

Geo. A. Cruise.

Later of course some plan for a real live daily will surely rise to give a better balanced political view than now prevails in Saskatchewan.

The situation is really tragic especially in the county centres and small towns of the keen interest to learn a new point of view in politics

Both Federal and Provincial county rallies might soon be called of Conservative supporters and organization officials that would get the Province aroused and permanent organization established. All the Conservative candidates meantime should express their views from their recent experience.

Yours truly,

Signed Wil James Thompson.
