

Wise parents provide for their boys and girls an education for commercial life which will make them independent, able at any time to earn a comfortable livelihood. ¶ The Kennedy School gives such a training, evidenced by the fact that it has won the Typewriting Championship of the World in ten successive contests; but it makes the strongest appeal to the better class of pupils—who desire in a school a degree of refinement and a cultural element lacking in the business college. ¶ We are pleased to send our literature upon application. THE KENNEDY SCHOOL of Shorthand and Modern Business Training, 9 Adelaide Street East, Toronto.
