

Mrs. Eva Bertram is seen relaxing by the pool which was designed and built by her husband. This pool is most unique in the fact that its construction consists basically of plywood. Photo by Larry Gooder.

Designs Plywood Pool

A Park Royal resident unveiled a new swimming pool design recently and his

Twsp. Meetings

To Go On Tape

Future meetings of Toronto Township Council will be recorded on tape, it was decided last week.

General committee of council approved a resolution by Reeve Bob Speck that the township lease or rent a tape recorder for all council and committee meetings "on a trial basis".

It was the general feeling of the committee members that this would help avoid any disputes arising from misunderstandings.

tiping couldn't have been better.

Dick Bertram, the manager of the new Humber Lumber Company in Clarkson, has spent the past two years "off and on" working out the design for a 24 foot swimming pool constructed almost entirely of plywood.

Earlier this month, with the help of some friends, he built the pool in the back yard of his home at 2134 Truscott Drive.

"We started it on a Monday," he said, "and finished the following Saturday. To the best of my knowledge, it is the first pool of its kind."

Some features of this new

pool design are: (1) the fact that it is permanently installed; (2) its life expectancy is in the range of 12 years; (3) there will be no cracking or leaking as a result of the fact that it has a vinyl liner; (4) there is no annual painting, and (5) it can be constructed and installed for substantially less than any other pool now available on the market. This is all according to the proud designer himself.

Bertram, who has been in the lumber and plywood business for the past 18 years, now has this new type pool under construction by the Glenleven Pool and Playground Equipment Co., in Clarkson.
