

# PEOPLE

That's what makes Consumers' Gas tick. It used to be the old-timers depicted as in a first-floor wall graphic above. Today it's workers like utility man Otto Vogel, shown on a forklift truck and the gang relaxing below in the cafeteria staff at Consumers' new Burnhamthorpe Rd. building.

LTD.  
1178 Crestlawn Dr.  
Mississauga  
625-1481

### IS THIS THE ULTIMATE IN OUTDOOR COOKING?

- A lot of barbecuers think so, and here's why. For starters it costs more, but you get more:
- Heavy duty, rust-free aluminum construction.
  - Rust-free, porcelain enamelled cooking grids.
  - Burners coated inside and out with porcelain enamel.
  - A temperature gauge that takes the guesswork out of cooking.
  - Permanent lava rock 'coals' for delicious barbecue flavor.
  - No messy charcoal to fuss with.
  - 3-year warranty.
- Go all the way up to super quality, and barbecue, broil, roast, smoke, bake, fry and stew, all year 'round with the one they call 'the ultimate'.
