River received his medal, and as for the other articles, he stated that they were promised him some time ago, by the Agent, but did not say when, this old man told me that he did not expect to live long, and would like these things before he died. You will understand when an Indian says he has been promised things, I find that only meansthat he has asked for theme things, no doubt this man has asked Mr. Logan for these articles and has taken for granted that he was promised them.

Your obedient servant,

Indian Agent.

The Assistant Deputy and Secretary,

Department of Indian Affairs, Ottawa

Indian Affairs. (RG 10, Volume 3812, file 55,340)
