^{CANTIN}
STATEMENT OF "Lieut M.R. ~~XXXX~~" (Nursing Sister)
10th Cdn Gen Hospital.

At the time of the accident I was riding in the front seat of the jeep and talking to the soldiers in the back.

The first I knew of the accident was when I felt the bump and my hat flew off.

Sgt. Shinton was bleeding from the mouth and did not respond to us. The others were all right. Sgt. Shinton was definitely unconscious, pulse in fairly good condition with large hecnota above right eye.

We had previous to supper at 1730 hrs drank one half bottle of Scotch between five people and one bottle of Cognac after ~~xxxx~~ supper between six people.

We left Turnhout at about 2040 hrs.
