift to humanity. Reference was made to the great advertising campaign being carried on in the United States in an effort to stamp out tuberculosis, the greatest cause of death on record, and yet preventable; the public in Great Britain were also being made aware by a similar campaign of the means to be used to combat the disease. The speaker said that the T. B. germ did not grow easily in the human body, in fact all animals had a certain degree of resistance, which was much greater in some than in others. One-tenth of all the deaths in the world were due to tuberculosis.

Mr. Eisenor said that the department of public health was a great asset in stamping out the disease in this province. Mention was made of the three great pioneers and the part they played in the discovery of the proper treatment of tuberculosis, Laessle, Koch and Villémus. It is chiefly to them that we owe the discovery of the preventability of this disease.

Fresh air, sunshine and good food were the important factors in the prevention, and also in the treatment of T. B. The speaker advocated dry sweeping, the use of a vacuum cleaner or carpet sweeper, the use of a damp cloth when dusting, as a means to prevent the spread of the disease. More attention should be given to housing conditions. There should be better living and working conditions. It was a tendency of the people of St. John to have their houses too warm in the winter and not warm enough in the spring and fall. Mr. Eisenor urged his congregation to let more fresh air and sunshine into their homes that they might be enabled to more readily combat the greatest of all diseases, tuberculosis.

Rev. Mr. Eisenor handled his subject in a masterly manner and showed that he had made it a matter of careful thought and deep study.

**NOSE CLOGGED FROM
A COLD OR CATARRH**
Apply Cream in Nostrils To
Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passage of your head is clear and you can breathe freely. No more hacking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

Sound for Halifax.
The liner Carmania, carrying 32 Canadian officers and 53 other ranks, is due at Halifax on or about Dec. 11, according to the military department advice.

Inconsistent.
"Bah, sir," snorted the irritable member of the club, "it's a waste of time to argue with you!"
"You're an inconsistent fellow!" said his unhappy victim.
"What do you mean?"
"You consider it a waste of time to argue with me, why don't you leave go of my coat lapels and let me go on with my business?"

NEW CANADIAN PACIFIC TOURIST CARS

Did you ever examine the cars in which you travel year after year and notice the improvements made for your Safety, Convenience and Comfort? The Canadian Pacific Railway Company has just perfected a new type of tourist car, of steel construction. The outstanding advantages of the tourist car are that it is a more economical, though less luxurious means of traveling, than the Standard Sleeper, and also that a woman can prepare her own food in her own way in the tiny kitchen at the end of the car. For those who desire a trip at the minimum cost, the tourist car is ideal.

The new car remembers the babies, and so, besides the range, it possesses a gas stove, where mother may speedily warm baby's bottle for him. She can keep his bottles in the refrigerator, where a receptacle is specially provided for milk bottles.

She washes her dishes in the enamel sink, drains them on the sanitary metal dresser and puts them away in a shining white cupboard. No boards to scrub off, with a consequently unpleasant smell of damp, gray wood. The metal metal is hygienic and will not rust.

When the children want a drink—as they do twenty times a day—they no longer require to enter the dressing room for it. Two water coolers, with sanitary cups, occupy a corner of either passage, easily accessible.

She who has never banged frantically on the dressing-room door can never realize all the agony a woman lives when she knows her station is the second one off—and some heartless creature holds up the room. Happily the Canadian Pacific Railway Company has cared for the poor soul; now she may share a room large enough for three women to dress at one time. There are three basins with a mirror over each, a long mirror in one door, and a curtain inside the entrance to protect one from any chance newcomer. The clean towels are packed in a box, the soiled ones go into a basket under the box. These rooms are absolutely sanitary—open plumbing sees to that.

The car, proper, contains fourteen sections, is finished in mahogany and rejoices in a strip of carpet down the middle of the floor.

"How light it is," a chance visitor remarked. This extra light is due to the windows having brass sashes—the pane is not divided, and the wood does not encroach on the glass. There are no deck seats, only padded sashes. "Porter, a screen, please," will soon be heard no more. The new cars keep the screens in position constantly, so that when the glass goes up, the screen comes down over the entire 19½ inches.

If one requires a porter during the

City Visited By Severe Storm

Five and a Half Inches of Snow and Two-Tenths of an Inch of Rainfall Recorded Since Saturday Night.

Yesterday afternoon was a busy one for the citizens of this city who had to turn out in force and shovel snow, which began to fall during the night Saturday and kept coming down until about noon on Sunday. The snow fall was followed by rain and sleet, which made the sidewalks very slippery and the church goes last evening had to watch their steps very closely in order to remain upright.

The official figures given out by D. L. Hutchinson of the Observatory for the snow fall were five and a half inches, and for the rain fall about two-tenths of an inch. The highest temperature recorded for yesterday was 32 above and the lowest 12 above, at nine o'clock last evening the thermometer stood at 29 above.

Many persons last evening noticed strange lights in the sky and numerous calls as to the cause were received at the Observatory, several being under the impression that they were the first signs of the big storm which has been predicted for the month of December. Mr. Hutchinson was, however, able to calm their fears as he pointed out they were only flashes from the trolley poles of the street cars, the sleet which formed on the wires causing the flashing, which had alarmed the timid ones.

The storm kept the street railway employees busy, but by hard work they were able to maintain a good service.

The city ploughs performed excellent work in cleaning the sidewalks during the morning.

At night, all one does is "push the button." Each berth has an electric light and a push bell; and, joy of joys, a mirror. No excuse now for parading the aisle in curl papers. The light under each lower berth shines out on the floor and saves the shoes of many who might stumble over baggage in the darkness of the car at midnight.

The berths are comfortable, the improved ventilation makes cinders an "unknown quantity," so the women who travel in them are sure to say that the New Canadian Pacific Tourist Cars spell Travelling Comfort.

One Great Essential To A Woman's Health Is Her Nerves.

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired, out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N. S., writes:—"I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE MARITIME COMMERCIAL TRAVELLERS' ASSOCIATION

The annual general meeting of the members of this association will be held at the Board of Trade rooms, Halifax, N. S., on Friday, December 12th, 1919, at 8 p.m., to receive the report of the Board of Management for the year, the result of the ballot for officers and directors for the ensuing year, and for the consideration of any other business that may properly come before the meeting.

G. E. FAULKNER,
Secretary.

Halifax, N. S., Nov. 27, 1919.
