1841-42	- - - - -	46,999
1842-43	- - - - -	54,515*
TOTAL - - - £.		222,762

* The sum of 33,581 l. 3s. was paid in the year 1842-43, for building the "Sydenham" steam-vessel in Canada, but as the expense was not incurred upon account of the Canadas, it has been excluded from this Return.

Memorandum.—No sums have been specially asked for from Parliament by the Naval Department from 1837 to 1843, inclusive, in consequence of the insurrection in Canada. The increased expenditure of the navy for 1839-40, was defrayed by the Lords of the Treasury out of the special vote for Canada of that year.

Admiralty, 19 April 1844.

(signed) J. T. Briggs,
Acc^t Gen^l of the Navy.

4.—COMMISSARIAT. - - - - -

(a) The full amount of supplies, purchases of provisions, forage, fuel, and light, paid for in Canada, is included in this Return, for the respective years. The amounts of the stoppages for provisions issued on account of regiments, accounted for to Secretary at War, as regards the year 1835-36, and the sums paid over as the value of provisions, forage, and fuel, for the subsequent years, viz. 1836-37 to 1842-43, have been obtained by the Treasury from the Secretary at War; and the amount of stoppages paid into the Commissariat chest on the spot, together with the amount of regimental stoppages and value of supplies for regimental services (obtained from the War Office), have been deducted in the Abstract from the gross amount of supplies furnished to Canada in the year, whether by purchases on the spot, or shipments from England.

(b) Under this head are included various charges for services not generally considered as connected with Commissariat Expenditure, and there may be a doubt whether they come within the purview of the Order of the House of Commons; it has, however, been deemed best to insert them.

1835-36	- -	Fees paid on grants of land to military pensioners	- - - -	£. s. d.
